### SANGEET NATAK AKADEMI

(National Academy of Dance, Drama & Music)

Rabindra Bhavan, Ferozeshah Road, New Delhi 1.

The Akademi was established on January 28, 1953. The chief objective of the Akademi is to foster and develop, Indian dance, drama and music and to promote through them the cultural unity of the country. Also, the Akademi co-ordinates the activities of regional organisations, promotes research, sets up training institution and sponsors festivals and cultural exchanges in the field of dance, drama and music.

*Organisational Set-up :* The Akademi functions through a General Council, Executive Board, a Finance Committee and other Standing or *ad hoc* Committees which the General Council or the Executive Board may appoint. The General Council consists of a Chairman, a Financial Adviser, five persons to be nominated by the Government of India, one nominee each from the 15 State Governments, one representative of the Union Ministry of Education, one representative of the Union Ministry of Information and Broadcasting, two representatives each of Sahitya Akademi and Lalit Kala Akademi, 12 representatives chosen in consultation with organisations in the field of dance, drama and music recognised by the Akademi and eight eminent persons in the field of dance, drama and music, from different regions of India.

*General Programme :* The main task which the Sangeet Natak Akademi has set itself for the present, is to conduct survey and research in the existing art-forms found in various parts of the country to record them in order to preserve them as part of our cultural heritage, and to publish, or to encourage publication of material about them. The Akademi also aims at developing and popularising these arts by organising and sponsoring seminars and festivals, play competition, etc. by establishing new institutes or taking over the existing ones whenever possible or desirable, for imparting higher training. For all these purposes the Akademi has given grants.

The Akademi's programme also includes Awards to eminent artistes, for music, folk and classical dance and drama.

# GOA, DAMAN AND DIU

Area: 1,431 sq. miles (Goa 1,394 sq. miles; Daman 22 sq. miles; Diu 15 sq. miles). Pop.: 6,34,584 (1960 Census); Capital: Panjim.

The Hindu population is estimated at 3,88,654; Catholics 2,30,997; Muslims 14,716.

All the three territories are situated practically within the area covered by Maharashtra and Gujarat States. Goa is on the Konkan Coast; Daman lies on the Gujarat coast at the entrance to the Gulf of Cambay; and Diu is a tiny islet and along with the isolated spots, Gogola and Simbor, lies on the southern fringe of the Kathiawad peninsula.

The Goa region constitutes one district under the charge of a Collector, with headquarters in Panjim. The district is divided into two subdivisions, namely the north sub-division comprising Goa, Pernem, Bardez, Bicholem and Satari and the south sub-division comprising Ponda, Sanguem, Quepem, Salcete, Vasco and Canacona. The Daman region is also under the charge of a Collector while Diu is in charge of an Administrator.

*Important towns:* Panjim (Capital: Pop. 34,634); Margao (Principal business centre: Pop. 15,257); Mapuca (Pop. 8,260); Vasco da Gama (Pop. 6,254).

*Other towns:* Ponda, Pernem, Canacona, Quepem.

*Rivers:* Mandovi, Zuari, Terekhol, Chapora, Baga, Talpona, Sal and Galgibaga.

*Ferries:* Panjim—Betim (over Mandovi); Agacaim—Cortalim (over Zuari); Panjim—Aldonam (over Mandovi); Dona Paula—Marmagoa (over Zuari).

### HISTORIC AND RELIGIOUS PLACES

In Old Goa, about eight miles from Panjim, there are several convents, the most important among them being the Basilica of Bom Jesus, popularly known as the Church of St. Francis Xavier. The body of Goa's patron saint, Ffancis Xavier is kept there. Not far from this Church are the Cathedral Sé Convent built between 1562 and 1619, the Convent of St. Francis Assisi, completed in 1667. At Pilar, five miles from Panjim, is located the noted Pilar Seminary. The exposition of the Body of St. Francis Xavier was held at Bom Jesus Basilica in December 1964.

Ponda taluka is well known for famous Hindu temples which house family deities of multitudes of Goans. Noted among these are the Mangesh Temple, a small but elegant structure situated on the side of a hill at Priol with a majestic tower at its entrance, and the Shantadurga temple at Quela, with a triple image of Vishnu, Shantadurga and Siva. At Bandora are located temples of Mahalakshmi and Nagesh.

### HISTORY

Goa was captured for the Portuguese by Alfonso de Albuquerque in 1510. Albuquerque promptly fortified the place and established Portuguese rule on a firm basis. From this time Goa rapidly rose in importance and became the metropolis of Portuguese power in the East. There was constant fighting with the armies of the Bijapur kingdom, but the Portuguese held their own and gained the surrounding territory now known as the Velhas Conquistas.

The subsequent history of the town is one of ostentation and decay. Goa reached its summit of prosperity at the end of the sixteenth century. The accounts of travellers show that the Goa of those days presented a scene of military, ecclesiastical and commercial magnificence which has had no parallel in the British capitals of India. Portugal, however, with its three millions of population, was too small to defend itself against Spain and maintain at the same time its immense Empire in the four Continents. Albuquerque tried to consolidate Portuguese rule in India by his policy of attracting the conquered Indians and granting them civil and religious liberties. His contemporaries, however, could not understand his far-seeing statesmanship and after his death they undid all his work basing their dominion on conquest by the sword and military force and they laboured to consolidate it by a proselytising organisation which threw all the missionary efforts of every other European power in India into the shade. Old Goa, as the ruins of the old capital are called today, had a hundred churches, many of them of magnificent proportions, and the Inquisition which was a power in the land. The sixty years' subjection to Spain in the 17th century completed the ruin of the Portuguese Empire in the East and though the Marquis of Pombal in the 18th century tried to stave off its decadence, his subordinates in far-off India either could not understand or would not carry out his orders and even his strong hand was unable to stop the decline. It was in the 19th century that the colonials began to enjoy full Portuguese citizenship and sent their representatives to the Parliament in Lisbon.

### MODERN TIMES

There was frequently recurring fighting and in 1741 the Marathas invaded the neighbourhood of Goa and threatened the city itself. An army of 12,000 men arrived from Portugal at the critical moment. The invaders were beaten off, and the Novas Conquistas were added to the Portuguese possessions. In 1844 the shelter given by Goa to fugitives from justice in British territory threatened to bring about a rupture with the British Government at Bombay. In 1852 the Ranes of Satari, in the Novas Conquistas, revolted. In 1871 the native army in Goa mutinied and the King's own brother came from Lisbon to deal with the trouble and having done so disbanded the native army, which has never been reconstituted. But another outbreak among the troops took place in 1895 and the Ranes joining them the trouble was again not quieted until the arrival of another special expedition from Lisbon. The Ranes again broke out in 1901 and again in 1912, troops being again imported to deal with the last outbreak, which was only reported concluded in the summer of 1913.

## LIBERATION MOVEMENT

The long drawn-out freedom struggle of the people of Goa, Daman and Diu culminated, with the help of the Indian army, in their liberation from the 451-year-old Portuguese colonial rule on December 19, 1961.

On March 14 the Lok Sabha passed the Constitution 12th Amendment Bill declaring Goa, Daman and Diu as Union Territories. Subsequently two Goans, Dr. P. D. Gaitonde and Dr. Antonio Colaco were nominated to Lok Sabha by the President.

## COMMERCE, INDUSTRIES AND BANKS

The only Banco Nacional Ultramarino operating in the territory was closed after liberation. Now, the State Bank of India operates with branches in Panjim, Vasco, Margao and Mapuca, while a few other commercial Banks have opened their branches in Goa since March 1963.

The Life Insurance Corporation of India which had suspended its business in Goa and had limited its activity during the intervening years, resumed its operations after liberation and has registered fresh business.

The chief agricultural products of Goa are rice, coconuts, cashew-nuts, betel-nuts and mangoes Rice grown is not sufficient for local consumption for the whole year.

Free movement of trade between Goa and the rest of the country was restored after liberation in respect of products of Goan and Indian origin. But import of a large variety of luxury articles, motor cars and certain varieties of alcoholic beverages as also such of the products which are obtainable from other parts of the country, has been stopped.

During the Portuguese regime there was no major industry in Goa except the mining of iron and manganese ores. With the coming into force of the Industries (Development & Regulation) Act, 1951 in Goa, Government's approval for starting about 261 new small-scale industries in Goa, Daman and Diu has been obtained. These include units for production of a large variety of industrial and consumer goods.

Two industrial estates are being set up at Margao and Vasco da Gama to be run by co-operative societies. A rural industries project, with a capital outlay of Rs. 20 lakhs, has been sanctioned for encouraging small-scale and village industries.

## AGRICULTURE

Situated on the Malabar coast in the extreme southwestern part of Bijapur, Goa has a land surface of 1,537 square miles. Paddy fields cover 12·4 per cent of the cultivable area. The distribution of other areas is as follows : 5 per cent for coconut cultivation, 8·9 per cent for cashew-nut cultivation, 32·8 per cent under forests, 6·6 per cent for hill tract cultivation, 19·8 per cent uncultivated productive area. Cashew, arecanuts, mangoes and coconuts are exported.

The new Agricultural Tenancy Act gives security of tenure to the cultivator and also ensures efficient management of land for increase in agricultural production. It is expected that with the introduction of this Act, there will be more participation by cultivators in the benefits which are now being extended by the Agriculture Department through the Community Development Blocks for increase in agricultural production.

Annual production of rice is about 48,000 metric tons and the annual consumption is estimated to be about 73,000 metric tons. The pre-liberation deficit of 30,000 tonnes of rice has been reduced by about 10,000 tonnes and it is expected to be reduced by another 10,000 tonnes by the end of the current agricultural year. Main vegetables viz., jack fruit, sweet potatoes, brinjals, etc. valued at Rs. 30 lakhs are produced annually.

*Comunidades :* A large part of the cultivable lands belongs to village communities, popularly known as comunidades which are a type of agricultural cooperatives. There are a number of such communities in each of the 11 administrative divisions—31 in Ilhas, 37 in Salcete, 39 in Bardez, 14 in Mormugao, 28 in Ponda, 21 in Bicholim, 24 in Quepem, 12 in Pernem, 7 in Sanguem, 2 in Satari and 7 in Canacona. The Land Reforms Commission has suggested in its report that their administration be turned over to Block Development officers.

## MINERALS

Goa has vast mineral wealth and abounds in scenic beauty. It has great potentialities for development as a centre of tourist attraction. The people are marvellously adaptable and are found in different parts of the world notably in the Bombay region of India, East Africa, and U.K. Export of manganese and iron ores is the mainstay of Goa's economy and has been a valuable foreign exchange earner.

Mining operations to exploit and export Goa's rich mineral wealth started as recently as 1949. The main operational centres are Pailigao and Sirigao near Bicholim. There are as many as 445 mines producing manganese and ferromanganese ore and 353 producing iron ore. The mining method adopted in almost all the mines in Goa is open-cast and benching system. The usual percentage of iron content in these ores varies between 55 and 65. The high grade hematite ore containing about 68 per cent of iron and magnetite also occur in some places.

The manganese ores found in Goa are Pyrolusite and Psilomelane. Most of these deposits occur in pocket formation and are mainly located in southern parts of Sanguem and Quepem talukas.

The export of iron ore has steadily risen in the past few years. In 1959, 3,629,459 metric tons of iron ore was exported. It increased to 6,527,695 metric tons in the year 1961.

Exports in metric tons and value in Rs. crores respectively of iron ore etc. during 1963 : Iron ore 53,85,213 ; 16·03 ; manganese 18,155 ; 22·37 ; ferro-manganese 76,748 ; 29·24.

The mechanisation of some of the mines under private ownership began in 1951 with Japanese collaboration.

Mormugao harbour, one of the finest natural harbours in the country, is the main outlet for the ore and has a vast hinterland in Mysore and Maharashtra States, and plans are under way for extensive dredging of the harbour to develop into a first rate port.

## COTTAGE AND SMALL SCALE INDUSTRIES

Goa has very few cottage and small scale or even large industries. Some of these are : ornamented wood works (Cuncolim), cashewnut peeling-packing factory (Bicholim), match factory (Ponda), umbrella factories (Piedade and Margao), soap factories (Bicholim and Mapuca), handloom factory (Aldonam), candle factory (Margao) and pottery works (Bicholim). A Small Industries Service Institute has been set up in Margao and Department of Industries has been attached to the Secretariat in Panjim for promoting projects for rapid industrialisation of the Territory.

## PLANNING

A Planning Board appointed under the Chairmanship of Mr. W. X. Mascarenhas, an experienced Goan engineer, submitted in January 1963 a Rs. 29·04-crore draft plan with territory's development schemes for integration with India's Third Five-Year Plan. There is great scope for developing small-scale and cooperative industries. The power needs of the region are expected to be partially met from the Koyna Hydro-Electric projects in Maharashtra and Sharavathi projects in Mysore State. The possibility of drawing power supply from the waters of the Dudhsagar falls near Castle Rock in course of time is also under examination. Two towns Bicholim and Pernem were the first to receive electric supply from Koyna on Dec. 19, 1963.

Distribution of the Plan Outlay (in crores of rupees): Power 11·34 ; Transport, Communications and Buildings 5·75 ; Social Services 5·20 ; Agriculture and allied subjects 4 ; Industries and Minerals 1·5 ; Co-operation, Panchayat and Community Development 1·25. Total 29·04.

The Planning Commission has allotted a ceiling of Rs. 10 crores for development projects in Goa, Daman and Diu for 1965–66 as against the requirements of Rs. 13·2 crores.

A detailed scheme has been prepared to develop Goa as a tourist centre during the Third Plan period at an estimated cost of Rs. 39·20 lakhs.

A 20-room tourist bungalow with a restaurant at Calangute beach and a seven storeyed tourist hotel are nearing completion.

The Goa Planning Board has recommended a total outlay of Rs. 90 crores for the Fourth Plan of the Union Territory.

## EDUCATION

An Education Commission, with Dr. B. N. Jha as Chairman and Professor Armando Menezes and Mrs. Vijaya Mullay as member and member-secretary respectively, was appointed by the Government of India to examine the Goan educational system and modify it to fit into the pattern obtaining in the other parts of the country. Its main recommendations pertained to moulding of Goan education pattern to accord with the requirements of the Central Board of Education, Delhi. It suggested that the mother tongue of the child should be the medium of instruction at the primary stage, with an option to the parents to choose any of the languages mentioned in the Constitution.

Four Arts and Science Colleges have been opened, since liberation, by private societies. A polytechnic leading to diploma courses in engineering has been started from June 1963, while an engineering college providing for degree courses is proposed to be opened later. The Goa Medical School was up-graded into a medical college and First Year M.B.B.S. course introduced from July 1963.

There has been significant progress in the last two years in the sphere of education. Free and compulsory education has been introduced at the primary level. As against 17,000 students in 176 government schools before liberation, there are now 66,642 students in 716 Government primary schools, the enrolment at primary level including non-Government schools being 91,000.

In the field of secondary education, the Grant-in-Code has been introduced on the pattern prevailing in Maharashtra State. The number of secondary schools is 159 with an enrolment of 22,565 as against 78 schools with 8,000 students before liberation.

## TRANSPORT AND COMMUNICATIONS

Rail communication which was suspended in 1954 was restored after the liberation and a direct train service between Vasco da Gama and Poona has been introduced. There is a proposal to convert the metre gauge into broad gauge to facilitate increasing passenger and goods traffic.

Mormugao, the chief port described as the "Gateway of Goa," is one of the major harbours on the west coast of India. It permits of ocean-going vessels of various sizes from all parts of the world, but ships mainly from Japan, America and Europe call at the port to take cargo of iron and manganese ore. Coastal steamer services between Bombay and Panjim and Bombay and Mormugao were resumed in March 1962 after suspension for eight years before the liberation of the enclaves. Road transport services between Panjim and Belgaum *via* Anmod, to and from Savantwadi *via* Doddamarg and between Betim and Poona and between Hubli and Panjim have also been introduced. Goa is criss-crossed by as many as half a dozen rivers and rivulets, and internal waterways are being developed fully for transport of men and goods. Bridges across Mandovi and Zuari rivers at Panjim and Cortalim have also been planned. A bridge across the Diu creek at Tad, about three miles from Diu, which will link Diu with the mainland of India, is under construction.

The treacherous stretch of nearly 50 miles of road from Ponda to Anmod, including the treacherous ghat section, was repaired, widened and asphalted during the early part of 1963 in a record time of six months enabling speedier traffic on one of Goa's important road outlets connecting it with Belgaum.

Improvement of road communications is an integral part of the development plan formulated by Government for the new Union Territory of Goa, Daman and Diu. There are at present 1,730 kilometers of roads in this Territory of which 730 kilometers are Government roads and the remaining 1,000 kilometers are municipal roads. Nearly 50 per cent of the Government roads have black-topped surface.

Apart from the reconstruction of the bridges and roads destroyed by the Portuguese army, the Public Works Department has taken up a programme of construction of new roads forming part of the inter-State highways have been metalled and black topped.

The West Coast Highway, linking Bombay with Cape Comorin, is expected to be completed, as far as the Goa portion is concerned, to the extent of 87 kilometres by the end of the Third Plan.

Construction of a major bridge over Mandovi has been started. One bridge at Daman and another at Diu are also under construction.

*Postal and telegraphic facilities :* At present there are 80 post offices in Goa. All towns with more than 2,000 population are proposed to be covered with one post office each. At present, telegraphic facilities for filing telegraphs are provided at Panjim, Mapuca, Vasco da Gama, Margao and Ponda. A fully automatic telephone exchange was pressed into service on the liberation anniversary day — 19th Dec. 1962 — replacing the Magneto system in Panjim. A telephone exchange operating on C.B. (Central Battery) system replaced the obsolete magneto system in Vasco on Jan. 26, 1964.

Radio Goa broadcasts for a total of nine and half hours (9½) every day programmes in four languages, Konkani, Marathi, English and Portuguese. The transmitters are located at Bambolim, four miles from Panjim.

### PRESS

A stringent censorship controlled the freedom of the press during the Portuguese regime. One of the initial acts of the Administration after liberation was the abolition of pre-censorship of newspapers. At present there are one English daily, four Portuguese language dailies and two weeklies, four Marathi dailies, one weekly and one monthly, two English language weeklies, and Konkani weeklies and one fortnightly, one trilingual periodical in Hindi, Marathi and Konkani.

### ADMINISTRATION

The first popular government of Goa, Daman and Diu consisting of three Ministers headed by Mr. Dayanand Bandodkar was formed on Dec. 20, 1963 by the Maharashtra Gomantak party after the first general elections in Goa on Dec. 9, 1963 (for details about the elections, see under article on "General Elections".)

**Appeal Court for Goa :** President Radhakrishnan promulgated on Jan. 2, 1964 a regulation providing for the establishment of a judicial commissioner's court for Goa, Daman and Diu.

The judicial commissioner's court will be the highest civil and criminal court of appeal and revision in Goa, Daman and Diu, the regulation said.

Indian citizenship has been conferred on persons born or domiciled in the territories of Goa, Daman and Diu and Dadra and Nagar Haveli.

### DAMAN

Daman in Gujarat has a total area of 22 square miles and a population of 23,093 inhabitants, mostly of Gujarati extraction.

There are some very interesting historical relics here such as the old fort and a few surviving churches reminiscent of the old times.

### DIU

About 150 miles to the north-west of Daman lies the tiny islet of Diu off the southern coast of Kathiawad. It is a small town separated from the mainland by a narrow arm of the sea. Dependent on it and surrounded by the territory of Junagadh is the enclave of Gogola and also the island and fort of Pani Cota in the bay of Simbor.

Diu is reached from Bombay by the Western Railway *via* Viramgam and Delwada. Access by sea is easier and more rapid but there is no harbour. There is an excellent roadstead where ships can safely anchor in two fathoms of water.

Area : 15 sq. miles. The population is 15,922.

## DADRA AND NAGAR HAVELI

*Headquarters :* Silvassa.

Area 189 sq. miles ; Population 57,932 (males 29,517 ; females 28,415) (1961 census). 5,232 men and 1,110 women are literate.

The Goa Action Committee, composed of all Goan parties in Bombay, appointed an administrator till the Centre took over the administration. These enclaves are situated near Daman.

A Rs. 85-lakh development plan has been prepared for the 191-square-mile enclave of Nagar Haveli. Among the construction activities included in the plan are three bridges over the two rivers, costing Rs. 10 lakhs, 75 miles of roads, schools and village water system.

Handmade paper industry, catechu (Ratla used in pan) manufacture, tanneries and tile and brick factories, a public library and a maternity home have also been constructed. Over 3,000 students now attend schools, on which the administration spends about Rs. 88,000. Spinning and carpentry are taught in the schools.

Number of workshops registered in the area : 1,314.

A model cottage hospital, a veterinary dispensary and four dispensaries have started functioning.

The first elected Administrative-cum-Legislative Council of Dadra and Nagar Haveli unanimously voted on June 13, 1961, for merger with the Indian Union. The Government appointed Administrator told the Council that he had been authorised by the Government of India to inform it that it accepted the request for merger and that it would be administered Centrally. A Bill for merger of these areas was introduced in the Lok Sabha in August 1961. The Bill has already received the President's assent.

Dadra and Nagar Haveli are administered directly by the Centre and does not come under the Control of the Goa Government.

# GUJARAT

THE State of Gujarat came into being on May 1, 1960. Until its formation as a separate State it was part of the bilingual State of Bombay.

The State was formed through the enactment of a measure called the Bombay Reorganisation Act, 1960.

Capital : Ahmedabad.

Area : 71,056 sq. miles. Population : 20·63 million (1961 census). See *"Population"* for detailed 1961 census figures.

There are 19 Districts and 186 Talukas. The number of municipalities is 59 (including Ahmedabad Municipal Corporation).

Districts with headquarters in brackets are as follows :—

Ahmedabad (Ahmedabad), Baroda (Baroda), Banaskantha (Palanpur), Broach (Broach), Mehsana (Mehsana), Kaira (Kaira), Panch Mahals (Godhra), the Dangs (Ahwa), Surat (Surat), Sabarkantha (Himatnagar), Jamnagar (Jamnagar), Bhavnagar (Bhavnagar), Amreli (Amreli), Junagadh (Junagadh), Kutch (Bhuj), Rajkot (Rajkot), Surendranagar (Surendranagar), Bulsar (Bulsar), Gandhinagar (Ahmedabad).

(For names of talukas and their area and towns and their population see under *"Population"*.)

In Surat an existing Taluka, Songadh has been enlarged through the addition of 38 villages each from the Nawapur and Nandurbar Talukas of the Dhulia District. And a new Taluka called Umbergaon has been added which consists of 50 villages formerly in the Umbergaon Taluka of Thana District.

In Broach District the Sagbara Taluka has been enlarged through the addition of 80 villages from the Akkalkuwa and Taloda Talukas of Dhulia District.

Gujarat State has a unicameral legislature. The strength of the Legislative Assembly is 154. The State sends 11 members to the Rajya Sabha and 22 to the Lok Sabha.

Certain institutions located in Maharashtra, would continue to provide the same facilities to the people of Gujarat as they did before bifurcation.

Though the State has fertile land it is deficit in food to the extent of 1·8 million tons a year. Its resources of industry and power are at the present time low. There is also a surprisingly high percentage of backward and Scheduled Classes and Scheduled Tribes. They constitute 93 per cent of the population of Dangs, 53 per cent in Surat, 38 per cent in Panch Mahals, 47 per cent in Broach and 27 per cent in Baroda. One bright feature is the existence of mineral oil in the Ankleshwar, Kalol and Cambay region.

Gujarati is the language of administration. Acts of the former Bombay Government have been published in Gujarati. The former Baroda and Saurashtra States have had a long experience of Gujarati in the administration and the law courts. The Gujarat University has made Gujarati the medium of instruction and examination.

Two policy decisions are : Gujarati will be the language of administration, law courts and university, and Hindi for communication with the Union Government.

## GEOGRAPHY

Gujarat State is situated on the west coast of India between 20·1 and 24·7 degrees north latitude and 68·4 and 74·4 degrees east longitude. The State is bounded by the Arabian Sea on the west, Rajasthan in the north and east, Madhya Pradesh in the south-east and Maharashtra in the south.

The bigger rivers are Banas, Saraswati, Sabarmati, Mahi and of course, the Narmada and Tapti. The smaller rivers are Machhu, Bhadar, Shetrunji and Damanganga. The land slopes gradually from the east to the west. The soils are of two classes the black cotton soil which yields the famous Broach cottons, the finest in India and alluvial which under careful cultivation in Ahmedabad and Kaira make splendid garden land. The plains watered by the Narmada and Tapti are very rich. Their fertility is so marked that they are sometimes called the Garden of India.

On the basis of average rainfall the regional features can be summarised as follows :—

South Gujarat, where the rainfall varies between 30″ and 60″. The annual range in temperature is wide.

North Gujarat, where the rainfall varies between 20″ and 40″ but is mostly around 40″ in Godhra and 25″ in Viramgam. The area has lower winter temperatures.

Saurashtra, the area comprising the coastal regions of Jamnagar and Junagadh. This is dry, the rainfall being less than 25″.

South-central Saurashtra and the Cambay region : The rainfall is 25″ and over.

Kutch is semi-desert, the rainfall being very low.

The total geographical area of Gujarat is 4,52,17,500 acres. Of this, only 52·45 per cent is the net area sown. The percentage of barren and uncultivable land is 25·90.

The percentage of area under barren and unculturable land is very high. This is partly because of extensive barren lands in Kutch. The State is rich in permanent pastures and grazing lands.

The per capita income in 1961-62 was Rs. 355 compared with Rs. 330 for the Indian Union as a whole. The main source of income is agriculture. The figures in Rs. crores for 1961–62 are :—

State income : 741. Sector-wise distribution : Agriculture, animal husbandry, ancillary activities 343 ; mining, manufacturing and small enterprises 178 ; commerce, transport, communications 118 ; other services 102.

The main food grains are bajri, jawar, rice and wheat. Rice is grown chiefly in the south Gujarat districts of Kaira, Panch Mahals, Baroda and Surat ; cereals are grown in the north Gujarat and Saurashtra Districts. Wheat is grown more especially in north Gujarat and to some extent in Saurashtra. The district of Panch Mahals is also noted for maize. The total production of 22·56 lakh tons gives a per capita consumption of 11·45 oz. a day.

Among non-foodgrain crops, cotton, tobacco, groundnut and maize are important. More than one-fifth of the area under cotton in the Indian Union is in this State.

The State has limited forest resources. The area occupied is about 5·15 per cent of the total geographical area of the State. The forest areas are concentrated mainly in Dangs, Junagadh, Panch Mahals, Baroda, Broach, Surat and Banaskantha Districts and to some extent in Jamnagar and Kutch.

The major forest produce are teak, bamboos, yellow wood, red wood, black wood, sandalwood, Khar, Simal, Dhumda, Dudhia, etc. Minor forest produce is grass, honey, wax, colouring wood. Dangs has rich teak forests. The Gir forests in Saurashtra contain a lions' sanctuary, the only one in India.

The State has a total livestock population of 135 lakhs and poultry 20·48 lakhs. There is a high proportion of she-buffaloes over three years. The State is noted for its high yield of milk per head of cattle. Certain breeds like Kankrej and Gir are wellknown. The high milk yield generally contributes to the high production of milk and dairy products.

Banking facilities are better than elsewhere ; there is a bank for every 42,787. Of the different areas in the State Ahmedabad has the highest facilities.

The Gujarat State Cooperative Land Development Bank Ltd., established in 1951, functions in the State through its 145 branches and 4 Primary Banks. The bank has advanced long-term loans to the agriculturists exceeding Rs. 37 crores. It has a membership of 4·17 lakhs. The paid-up share capital is Rs. 2·5 crores and reserve and other funds exceed Rs. 52 lakhs.

*Board of Directors :* Udayabhansinhji Yuvraj of Porbandar (*Chairman*) ; M. R. Patel (*Vice-Chairman*) ; H. T. Trivedi (*Managing Director*).

Gujarat is rich in minerals like salt, limestone, manganese, gypsum, china clay, calcite, bauxite, etc. Kaira is rich in bauxite and limestone, while calcite and limestone are mined in Jamnagar. Manganese is mined in Baroda and Panch Mahals, while fireclay is mined in Surendranagar District. Gypsum is available in all the districts of Saurashtra. The Geological Survey of India has located fluorspar deposits in the Amba Dongar area of Baroda District.

Oil and natural gas have been found in Ankleshwar, Kalol and Cambay oil fields where drilling is in progress. A refinery is to be set up at Koyali in Baroda District.

The major industries of the State are textile (including ginning and pressing of cotton), general and electrical engineering, vegetable oils, chemicals (including salt), soda ash and cement. The concentration of industry is most striking in Ahmedabad, Baroda and Surat.

The distribution would roughly be as follows:—textiles and its ancillaries in Ahmedabad, silver thread in Surat, cement at Porbandar, Dwarka and Sikka, chemicals around Baroda.

There are six industrial estates in the State and more are to be started so that there may be one such estate in each district by the end of the Third Five-Year Plan. The Government has also decided to carry out pilot plant tests of certain minerals for industrial use.

Power development in Gujarat is higher than the average for India. About 53 per cent of the number of towns is electrified. A major thermal power station with an installed capacity of 200/254 MW has been constructed and was expected to be commissioned by the middle of 1964.

The implementation of the Ukai project may make a big difference to the industrialisation of southern Gujarat. The first stage of the Narmada Project costing Rs. 43 crores was inaugurated on April 5, 1961.

Road transport is not satisfactory for the State as a whole — 20·75 miles per 100 square miles of area or 93·7 miles per lakh of population. The position is good in Rajkot and south Gujarat and more especially in Dangs. It is poor in Jamnagar, Surendranagar, Banaskantha, Sabarkanta, Mehsana, Broach and Panch Mahals. It is poorest in Kutch.

Saurashtra has a net-work of railways. The Baroda area is also well-served. There is no railway communication in Dangs.

There are 51 ports in Gujarat (one major, eight medium, 42 minor). The bigger ports with their annual turnover :—Kandla (15,72,185 M. tons), Okha (6,76,591 tons), Bedi (3,47,683 tons), Bhavnagar (4,19,606 tons), Verawal (2,92,566 tons), Sikka (3,04,195 tons), Porbandar (2,25,776 tons).

About education nearly 13·34 per cent of the population attends school.

There are three universities in Gujarat — the Gujarat University in Ahmedabad, the Sayajirao University in Baroda and the Sardar Vallabhbhai Rural University in Anand. The establishment of two more universities is under consideration.

Each Government dispensary or hospital in the State serves about 18,000 of the population

and each bed about 2,400. On an average about 8,540 persons register every month for employment. Out of this about 847 are placed in employment.

The Third Plan total outlay is Rs. 235 crores and the expenditure during the first four years was Rs. 180·90 crores i.e. 76 per cent.

The size of the State's Fourth Plan has been tentatively fixed at Rs. 470 crores.

### NEW CAPITAL

The Government had decided to build the new capital of the State at Gandhinagar, 15 miles north of Ahmedabad City on the west bank of the Sabarmati river.

### PANCHAYATI RAJ

Panchayati Raj was introduced in Gujarat from April 1, 1963 to coincide with the start of the financial year (the formal inauguration taking place on April 2), with the maximum of popular representation.

The aim of Government is to organise Gram/Nagar Panchayats on a sound basis, to give them full responsibility for all-round development of the village and to impart understanding and education both to the people and their representatives.

There are in all 11,657 Gram Panchayats covering 18,370 villages and 42 Nagar Panchayats. In pursuance of the policy of Government to cover every village in the State by Gram Panchayat, all villages in the State Government are covered by Gram Panchayats except some villages in Kutch and Dangs District.

#### Th Gujarat Panchayat Act, 1961

The Gujarat Panchayats Act, 1961, aims at three tier system of rural administration. It is applicable to all Gram/Nagar Panchayats in the State. Under this Act, Taluka Panchayats and District Panchayats have been established for each taluka and each District and they have to exercise powers of supervision, guidance and control over Panchayats. In order that the representatives of Gram/Nagar Panchayats may have an effective voice in shaping the policy in regard to matters concerning Gram/Nagar Panchayats, the Sarpanchayats of Gram Panchayats and Chairman of Nagar Panchayats within the taluka are to be ex-officio members of Taluka Panchayats.

Important features of the Gujarat Panchayat Act, 1961, in respect of Gram Panchayats are reservation of two seats for women in every Gram Panchayat, constitution of Gram Sabha of all residents in the village who are entitled to vote, each Gram Panchayat to consist of elected members not less than 9 and not more than 15 as the District Panchayat may determine, one seat to be reserved for Scheduled Castes where there is population of Scheduled Castes, entrusting the work of collection of land revenue and of maintenance of land revenue records to Gram Panchayats, payment of land revenue grant to all Gram Panchayats on a uniform basis, constitution of a Nyaya Panchayat for a group of five villages or more and conciliation Panchayat for each Gram Panchayat.

The Panchayats have been given more powers and functions to execute sanitation & health, public works, education and culture, self-defence and village defence, planning and administration, agriculture, preservation of forests and pasture lands, community development, animal husbandry, village industries and collection of land revenue.

A provision has been made in the Act by which Gram Panchayats can entrust with the village any work on measures which are likely to promote the health, safety, education, comfort, convenience, social, economic or cultural well-being of the inhabitants of the village.

#### Village Volunteer Force

For the total mobilisation of both human and material resources for the defence effort the scheme of the Village Volunteer Force has been implemented throughout the State with effect from Jan. 26, 1963. The scheme has a three-fold programme of production, mass education and village defence. The panchayat organises and guides the Village Volunteer Force. For the effective organisation of the scheme in the District, a committee under the chairmanship of the president, District Panchayat has been constituted.

As an integral part of this scheme, Defence Labour Banks are being organised in every village. The bank is based on the donation of free labour at the minimum rate of one day per month from every able-bodied adult or monetary contribution in lieu.

The Gujarat Panchayats Act, 1961 has been brought into force in all the districts of Gujarat State except Dangs district.

Municipalities having a population not exceeding 10,000 have been converted into Gram Panchayats. Those having population exceeding 10,000 but not exceeding 20,000 have been converted into Nagar Panchayats.

Taluka Panchayats and District Panchayats were constituted in all the districts of the State, except the district of Dangs.

The State Council for Panchayats and the Gujarat Panchayats Service Selection Board have been constituted. Similarly, the District Panchayat Service Selection Committees and District Primary Education Staff Selection Committees have also been formed for each district Panchayat.

## BASIC FACTS AND FIGURES

No. of towns 181 ; no. of villages 19,017.

Land utilization in '000 acres :—Total area 45,259 ; area under forest 2,743 ; barren and uncultivable land 11,425 ; permanent pastures and grazing lands 2,550 ; net area sown 23,632 ; others 4,908.

**Area and Outturn of Principal Food and Non-food Crops**—area in '000 acres and outturn in '000 tons—for 1963-64 (first figure shows area, second production) :—

Rice 1,284 and 477 ; wheat 1,028 and 361 ; jowar 3,324 and 402 ; bajra 2,951 and 640 ; all cereals 9,643 and 2,282 ; tur 207 and 45 ; gram 252 and 54 ; all pulses 1,329 and 195 ; total food grains 10,973 and 2,484 ; cotton 4,169 and 1,313 (bales); groundnut 4,560 and 1,251.

**Area Irrigated :** by sources in 1961-62. The figures are in lakh acres :—

Government canals 2·29 ; private canals 0·32 ; wells 14·59 ; tanks 0·45 ; other sources 0·90 ; gross area irrigated 19·50.

Area irrigated by crops in 1961-62. The figures are in '00 acres :—

Rice 1,623 ; wheat 5,559 ; jowar 1,348 ; bajri 1,005 ; all food crops 12,668 ; cotton 2,782 ; groundnut 986 ; tobacco 377 ; total non-food crops 6,827 ; total gross area irrigated 19,495.

**Agricultural Implements** in 1961 :—Wooden ploughs 14,59,616 ; iron ploughs 1,05,868 ; carts 7,08,767 ; sugarcane crushers worked by power 2,009 ; sugarcane crushers worked by bullocks 4,307 ; oil engines with pumps for irrigation 44,992 ; electric pumps for irrigation 6,229 ; Government tractors 2,005 ; ghanis five seers and over 3,277 ; ghanis less than five seers 823.

**Livestock Position** in 1961 :—Cattle—male over three years 30,45,875 ; cattle—female over three years 18,37,655 ; young stock 16,73,025 ; total 65,56,555 ; buffaloes—male over three years 39,996 ; buffaloes—female over 3 years 17,02,377 ; young stock 11,74,208 ; total buffaloes 29,16,581 ; total bovine 94,73,136 ; sheep and goats 37,04,529 ; total livestock 1,34,54,395 ; total poultry 20,48,284.

**Co-operation** in 1962-63 (number of societies): — agricultural societies 9,627 ; non-agricultural societies 5,366 ; land mortgage banks (incl. State Banks) 5 ; central banks (incl. State Banks) 25 ; total 15,023.

Co-operation in 1962-63 (number of members): of agricultural societies 12·30 lakhs ; of non-agricultural societies 7·70 lakhs ; of land mortgage banks (incl. State Banks) 3·33 lakhs ; of central banks (incl. State Banks) 0·33 lakhs ; total 23·66 lakhs.

Co-operation in 1962-63 (share capital of societies in Rs. lakhs):—Agricultural 1,505 ; non-agricultural 809 ; land mortgage (incl. State Banks) 178 ; central banks (incl. State Banks) 840 ; total 3,332.

Co-operation in 1962-63 (working capital in Rs. lakhs):—Central banks and banking unions (incl. State Banks) 6,976 ; agricultural societies 6,378 ; non-agricultural societies 5,008 ; land mortgage banks (incl. State Banks) 2,181 ; total 20,533.

Population covered by cooperative movement (in lakhs) during the same period was 116.

**Joint-Stock Companies** as in March 1963—(Provisional). The first figure shows the number of Companies, the second authorised capital and third paid-up capital in '000 Rs. : — Commerce 252 ; 3,07,850 ; 1,20,295, Processing and manufacture of foodstuffs, textiles, leather and products thereof 217 ; 8,33,526 ; 3,85,208 ; Processing and manufacture of metals, Chemicals and products thereof 215 ; 7,53,904 ; 1,77,043 ; Other processing and manufactures 94 ; 2,22,901 ; 70,090 ; Construction and utilities 33 ; 49,013 15,798 ; Transport and Communications 19 ; 35,615 ; 11,589 ; Mining and quarrying 15 ; 8,295 ; 6,387 ; Personal and other services 12 ; 4,100 ; 1,471 ; Agriculture and allied activities 27 ; 1,882 ; 1,130 ; Community and business services 889 ; 22,19,487 ; total 7,90,499.

**Medical Statistics** for 1963 :—No. of hospitals and dispensaries 1,267 ; no. of beds 9,791 ; no. of indoor patients treated 3,08,705 ; no. of outdoor patients treated 74,12,285 ; no. of doctors 1,037 ; no. of nurses 1,488.

**Education Statistics** for 1963-64. The first figure shows the number of institutions, the second of pupils :—

Higher education 140 and 71,000 ; Secondary education 1,420 and 5,20,000 ; Primary education 19,500 and 27,50,000 ; others 4,000 and 1,32,000. Total 25,060 and 34,73,000.

No. of teachers as in 1963-64: Primary 73,000 ; Secondary 19,000 ; Higher 3,800 ; Total 1,03,000.

Statistics about **electric power** as in 1964; (figures in '000 K.W.H.):—

Power generated : 18,61,287.

Power consumed : domestic 86,995 ; commercial 47,474 ; industrial 11,06,638 ; others 91,488 ; total 13,32,595.

*Working Class* (1961) : The State has 84·75 lakh workers. Of the male population of 106·34 lakhs 53·47 per cent and that of the female population of 99·99 lakhs 27·89 per cent are workers. They could be classified as follows (figures in lakhs) : Cultivators 45·19 ; agricultural labourers 12·52 ; mining, quarrying etc. 1·05 ; household industry 5·36 ; construction 0·90 ; trade and commerce 4·11 ; transport, storage and communications 1·59; other services 8·47.

Statistics about **Industry** as in June 1964 :—

No. of factories 4,299 ; employment 4,08,104.

Information about number of factories and average number of workers employed therein daily respectively under each category is given below :—

Textile 919 ; 2,12,522 ; ginning and pressing 476 ; 46,774 ; food, beverages and tobacco 866 ; 38,425 ; engineering 818 ; 29,171 ; non-metallic mineral products 336 ; 24,066 ; chemicals and pharmaceuticals 115 ; 16,918 ; wood, furniture and fixtures 121 ; 4,564 ; electricity, gas and steam 75 ; 3,463 ; paper and paper products 29 ; 2,874 ; rubber and rubber products 16 ; 1,141 ; others 528 ; 28,186.

**Mineral production** as in Oct. 1963. First figure shows quantity in tonnes, second value in '000 Rs. :—

Bauxite 1,81,128 and 2,014; Calcite 3,925 and 24; china clay 50,030 and 413; Fire clay 62,679 and 316; Limestone 11,97,406 and 5,866; Manganese 24,479 and 1,116; Salt 24,54,200 and 66,411; Dolomite 30,830 and 244; Feldspar 271 and 1.

Production 1964: Rs. 13·80 crores; per capita production 1964: Rs. 6·5.

**Employment exchanges** as in 1964:

The number of persons seeking employment through the employment exchanges recorded decrease from 1,37,052 in 1963 to 1,32,696 in 1964. The number on the live register was 72,454 at the end of the year 1964 as against 75,685 in 1963.

**Transport** as on March 31, 1964: The Nationalised Motor Transport system in the State is operating 2,482 routes covering a length of 1,02,938 miles. It carries on an average 5·62 lakh passengers and earns Rs. 3·04 lakhs per day.

Other particulars are as follows:—No. of vehicles on road per day 1,518; capital invested Rs. 1,495·69 lakhs; total revenue in 1963-64 was Rs. 1,113·19 lakhs; total expenditure (including payment of interest to participating Govt. etc.) Rs. 1,112·78 lakhs.

No. of **Motor Vehicles** in operation as in 1963. Motor cycles 12,381; Motor cars 19,174; Taxis 1,060; Auto Rickshaws 1,950; State carriages 2,959; Lorries 2,988; Public carriers 11,333; Total 58,308.

Mileage of metalled and non-metalled **Roads** as in March 1962:—

Metalled 7,780 ; non-metalled 6,977; total 15,757.

Railway mileage as in 1963:—

Broad gauge 561·57; metre 2,036·32; narrow 717·98; total 3,315·87.

**Village Panchayats** (as on March 31, 1965)† :—

No. of Village Panchayats 11,657; no. of villages covered 18,370; population covered 1,79,20,986. Percentage of population covered 99.

**Community Development** Programme 1963-64:

Stage I blocks 97; Stage II blocks 105; Sp. M.D.P. blocks 2; T.D. blocks 14; Population covered 1,78,67,000.

Improved seeds distributed (B. Mds.) 4,55,863; fertilizers distributed (B. Mds.) 15,71,866; agricultural demonstrations held (Nos.) 18,670; additional area brought under irrigation (acres) 1,51,546; drinking water wells constructed (Nos.) 825; drinking water wells renovated (Nos.) 1,277; adult education centres started (Nos.) 758; adults made literate (Nos.) 11,689; youth and farmers' clubs started (Nos.) 1,634; reading rooms/libraries started (Nos.) 300; kacha roads constructed (kms.) 1,459; people's contribution (Rs.) 38,03,700.

**Small Savings** :—Figures for 1962-63: target Rs. 1,033 lakhs: net collection Rs. 228 lakhs. During 1963-64: target Rs. 721·60 lakhs; net collection Rs. 810·05 lakhs.

**Housing**: The total allocation for housing in Gujarat in the Third Plan is Rs. 1,039 lakhs. The allocation for the first three years was Rs. 391·07 lakhs, but the amount actually drawn was only Rs. 246·11 lakhs.

**Consumer Price Index** numbers (base average Aug. 1926 to July 1927 as 100):—(For Ahmedabad).

**Industrialisation**:—During 1964, 45 licences were issued against 85 in the preceding year for the manufacture of a wide variety of products in the fields of textile, engineering, chemical and miscellaneous industries which would create employment potential for about 9,505 persons. Out of these, 10 licences were for new units and 35 for expansion of existing units. Total investment envisaged during the year was Rs. 615·71 lakhs.

The total number of working factories registered under the Factories Act, recorded a rise from 4,181 at the end of 1963 to 4,299 at the end of June 1964.

**Small-Scale Industries**: The development of small scale industries continued to receive the special attention of the Govt. during 1963. So far, six industrial estates are functioning in the State, *viz.*, Ahmedabad, Baroda, Bhavnagar, Gandhidam, Rajkot and Surat. At these estates, 330 industrial units have been established giving employment to about 4,300 persons.

**Small-Industries Corporation**: This corporation was incorporated on March 26, 1962 and started functioning. The corporation is expected to give aid, counsel, assist and to promote the interest of small industries in the State by providing technical and managerial assistance, and procuring raw materials, machinery, equipment, tools etc. required by the small industries. During 1964 the corporation made purchases of goods to the tune of Rs. 1,29,46,211 and sold goods worth Rs. 1,27,14,816.

## ELECTRIC POWER PROJECTS

The position as at the end of 31st March, 1964 was as follows:—

Assets of the Electricity Board: Rs. 66·49 crores; Total Installed capacity: 1,67,375·1 Kw (Steam 1,20,500; Diesel 46,875·1); Amount spent on Electricity Scheme in 1963-64: Rs. 14·89 crores; Working Expenditure: Rs. 9·07 crores; Total No. of Towns and Villages electrified: 1,137; Total length trans. line 11 kV and above: 10,195·073 circuit kms.; Total No. of consumers: 2,50,698; Total connected load: 3,30,000; Total production including bulk purchase from other agencies (in million KWH): 812·574 (Steam 534·303; Oil 55·187; Bulk purchase 223·084); Total average max. demand in kW: 1,59,130; Total sales (in million units): 656·809; Total estimated cost of schemes under the 3rd Plan: Rs. 7,407 lakhs; Total Govt. provision for the 3rd Plan: Rs. 4,668 lakhs; Total estimated foreign exchange component in 3rd Five Year Plan: Rs. 3,166 lakhs.

**The following are the more outstanding projects with the installed capacity as on 31st March, 1964.**

**North Gujarat Electric grid scheme**: based on bulk purchase of power: of the order of 46,650 kW from A.E. Co.:—Utran Power Station of South Gujarat Electric Grid: 67,500 kW; Sikka Power House: 16,000 kW; Shahpur Thermal Station: 16,000 kW; Porbandar Thermal Station: 15,000 kW; Rajkot Diesel Station: 10,147 kW.

**North Gujarat Electric Scheme**:—The Scheme is based on bulk purchase from A.E. Co. power houses at Vallabh Vidyanagar and Himatnagar with a capacity of 1,120 kW and 160 kW connected with this system.

Energy purchased during 1963-64: 214·610 million KWH; Energy sold: 167·994 million KWH; No. of consumers: 54,925; Length of trans. line 11 kV and above: 3,107·637 circuit km.; No. of villages and towns electrified: 373.

**South Gujarat Electric Grid Scheme**:—The scheme is based on the central thermal power station at Utran with an installed capacity of 67,500 kW. Capacity of diesel power connected to this system is 705 kW.

Units generated during 1963-64: 353·652 million KWH; Units sold: 282·341 million KWH; No. of consumers: 46,998; No. of villages and towns electrified: 334; Length of trans. lines 11 kV and above: 2,165·676 circuit km.

**Shahpur Grid Scheme**:— This has a power station at Shahpur which is inter-connected with Veraval and a few other diesel stations in the area.

Installed capacity of Shahpur Thermal Station: 16,000 kW; Installed capacity of diesel power houses connected to Shahpur Grid: 4,826 kW; Units generated during 1963-64 (Thermal): 34·120 million KWH; Units generated (diesel): 5·454 million KWH; Units sold: 23·0 million KWH; No. of consumers: 33,150; Length of trans. line 11 kv and above: 1,183·197 circuit km.; No. of villages and towns electrified: 112..

**Rajkot Grid Scheme**:—Installed capacity of Rajkot Diesel Power House: 10,147 kW; Installed capacity of other diesel power houses connected to grid: 892 kW; Units generated by the Rajkot Power House during 1963-64: 23·36 million KWH; Units generated by otner P.Hs during 1963-64 connected to Rajkot Grid: 0·01 million KWH; Total units sold: 21·149 million KWH; No. of consumers 25,436; Length of trans. lines 11 kV and above: 661·403 circuit km. No. of villages and towns electrified: 57.

**Bhavnagar Grid System**:—Power is purchased from Bhavnagar Power House owned by licensee. Lathi, Palitana and Gadhada power houses are connected to this Bhavnagar grid system with a capacity of 1,576 mW.

Length of trans. lines 11 kV and above: 558·364 circuit km.; Units purchased during 1963-64: 7·762 million KWH; Units generated (diesel): 0·480 million KWH; Units sold: 6·211 million KWH; No. of consumers: 11,855; No. of towns and villages electrified: 55.

**Jamnagar-Sikka System**:—There are two power houses in this system *viz.* (*i*) Sikka power Station (Thermal), (*ii*) Jamnagar diesel station, (*iii*) besides, Jodiya power house is connected to this system.

Capacity of Sikka Power House (steam): 16,000 kW; Installed capacity of Jamnagar and Jodiya Power House: 2,666 kW; Units generated during 1963-64 by Sikka Power House: 68·680 million KWH; Units generated (diesel power house): 1·427 million KWH; Units sold: 60·180 million KWH; No of consumers: 18,120; Length of trans. lines 11 kV and above: 381·338 circuit km.; No. of villages and towns electrified: 37.

**Surendranagar Grid System**: This scheme which is based on bulk supply from North Gujarat Electric Grid System was commissioned during 1960-61. Only a few diesel power houses aggregating 992 kW capacity have been connected to grid system.

Length of trans. lines 11kV and above: 249·062 circuit km.; No. of consumers 7,252; No. of villages and towns electrified: 29; Units sold during 1963-64: 15·513 million KWH; Units generated by diesel connected to it: 0·039 million KWH.

**Porbandar System**:—A steam station with total installed capacity of 3 × 5,000 kW has been commissioned. Besides this, there is diesel power house at Porbandar with an installed capacity of 2,567 kW.

Units generated by steam stations: 63·76 million km.; Units generated by diesel during 1963-64: 0·60 million km.; Units sold: 52·643 million km.; No. of consumers: 7,463; Length of trans. lines 11 kV and above: 75·811 circuit km.; No. of villages and towns electrified: 5.

† For more details see under article on "Community Development & Panchayats".

**Morvi Area System :**—Installed capacity of Morvi P.H. 4,241 kW ; Units generated during 1963-64 : 4·876 million KWH ; Units sold : 3·569 million kWH ; No. of consumers : 5,145 ; Length of trans. lines 11 kV and above : 85·341 circuit km ; No. of villages and towns electrified : 10.

**Kandla Grid System :**—Capacity of diesel steam station at Kandla : 6,000 kW ; Capacity of diesel station connected to this station : 1,602 kW ; Units generated during 1963-64 : 15·910 million KWH.; Units generated (diesel) : 1·245 million KWH ; Units sold : 12·464 million KWH ; No. of consumers : 11,671 ; Length of trans. lines 11 kV and above : 488·259 circuit km.; No. of villages and towns electrified : 60.

**Minor Diesel Stations Unconnected to any Grid System :**—There are 26 diesel power houses unconnected to any grid system. The installed capacity of all such power houses is 1,200 kW.

Units generated during 1963-64 : 14·105 million KWH ; Units sold : 10·503 million KWH. ; No. of consumers : 27,932 ; Length of trans. lines 11 kV and above : 431·087 circuit km.; No. of villages and towns electrified : 66.

**Minor Systems Based on Bulk Purchase :**—Units purchased during 1963-64 : 0·712 million KWH. ; Units sold : 0·571 million KWH ; Length of Trans. lines 11 kV and above : 10·458 circuit km. ; No. of consumers : 751 ; No. of places electrified : 1.

## IRRIGATION PROJECTS

Below we give a table in which are shown irrigation projects under construction.

| Name of Project | Estimated cost (in lakhs of Rs.) | Area likely to be irrigated on completion (Acres) |
|---|---|---|
| 1 | 2 | 3 |
| 1. Ukai .. .. .. | 6,120·02 | 3,91,650<br>In addition it will assure irrigation to 5,62,250 acres of Kakrapar. |
| 2. Kadana .. .. .. | 1,686·00 | 40,905<br>In addition it assures irrigation to 4,60,000 acres under the command of Mahi Right Bank Canal Project Stage I. |
| 3. Narmada .. .. | 4,141·43 | 9,97,500 |
| 4. Kakrapar.. .. .. | 1,857·00 | 5,62,250 |
| 5. Mahi Right Bank Canal Project stage I .. | 2,492·75 | 4,60,000 |
| 6. Dantiwada .. .. | 1,068·00 | 1,10,000 |
| 7. Hathmati .. .. | 961·00 | 82,500<br>In addition it will assure irrigation to 34,400 acres of existing canal system. |
| 8. Meshwa .. .. .. | 209·82 | 46,900<br>In addition it will assure irrigation to 19,000 acres. |
| 9. Saraswati.. .. .. | 78·45 | 11,200 |
| 10. Shetrunji (Palitana) .. | 696·00 | 86,000 |
| 11. Bhadar .. .. .. | 453·00 | 44,000 |
| 12. Shetrunji (Khodiar) .. | 181·00 | 19,000 |
| 13. Machhu II .. .. | 186 33 | 19,000 |

*Flood control :* A provision of Rs. 66 lakhs has been made in the Third Plan for the execution of flood control works.

### UKAI PROJECT

The project envisages the construction of reservoir on river Tapi at Ukai in Surat district at an estimated cost of Rs. 6,120·02 lakhs to irrigate 3,91,650 acres of land in Surat and Broach districts, and in addition 5,62,250 acres at present under Kakrapar canals will get assured supply of water.

Besides, 27,800 acres under command of Ukai canal and 56,200 acres under Kakrapar system will receive perennial irrigation. It also provides for generation of installed power of 1,30,000 kW. in 75 per cent load factor in normal years and 50,000 kW. firm power in worst year at 60 *per cent* load factor. Thus, Ukai dam has great potentialities for the development of cheap and economical hydroelectric power. Partial flood control is an additional feature of this scheme. The Government has also appointed Ukai Control Board and Ukai Rehabilitation Committee.

### KADANA PROJECT

The project envisages the construction of a reservoir on the Mahi river near Kadana village of Santrampur taluka in the Panch Mahals District at an estimated cost of Rs. 1,686 lakhs. A direct canal from the reservoir will irrigate 40,905 acres of land in the Panch Mahals district and will besides provide assured water supply to the 4·6 lakh acres under the command of the Mahi Right Bank Canal Project Stage I. It is also proposed to have continuous power generation of 6,000 kW.

### NARMADA PROJECT

Narmada project is a part of multipurpose development of the Narmada Basin and is contemplated to be completed in two stages. The first stage sanctioned for Rs. 4,141·43 lakhs envisages construction of a dam across the river near the village Navagam in Rajpipla taluka of the Broach District with canal system to irrigate an area of 9,97,500 acres of the Broach and the Baroda districts. The second stage contemplates power generation of the order of 6,25,000 kW. at 60 *per cent* load factor.

**Koyali Refineries :** The shipments of machinery for the refinery plant have been received from the U.S.S.R. The Soviet oil experts were going ahead with the preparations of the designs for the two million ton refinery.

A fertilizer plant is being set up near the refinery site by the State Govt.

**Subsidised Industrial Housing Scheme :** The total number of tenements constructed so far under the S.O.H.S. in the state is 17,238 at a cost of Rs. 575·89 lakhs.

The programme for the year 1964–65 and 1965-66 was for 4,022 tenements.

**Low Income Group Housing Scheme :** The programme for the year 1962-63 and 1963-64 out of the Third Five Year Plan was about 4,100 tenements at a cost of Rs. 285 lakhs. 960 tenements were built under the "Industrial Housing Scheme" at Ahmedabad and Baroda. 1,621 more tenements will be built during the remaining period of the Third Plan.

The Gujarat Housing Board has constructed 420 tenements upto the end of 1963-64 at a cost of Rs. 46·13 lakhs. The programme for 1964-65 and 1965-66 is 1,790 tenements.

**Third Plan :** The following schemes relating "Housing" have been included :—

(1) Subsidised Industrial Housing ; (2) Low Income Group Housing ; (3) Slum Clearance Scheme ; (4) Village Housing Project Scheme ; (5) Town Planning and City Surveys ; (6) Contribution to the share capital of the Gujarat Co-operative Housing Finance Society, Ltd.

An amount of Rs. 884·75 lakhs has been provided in the State Plan in respect of the schemes mentioned above, which will enable 24,725 tenements to be constructed.

The State formulated its development plan for 1964-65 envisaging an outlay of Rs. 53·39 crores.

### PLANNING

Under planning the main effort will be to wipe out the State's food deficit estimated at 1·8 million tons. The State's requirements are estimated at 3·9 million tons a year, and the target is set at 2·9 million tons.

About Rs. 100 crores are expected to be spent on the increase of food production—for irrigation, fertilizers, seed farms, improved methods of agriculture.

The entire Third Plan provision of Rs. 5,174 lakhs is earmarked for the 52 spillover schmes of the Second Plan. Of these 52 schemes, 3 are multi-purpose, 4 major and the remaining are medium schemes.

The utilisation of river waters for irrigation in Gujarat is expected to be increased from 26·7 per cent. to nearly 38 per cent. by the end of the Third Plan.

Under the scheme called the package plan an intensive drive is undertaken to increase the yield per acre in Surat District.

Other points under planning are given below:

Free and compulsory primary education is to be extended to all areas in the new State for children in the 6–11 age-group. It will cost the Government about Rs. 7 crores. Special emphasis is to be laid on girls' education.

The establishment of additional polytechnics and industrial workshops is another feature of the education programme.

The Third Plan period includes a scheme for the eradication of malaria in the State. The scheme is worked out in co-operation with the World Health Organisation and the Union Government. It would cost Rs.1·88 crores.

The State Government plans to establish a Rs. 40-lakh vaccine laboratory at Baroda to supply anti-malarial, anti-tuberculosis and anti-small-pox vaccines.

Another feature of the State's Third Plan is said to be the allocation of Rs. 4·51 crores for the development of intermediate and minor ports.

# AHMEDABAD DISTRICT*

*Headquarters :* Ahmedabad. (Provisional Capital of Gujarat).

*Talukas or Mahals :* Deskroi, Dhandhuka, Dholka, Dehgam, Viramgam, City Taluka, Sanand.

A district in Gujarat, it lies between North Latitude 28° 23′ and 23° 37′ and East Longitude 71° 21′ and 70° 28′. It is bounded on the north by Mehsana and Sabarkantha Districts, on the west by Surendranagar District, on the south by Bhavnagar District and on the east by Kaira. The total area of the District is 3,461 sq. miles. The language spoken is Gujarati.

In the extreme south of the District and also just beyond the northern boundary are a few rocky hills. But between these two points the whole District forms a level plain, gradually rising towards the north and east. The chief physical feature is the river Sabarmati which rises in the north-east, near the extremity of the Aravalli Range and flows towards the south-west falling finally into the Gulf of Cambay.

The District as a whole is open and poorly wooded. The chief trees are mango, rayan, mahua and nim. Many of the trees and shrubs supply food, medicines and material for dyeing and tanning.

The rainfall varies but slightly between the central portions of the District and the outlying tracts. The annual rainfall averages about 30 inches.

The principal towns in the District are besides Ahmedabad, Viramgam, Dholka, Daskroi, Dhandhuka, Dholera, Dehgam and Sanand. Dehgam taluka has been selected for development under the village extension services scheme.

The chief food crops are wheat, jowar and bajra and the chief money crop, cotton. The best rice is grown in Daskroi and the next best in Sanand and Dholka. The cotton which has a good staple is mainly grown in the Dhandhuka and Dholka Talukas. In Daskroi and Dholka many garden crops are also grown.

Ahmedabad city which is the second biggest textile centre in India is the only large industrial area in the District. The number of textile mills and factories is about 150 including 72 textile mills with a total number of 2,171,474 spindles and 42,828 looms and employing a daily average number of 130,094 workers, as on August 31, 1962. The approximate quantity of cotton consumed in 1961 was 735,534 bales of 3½ Cwts. per bale. The total invested capital is Rs. 110 crores. In 1957, Ahmedabad mills accounted for 57·25 per cent of the country's output and 38 per cent of superfine cloth. The Employees' State Insurance Scheme for workers and their families covering half a million people, is to be launched shortly. Ahmedabad is also a centre of railway communications. One line from Ahmedabad goes south-east to Baroda and Bombay; another goes south to Dholka; a third goes west to Viramgam where it joins the Saurashtra railway system; a fourth goes north-east through Parantij; and a fifth north through Palanpur and Ajmer. Ahmedabad has also a number of archaelogical landmarks and an international diversionary airport. Ahmedabad's 50-Kilo Watt Broadcasting station is equipped to reach even remote villages in Gujarat State.

With the establishment of the Gujarat University, Ahmedabad has become an important educational centre. It has over 30,000 alumni in Gujarat, Saurashtra and Kutch. The Ahmedabad Textile Industry's Research Association is the first institute of its kind in the whole of India. Ahmedabad is linked by air with Bombay, Jaipur, Delhi and Karachi.

The population of Ahmedabad City according to the 1961 census is 11·5 lakhs. Ahmedabad Corporation was established in 1950.

Nadiad is also the headquarters of the State Transport for Ahmedabad, Kaira and Panch Mahals.

Drilling is in progress at Cambay where a team of 25 Russians are working with 150 men of the Oil and Natural Gas Commission establishment. At Lunej village, six miles from Cambay, a Russian deep drilling rig was installed and drilling commenced on July 26, 1958. By October 1958, the tests confirmed the presence of oil and gas.

PRODUCTION OF INFANT FOOD

The inauguration of the first infant food and cheese plant by the Union Finance Minister, on October 31, 1960 at Anand constitutes an important development in the country's food industry. It is the result of collaborative efforts between scientists of the Central Food Technological Research Institute, Mysore, and the Kaira Milk Producers' Cooperative Union, Anand. The infant food will be manufactured under the name of Amul Infant food and the factory will produce 11 tons of the food per day.

It is expected that before the end of the Third Plan period, India will become largely self-sufficient in respect of this category of milk food products.

*Cheese Plant :* The Cheese plant at Anand also is an important achievement. The work, which has been undertaken in collaboration with an American expert, has already yielded useful results. The new plant will meet a fair portion of India's growing requirement for different types of cheese, both fresh and processed.

# KUTCH DISTRICT*

*Headquarters :* Bhuj.

*Talukas and Mahals :* Bhuj, Mandvi, Mundra, Anjar, Rapar, Bhachau, Nakhatrana, Lakhpat, Abdasa, Khavda and Khadir.

The District has a land area of 17,060 sq. miles including approx. 8,000 sq. miles of Rann.

Kutch is a semi-arid region. Rainfall is very irregular and scanty. Sub-soil waters in 70 per cent of the area are saline.

*Agriculture :* There is a fair proportion of good cultivable land in Kutch, the principal crops being bajra, jawar, wheat, barley, cotton and pulses. The cultivation of ground-nuts is also increasing day by day.

The Second Five-Year Plan of the district allotted for irrigation projects Rs. 227·05 lakhs. As against this, the expenditure was Rs. 155·32 lakhs. Till the end of the Second Plan, there have been 70 irrigation dams and tanks at the cost of Rs. 368·36 lakhs, bringing an area of 1,16,874 acres of land under irrigation.

The whole district is covered under the community development programme. During the Second Five-Year plan period a sum of Rs. 59·62 lakhs had been spent by March 1960. There are 415 co-operative societies covering 832 villages. The people's contribution was to the tune of Rs. 40·88 lakhs.

Position of road mileage at the end of the Second Five Year Plan : Total mileage 1,817, National Highway 31 miles, State Highway 300 miles, Major District Roads 383 miles, other District Roads 287 miles and Village Roads 73 miles. The classification would be 94 miles Tar Roads, 189 miles Black-topped Murrum and 798 miles of Murrum Surface Roads. 95 miles and 3 furlongs of Murrum Roads are under District Local Board. Amount spent during the 1st Five Year Plan was Rs. 40·60 lakhs, and that during the 2nd Plan Rs. 94·01 lakhs.

The District is rich in gypsum, clays and limestone, and has large deposits of lignite, bauxite and ochres.

The main occupations of the people apart from agriculture and cattle rearing are embroidery and silver work, which are well-known for their beauty.

Kutchis are an enterprising and seafaring people. Over six lakhs of Kutchis are distributed in principal cities of India and over 10,000 are abroad.

The main items of export are salt, cotton, wool, castor seeds, bones, hides, skins and fish. The main items of import are foodgrains, oil seeds, cloth, condiments, etc.

The land revenue system has been changed from crop sharing to *ad hoc* Vighoti, thus providing a rational basis for Government revenue. The Jagirdari system in Kutch Dist. has been abolished from 30th Dec. 1958.

*Education :* The Second Plan allotted for education Rs. 27·56 lakhs and the expenditure was Rs. 29·87 lakhs. There are 37 Secondary Schools including 21 High Schools and 587 primary schools, one agricultural, one technical, one industrial training, one for blind and one arts schools. There are also two Basic Training colleges for primary teachers and a school for the deaf and dumb. In addition, adult education centres are run by different agencies, *viz.* Education Department, Community Development Blocks, District Local Board and Social Welfare Department. There are 12 primary schools including two for girls run by the District Local Board. There is a degree college at Bhuj both for arts and science and a degree college for arts at Adipur. The post graduate courses in Gujarati, English, Sanskrit and Economics are also conducted in the former college. There are two centres of Secondary School Certificate Examination.

There is one senior division N.C.C. troop along with six junior division troops. There is also one junior division girls troop.

*Health :* Free Medical relief is available in the district. There are 14 hospitals, 28 dispensaries, 6 maternity homes, one T.B. sanatorium, 3 T.B. clinics, one mental hospital, one laboratory and two eye hospitals. There are 8 mobile dispensaries and 7 Primary Health Centres under the supervision of the Public Health Department. There are one hospital, 25 dispensaries and 9 sub-dispensaries under the supervision of the District Local Board in addition to 6 maternity homes and one mobile dispensary. There are also 21 private hospitals and dispensaries, 2 Railway dispensaries and 2 port dispensaries. Number of beds in the hospitals is 368.

*Transport :* 426 villages and towns are served by Road Transport Corporation on 84 different routes covering a route mileage of 2,700 miles a day. The chief means of communication with outside places is by rail and sea. Goods are carried by steamers, country craft and rail. The length of railway line passing through the district is 200·9 K. metres.

Kandla is a major port. It was due to the suitability of deep creek accommodating steamers, big vessels etc. and other aspects that Kandla was selected as a Major Port, an amount of Rs. 13·76 crores having been proposed to be spent for its development. There are oil berth' passenger berths, floating dock berth, cargo jetty works and oil lines, in addition to workshops, thermal installation, godowns and radar station. The port is likely to be connected with Ahmedabad by broad gauge railway and the scheme of free trade zone has been under the consideration of the Government of India. The work of the Tappar dam would provide additional supply of water to the port and the Gandhidham township.

Minor ports are Mandvi, Mundra, Jakhau, Lakhpat and Koteshwar.

Kutch is linked with the hinterland of North India and Rajasthan. The new townships of Gandhidham and Adipur have been established near Kandla to resettle the displaced persons from West Pakistan. Gandhidham has now its own municipality. One industrial Estate is also organised near Gandhidham.

*Banking :* There are branches of the following banks in the District: State Bank of India at Mandvi, Bhuj, Anjar and Gandhidham, Bank of India Ltd. at Bhuj and Gandhidham, Central Bank of India Ltd. at Anjar and Gandhidham, Gandhidham Co-operative Bank at Gandhidham, District Central Co-operative Bank Ltd. at Bhuj, Nalya, Bhachau and Rapar, Anjar, Mandvi, Nakhtrana Land Mortgage Co-operative Bank Ltd. at Bhuj and Mandvi, Mercantile Bank Ltd. at Gandhidham.

The total acreage covered by oilseeds is 199,448 including 183,745 under groundnuts, 15,620 under til (sesame), and 2,222 acres under non-edible seeds such as castor, Kanji Mahuda etc. The area covered by cash crops is cotton Digvijaya and Vijaya 47,798 acres, and Co-2 12,594 acres, and tobacco 2,861 acres. There is a Hybrid Maize Breeding Research Centre located in 25 acres of land at Vavdi-Dujarag on the outskirts of Godhra City. The centre is conducted by Agricultural Department of Gujarat State Government and is aided by Rockefeller Foundation.

The average rainfall of the district is 35 inches. The lowest temperature is 40 degrees F. heat and the highest 115 degrees.

The District has a forest area of 515,848 acres divided into two forest divisions — one being Godhra Division and the other Devgad Baria Division. The forests yield teakwood, hard-wood such as Mahuda, Sadad, Kher and Dhavda wood. These forests also produce Mhowra flowers exported as base material for distillation, Timru leaves for Bidi manufacture, hay-fodder, lac, gum, bamboos, Asotri-leaves for Bidi variety, Khakhra-leaves, Ghat-bor — the base material for leather tanning, Kanji, Ambla, honey and wax. The District exports large quantities of timber and firewood to various places in Gujarat. It also exports groundnut oil to Punjab, Uttar Pradesh, and Saurashtra in Gujarat. The Government forests are now scientifically exploited by Forest Labourers Co-operative Societies where in Gujarat Government has invested share-capital.

The Irrigation Projects in the district are the Pata-Dungri Dam south of Dohad, Suki dam north of Dohad in Jhalod Taluka, Titodo dam south of Jhalod, Karad Right Bank Dam in Devgad-Baria Taluka and Tanachhia Irrigation Project, 15 miles away from Dohad. All these projects are estimated to increase the yield of food grain by about 3,800 tons.

An irrigation project with Hydro-electric potentiality is under construction over Mahi river at Kadana in Santrampur Taluka. The reservoir when completed will contain 5,500 crore cubic feet water and will irrigate 640,000 acres in Kheda District, and 60,000 acres in Panchmahals. The estimated power output after completion of the first phase is about 6,000 kW. The total expenditure so far incurred is Rs. 74·66 lakhs and a provision of Rs. 300 lakhs has been made in the Third Five Year Plan.

Agriculture and mining, as also forest produce, are the main industries in the district. The District contains rich mineral deposits such as manganese ore, galena, copper, limestone, and as now indicated on preliminary investigation, uranium also. Big manganese mines are now being worked at Shivrajpur, Pani-Mines and Bamankuwa station which have developed into mining colonies. Saw Mills, Fertiliser mills, Oil mills are located in Godhra, Vejalpur, Derol, Piplod, Devgad-Baria and Dohad. The dry beds of Meshri river at Godhra, Panam River at Sant Road, Goma river at Kalol and Bakrol contain quality sand used for preparing china-wares, glass and building construction. There is a glass and china-ware factory at Sant Road and a Pottery at Derol station.

COMMUNICATIONS

Bombay-Delhi broad-guage main line of Western Railway passes through Panchmahals district. Godhra, Dohad, Limkheda, Devgad-Baria, Lunavada, Shehera, and Halol talukas are served by Western Railway. Gujarat State Road Transport Corporation also runs various bus services and operates numerous routes in the district.

Pavaghad Hill, about 2,600 feet in height, situated in Halol Taluka, and about 22 miles away from Godhra, has been developed as a Holiday Resort. It is also a pilgrim centre and about two lakhs of people from Gujarat visit this place annually. A metal road 3·25 miles in length is constructed upto midway height on the hill at a cost of Rs. 163,976 and programme of constructing buildings at a total cost of Rs. 462,200 is being carried out on the Hill. The famous Bhadrakal temple of goddess, is on the peak of this Hill, and there are ancient monuments preserved by Archaeological Department of the Central Government. Pavagadh is also developing as a tourist centre.

# SURAT DISTRICT

*Headquarters :* Surat.

The former Surat District was bifurcated into two districts *viz.* Surat and Bulsar Districts with effect from June 1, 1964 for the administrative convenience as it was the biggest district with an area of about 4,900 square miles and a population of 2,451,624.

Population : About 1,427,019. Headquarters at Surat (Surat City) (288,167).

*Talukas :* Olpad (79,444) ; Chorasi (455,303) ; Mangrol (95,367), Kamrej (62,822) ; Mandvi (93,805) ; Bardoli (90,608) ; Songadh (76,870) ; Vyara (119,100) and Mahuva (65,533).

*Mahals :* Palsana (41,807) ; Valod (42,828); Uchhal (31,535) and Nizar (58,801).

Besides being noteworthy historically, Surat is the biggest jari production as well as artsilk powerloom centre. Surat can boast of over one-third of the total powerlooms weaving artsilk in the country. It is also one of the principal centres for handicrafts in the State of Gujarat. Nearly half the population of the city depends on handicrafts. Jari work, laces, silk and jari brocades, embroidery, ivory and sandalwood carving, inlay work of varakh-nakashi and ivory bangles are the major handicrafts for which Surat is famous not only throughout India but even abroad. Gold thread produced here is exported to many countries. Cotton and artsilk weaving is another major industry which received an impetus during the War. The taluka of Olpad is famous for its knives and nutcrackers, while Bulsar† is well-known for its silver engraving work. A co-operative industrial estate which has developed at Udhna, three miles from Surat, is stated to be the biggest industrial estate of its type in the country. There is one sugar factory at Bardoli.

# HIMACHAL PRADESH*

Area 28,241 sq. Km. ; Population : 1·34 million (1961 census) ; Administration Headquarters : Simla ; Strength of Vidhan Sabha 43. Density of population : 370 ; Sex ratio : 946 females to 1,000 males. Literacy : 17·1 per cent.

The Centrally administered territory of Himachal Pradesh comprises 22 former Punjab Hill States and their 9 tributaries. The 22 States are Baghal, Baghat, Balsan, Bilaspur, Bushahr, Bhajl, Beja, Chamba, Darkoti, Dhami, Jubbal, Keonthal, Kumarsain, Kunihar, Kuthar, Mehlog, Mandi, Mangal, Sangri, Sirmur, Suket and Tharoch.

The 9 tributaries are Delath, Dhadi, Ghund, Khaneti, Koti, Madhan, Ratesh, Rawingarh and Theog.

The State came into being on April 15, 1948.

Bilaspur was merged into Himachal Pradesh on July 1, 1954.

Himachal Pradesh lies between North Latitude 30° 22′ 40″ to 33° 12′ 40″ and East Longitude 75° 47′ 55″ and 97° 4′ 20″. It is bounded on the north by the Jammu and Kashmir State, on the south by Tehri-Garhwal and Dehra Dun Districts of Uttar Pradesh and the Ambala District of Punjab ; on the west by Ambala, Hoshiarpur and Kangra and on the east by Tibet.

The Territory is divided into six administrative districts, Mahasu, Sirmur, Mandi, Chamba, Bilaspur and Kinnaur.

**Mahasu District** is divided into the following tehsils and sub-tehsils.

Tehsils : Rampur (Bushahr), Rohru, Chopal Jubbal, Theog, Arki, Solan and Kasumpti. Sub-Tehsils : Kumarsain, Suni and Kotkhai.

About 95 per cent of the total population is agriculturist.

**Kinnaur District** is divided into three subdivisions : Kalpa, Nichhar and Pooh which are administered by Sub-divisional Officers. The district is mainly inhabited by Kinner tribesmen. The district has been placed under single line administration for development purposes.

**Sirmur District** is divided into four Tehsils, Nahan, Pachhad, Rainka and Paonta. About 95 per cent the total population depends upon agriculture.

**Mandi District** contains the Tehsils of Mandi Sadar, Karsog, Sundernagar, Joginder nagar, Sarkaghat and Chachiot. A great majority of the total population depends upon agriculture.

**Chamba District** is divided into the Tehsils of Chamba, Churah Pangi and Bhattiyat and the Sub-tehsils of Bharmaur. Practically all persons are agriculturists.

**Bilaspur District** lies on both the banks of the Govind Sagar and is divided into two tehsils Bilaspur and Ghumarwin. Agriculture is the main occupation of the people.

Popular Ministry consisting of three Ministers has been formed in the Territory and it started functioning from July 1, 1963.

## ECONOMY

The main agricultural wealth of the Territory consists of fruits such as apple, apricot, peach and vegetables like seed potato, ginger, tomato, peas etc.

The climatic conditions of the Pradesh are suitable for the growing of a large variety of fruits including citrus, and dry fruits. Apples and pears are grown in the cooler regions. The superior varieties of apples which were restricted to Kotgarh and Kothaj are now being grown extensively in other parts of the Pradesh ranging between five thousand to eight thousand feet above sea level. With the new orchards rapidly coming up, the production of fruit will increase considerably during the 3rd Five Year Plan.

Salt is another important item ; while forests yield timber, fire-wood and charcoal. Handicrafts which include Pashmina shawls, wool of fine quality, resin, herbs and skins are another source of income.

Himachal Pradesh forests supply the largest quantities of coniferous timber in Northern India. They are the main source of revenue in the territory, the estimated revenue during 1964-65 being Rs. 3·57 crores including revenue from the sale of resin and turpentine. The entire Territory is divided into four forest circles which are further sub-divided into 16 territorial divisions. *Circles :* Chamba, Simla, Sirmur and Bilaspur. *Divisions :* Pangi, Chamba, Churah, Mandi, Kunihar, Simla, Pabar Valley, Kotgarh, Jubbal, Nahan, Rajgarh, Suket, Nachan, Bilaspur, Sirkhad Working Plan and Kinnaur. Besides, a Forest Utilization Division has been created to develop the resources of the Territory. Bilaspur Circle has been created under the Soil Conservation Scheme.

Seed potato is the chief cash crop in which the Territory has established itself as an important supplier to the plains of India. In 1962-63 alone, seed potatoes worth Rs. 2·20 crores were sold to other parts of India. The total acreage under potatoes, which was about 18,000 in 1950-51, stood at 30,783 in 1963-64.

One of the oldest foundries of the country is located at Nahan besides a resin and turpentine factory.

As against the original Second Plan allotment of Rs. 14·72 crores the total investment for the Plan was Rs. 16·71 crores.

Under the Rs. 27·93-crore Third Plan, roads and transport have been given top priority with 34·08 per cent of the entire allotment earmarked for their development. Agriculture, horticulture, minor irrigation, forests, animal husbandry etc. have been allotted 23·16 per cent of the allocation while social services (Education, Medical Welfare, Housing etc.) get 22·63 per cent. Rs. 1·11 crores have been earmarked for expansion of industrial undertakings. It is estimated Himachal Pradesh would be able to utilise about Rs. 36 crores during the Third Plan.

**Power.**—The Department of Multipurpose Projects & Power started functioning in April, 1964 to investigate the vast hydroelectric potential of H.P. Besides this, the Department is also required to deal with problems connected with soil conservation and flood control.

RURAL ELECTRIFICATION : As against the Third Plan target of 520 villages, 429 villages have been electrified.

The State has now a Legislative Assembly (100 including 25 for occupied areas) and a Legislative Council (36).

For administrative purposes, the State is divided into two provinces : Kashmir (including the Frontier District Ladakh) and Jammu.

*Districts :* in Kashmir Province : Srinagar, Baramulla, Anantnag and the Frontier District of Ladakh ; in Jammu Province : Jammu, Kathua, Udhampur, Doda and Poonch-Rajouri.

For population of districts according to the 1961 Census see "Population."

**The Jammu and Kashmir, State constituting the extreme western section of the Himalayas, lies between 32°17′ and 36°58′ north latitude, and 73°26′ and 80°30′ east longitude.**

The rainfall in the State varies from 30 to 60 inches a year except in Ladakh District where it is four inches. In Kashmir Valley, the annual rainfall varies from 30 to 35 inches.

**About 16·7 per cent of the total population is urban. There are 2 cities, 41 towns and 6,971 villages in the whole State.**

**A low level tunnel called the Jawahar Tunnel constructed at a cost of Rs. three crores has provided an all-weather link between Kashmir Valley and the outside world.**

**Jammu and Kashmir, as an integral part of the country, is now firmly set on the road to development, ushering in an era of progress and prosperity.**

## AGRICULTURE

Agriculture is the main occupation of the people. Total area under cultivation is 17·03 lakh acres out of which 7·10 lakh acres receive irrigation and 9·93 lakh acres are rainfed. The average size of the holding for a rural family of five members is 2·86 acres. The main crops grown are rice and maize in temperate regions and wheat and maize in sub-tropical regions. All the cultivable area along the western and south western boundary line of Jammu province, which is also being since several years back brought under cultivation, and the area is being reclaimed by the Jammu Border Area Land Reclamation Unit.

The increase in production of paddy, wheat and maize as in 1964-65 has been more than 20 lakh maunds over and above the production of 1960-61. The quantity of fruits exported has increased from 3,06,297 maunds in 1950-51 to 6,90,364 maunds in 1962-63.

**Irrigation :**

The Kathua canal has been completed and it is expected to irrigate 28,000 acres of land. The Government have drawn up a Master Plan for flood-protection of the Valley. Work on outfall channel from Wular Lake to Baramulla is in progress. Two dredgers have been commissioned to work at Sopore for dredging work. The minimum output of each dredger is 120 cu. yards of solids per hour. A large number of protection bunds have been constructed in the Jammu Province at a cost of Rs. 14·70 lakhs. These measures are expected to protect the valley as well as Jammu region of the State, against floods.

## INDUSTRIAL DEVELOPMENT

**The Industries (Development and Regulation) Act of the Government of India was extended to the State of Jammu and Kashmir also to bring it within the ambit of the Industrial Policy Resolution of the Centre.**

Some of the important steps taken for development of industries are enumerated below :—

The following boards have been set up :— (*a*) Industrial Development Board, headed by the Chief Minister ; (*b*) Small-Scale Industries Advisory Board, headed by the Chief Minister ; (*c*) Industrial Planning Board, headed by the Planning Commissioner.

A Handicrafts Board is being set up to promote development of handicrafts in the State. This Board will be more or less on the pattern of the All India Handicrafts Board in its objectives.

A Khadi & Village Industries Board has been set up. This Board has set up 53 industrial units on co-operative pattern upto 31-3-64. The total investment in these units is Rs. 5·11 lakhs.

A Financial Corporation has been set up to finance enterprises in the State. The Corporation advanced over Rs. 21 lakhs upto November 1964. In addition to this, loans are advanced by the Directorate of Industries and Commerce under State Aid to Industries Act.

Two Raw Material Depots—one at Srinagar and the other at Jammu—have been set up. The depots supply scarce raw materials to Small-Scale Units on controlled prices. It is envisaged to set up a Raw Material Corporation in the near future. This Corporation will cater to the needs of Handicrafts industry also in addition to that of the small scale units.

To avoid inconvenience to the industrialists, the Chief Controller of Imports and Exports has set up a branch office in the State Capital.

Twenty industrial estates have been set up in important towns. The estates are set up in order to provide suitable accommodation, water and power supply to the prospective entrepreneurs. About 80 units have so far come up in these estates and more are being encouraged. Emphasis is being laid on industries based on local raw material.

Quality control has been imposed on Namdha Industry and is administered by the Directorate of Industries. This has enabled the industry to introduce an element of standardisation in quality and resorted to it its foreign market particulars in the U.S.A.

To render facilities to the Fruit Industry, three cold storage plants are being set up one each at Srinagar, Jammu and Delhi.

Kathua and Anantnag Districts have been covered by the Rural Industries Project Programme financed by the Central Govt. The Districts are being industrialised. The survey reports have been finalised and are under print.

Small-scale industrialists are being assisted by way of refund of toll tax etc.

A Directorate of Geology and Mining has been set up to explore the mineral potential of the State and a Mineral Corporation known as 'J & K Minerals Ltd.' created to extract and exploit the minerals. Among other things the Corporation has set up a cement factory at Wuyan.

A commercial organisation called 'J & K Industries Ltd.', has been set up to run practically all the public sector industrial undertakings. This has been done in order to ensure economic working of the undertakings.

A plyboard industry with an installed capacity of 40,000 Sq. feet a day of veneer and plyboard at Pampore and cotton spinning mill with 12,600 spindles, known as 'Chenab Textile Mills' at Kathua, have also been set up.

A wool spinning mill functioning at Amdakadal. The mill has a production capacity of 1·12 lakh lbs. of raffal yarn per annum and is being expanded by the addition of 4,800 spindles during the IV Plan.

The Government Woollen Mills is being renovated during the IV Plan.

The Directorate of Industries provides training facilities in Handicrafts, Wool Weaving, Leather Goods Making and Fruit Preservation.

Industrial Exhibitions are held every year at Srinagar and Jammu. Handicraft dealers have been concentrated in the Central Market, set up by the Directorate of Industries. The Directorate of Industries has been reorganised and every district is being provided with an officer to look to its industrial problems. The number of factories registered under Factories Act was 191 on 31-3-1965.

The Kashmir Government proposes to earmark Rs. 18 crores under its Fourth Plan for industrial and mineral projects.

Stress will be laid on the development of villages and small-scale industries during the Fourth Plan period for easing pressure on land by providing employment to landless labourers.

**Power Generation :**

| | |
|---|---|
| Installed capacity in 1947-48 | 4,000 kWs. |
| Installed capacity as on 31-3-1964 : | 27,910 kWs. |

**Following are some of the main power projects, besides eight small ones, under the Third Five Year Plan :—**

| | |
|---|---|
| (*i*) Salal Project .. .. | 6,60,000 kWs. |
| (*ii*) Chenani Project .. | 14,000 kWs. |
| (*iii*) Lower Jelhum Hydel Project .. .. | 92,000 kWs |
| (*iv*) Kalakot Thermal Project | 15,000 kWs. |

**Tourism in the State : Tourist traffic is one of the main sources of income both to the State and the people.**

**A sum of Rs. 124 lakhs would have been spent on the development of tourism in Kashmir by the end of the Second Five-Year Plan. The State proposes to spend about Rs. two crores for that purpose during the Third Plan. Numerous schemes for providing more facilities to tourists are envisaged.**

**No. of tourists during 1957 : 43,018 ; during 1958 : 60,557 ; during 1959 : 70,401 ; during 1960 : 74,560 ; During 1961 : 92,455 ; During 1962 : 93,015 ; Ending Aug. 1963 : about 75,000.**

## EDUCATION

Education is free from primary to post-graduate standard. There has been substantial increase in the provision of education opportunities during 1964-65. As many as 650 Activity Basic Schools were opened including 250 for girls, 784 additional teachers were provided in understaffed schools ; 6th to 8th classes were added to 240 schools ; 30 lower high schools were upgraded to high schools including 7 for girls ; 20 middle schools were raised to lower high schools ; and the teaching of science introduced in 20 high schools. The change-over to three-year degree pattern has been completed. The two Divisions of Jammu & Kashmir University—one at Srinagar and the other at Jammu—will start functioning from 1966. The Jammu campus of the University is being extended and additional blocks constructed. It is proposed to raise the present sub-Registry into a full-fledged Registry. It is contemplated to start 8 more post-graduate departments in Science and Humanities at the Jammu campus during the next five years. The total outlay of the phased development programme of the Jammu Division of the University for 1965-66 will be to the tune of Rs. 15 lakhs.

The educational budget which was Rs. 40 lakhs in 1947-48 has gone upto over Rs. 3 crores. The allocation for education during the Fourth Plan is Rs. 15 crores or just the double the allocation during the Third Plan. The number of educational institutions has increased by over 100 per cent.

There are two Polytechnics, one Engineering college, one Medical college, two Agricultural colleges, one Ayurvedic college and one Unani college in the State, besides a number of institutions where ancillary personnel are trained.

Under the social education scheme, education will be imparted to adults in their mother tongue in the three cultural units. e.g. Jammu, Kashmir and Ladakh. For this purpose books in Dogri, Kashmiri and Ladakhi are being prepared.

*(For more statistical information on education in the State, see Education Tables.*

## ROAD DEVELOPMENT

In respect of means of communication the State was very backward having a very poor road system. Before the Plan was taken in hand there were only 623 miles of roads including the national highway.

By the end of the First Five Year Plan, the road length increased to 998 miles (excluding bridle roads) and comprising 294 miles of black-topped, 250 miles of metal, 93 miles shingle, 283 miles fair weather and 98 miles jeepable.

Road building entered a distinct phase of development during the 2nd Plan period. The total length of the roads in Kashmir Province increased to 1,294 miles (excluding bridle roads). The road length at the close of the Third Five Year Plan is expected to increase by 1,700 miles approximately. The Leh-Kargil road, about 150 miles long, has been recently completed. During the Third Five Year Plan it is proposed to spend Rs. 831·59 lakhs on road development.

An important measure envisaged by the State Government to improve communications in the State is a plan to construct an alternate bridge over river Chenab at Rambau. The scheme is estimated to cost Rs. 30 lakhs.

## PUBLIC HEALTH

There are two central hospitals at Srinagar (650 beds) and Jammu (500 beds), two tuberculosis hospitals at Srinagar (320 beds) and Jammu (220 beds).

No. of District Hospitals : 7. Four of them have a bed strength of 30 each and the remaining three have a bed strength of 50 each with arrangements for anti-rabies treatment. Pathological, gynaecological, surgical, laboratory and dental treatment is also provided.

| Hospitals & Dispensaries | 1947-48 | 1964-65 |
|---|---|---|
| 1. Hospitals .. | 2 | 18 (including Nursing Home, Srinagar). |
| 2. Dispensaries .. | 87 | 499 (including health centre and health units). |
| 3. Bed strength .. | 600 | over 2,340 |

There are two central laboratories attached to the two central hospitals.

Under the B.C.G. campaign 25 lakh people had been tested and 13 lakhs vaccinated up to Nov. 1960. Between 1947 and 1962–63 the per capita expenditure on Public Health has increased from 27 P. to Rs. 4·80.

## BUDGET ESTIMATES FOR 1965-66

(*See under 'State Budgets'*)

## HOUSING

The work of providing housing facilities to people in low and middle-income group was started in 1956. During the Second Plan, 1,143 houses were built. The scheme has now been extended to other district headquarters besides Srinagar and Jammu. During the first two years of the Third Plan, 394 houses were constructed under this scheme. The total amount spent by the end of March 1963 was about Rs. 1·35 crores.

## FIVE-YEAR PLANS

The expenditure on the First Five Year Plan was Rs. 11·52 crores and on the Second Plan was Rs. 25·95 crores.

The Third Plan is of the order of Rs. 75 crores.

## CONSTITUTION

A Constitution was finally approved and adopted unanimously on November 17, 1956. It came into effect on January 26, 1957.

The Constitution declares the State of Jammu and Kashmir to be "an integral part of the Union of India." This is irrevocable. Section 147 of the Constitution lays down that no amendment seeking a change in this can be moved in either House of the legislature.

With the adoption of the Constitution, the State has come much closer to the rest of the country. Having entered into financial arrangements with the Union Government in 1957, the State is on par with other States in respect of financial matters including proportionate allocation of funds from the Centre. The development schemes and projects under the Five Year Plans are being approved by the Planning Commission and expenditure on them is sanctioned on the recommendation of the Commission. Every major project is examined by various Central agencies like the Central Water and Power Commission and Working groups of Central Ministries and the Planning Commission to ascertain their technical and economic feasibility. Limitations governing the availability of foreign exchange apply equally to the State of Jammu and Kashmir.

A State cadre of IAS and IPS officers has been created. This has brought about the integration of services ensuring the sharing and pooling of experience and talent.

The State's participation in the Northern Zonal Council has widened the area of co-operation with other States leading to greater exchange of experience, technical know-how and pooling of administrative and other resources in various fields of development.

The Accounts and Audit department of the State is now under the Auditor-General of India. Thus the accounts of revenue and expenditure are under the direct scrutiny of the Auditor General

In 1959, the State Assembly unanimously decided to seek amendment of the State's Constitution to provide for the extension of the jurisdiction of the Election Commission and the Supreme Court over Jammu and Kashmir. The recommendations of the State Legislature have been incorporated in the Indian Constitution through a Presidential Order issued on January 26, 1960.

An Act passed by the Legislative Assembly of the State authorises the Government to permit those non-State subjects to purchase land and other immovable property in Jammu and Kashmir who intend to set up industries in the State. The Government of Jammu and Kashmir have also entered into agreement with some Indian firms to establish industrial enterprises in the State. There is no ban now on the investment of outside capital in Jammu and Kashmir. In addition to the Constitutional and economic integration, the Government of Jammu and Kashmir is also endeavouring to foster cultural and literary synthesis between Kashmir and the rest of the country.

### BUDGET ESTIMATES FOR 1965-66

(*See 'State Budgets'*).

### INDUSTRIES

*Important industries of the State :* Coir, textiles, tea, rubber, manufacture of bricks and tiles, cashew nut processing, printing, saw milling including plywoods and manufacture of splints and veneers for matches, rice milling, handloom, handicrafts and extraction of oils.

*Main large-scale industries of State :* Rubber, Plywood, Fertilisers and Chemicals, Rayons, Glass, Paper, Aluminium, Sugar, Cement, Textiles, Titanium Dioxide, Soaps, Shark liver oil, Ceramics, Rare Earths and Engineering.

*Chief products of the large-scale industries of the State :* Chemicals, ammonium sulphate, ammonium chloride, ammonium phosphate, superphosphate, sulphuric acid, ammonia, caustic soda, chlorine, calcium carbide, copper sulphate, titanium dioxide, rare earth salts, cycle rims, crockery and sanitary wares, electric porcelain, fire-bricks etc.

*Miscellaneous :* Aluminium ingots, glassware, cement, rayon, transparent paper, vegetable oils and soaps, vanaspati, alcohol, pharmaceuticals, galenicals, plywood, ceramicware, rubber goods, paper, cotton textiles and engineering materials, agriculture implements, dyeing and printing, manufacture of jewellery, canning and preservation of fish, starch, cutlery, locks, etc.

*A note on industrial development with particular reference to Third Plan :*

The Third Plan Schemes for industrial development in Kerala are under two separate sectors, *viz.*, the Central Sector and the State Sector.

According to the latest available information it is seen that the Central Government have decided to locate five public sector projects in Kerala during the 3rd Plan period. They are: the second ship-building yard at Cochin at a cost of Rs. 20 crores; a Forme Press at Koratti; a Precision Instrument Factory in Palghat District; Hindustan Machine Tool Factory at Ernakulam at a cost of Rs. 7¼ crores; and Oil Refinery at Cochin, Ernakulam District, at a cost of Rs. 22·75 crores.

The industrial programme under State sector, entails a total estimated outlay of Rs. 1,719·50 lakhs in the Third Plan. The break-up between different industries in Rs. lakhs is as given below : Large and Medium Industries in Public Sector 174·50; Large and Medium Industries in Private Sector 280·00; Plantation Industries 465·00; Handloom Industries 165·00; Small Scale Industries 255·00; Industrial Estates 125·00; Handicrafts 35·00; Coir Industry 175·00; Sericulture 5·00; Khadi and Village Industries 40·00.

*Reorganisation of State Owned Firms :* The Kerala Government has decided to reorganise the 11 Govt. owned industrial concerns in the State as five joint-stock companies as recommended by the committee of the Kerala State Industrial Development Corporation.

The State Government has already regrouped the 11 industrial undertakings into five different joint-stock companies and the assets worked out have been treated as working capital and loan on 50–50 basis and the new companies have started working from 24-2-1964.

The five different companies are in the following order : (1) The Government Hydrogenation Factory, Calicut; Kerala Soap Institute, Calicut; Government Oil Factory, Calicut and Shark Liver Oil Factory, Trivandrum. (2) The Travancore Plywood Industries, Punalur. (3) Kerala Government Ceramics, Kundara and the Government Ceramic Concerns, Kundara. (4) Travancore Rubber Works, Trivandrum, Kerala Government Cycle Rim Factory, Trivandrum and Kerala Cycles, Pappenamcode (near Trivandrum). (5) Trivandrum Spinning Mills, Balaramapuram (near Trivandrum).

*Large and Medium Industries :* Preference has been given under the public sector to the expansion and modernisation of the existing industrial units. The reorganisation and expansion of (*i*) the Kerala Soap Institute, Calicut, (*ii*) the Government Oil Factory, Calicut, (*iii*) the Government Ceramic Concern, Kundara, (*iv*) the Travancore Rubber Works, Trivandrum, (*v*) the Cycle Rim Factory, Trivandrum, (*vi*) the Government Spinning Mill, Trivandrum, and (*vii*) the Electrical and Allied Industries Kundara are those included in the Plan.

A contract for the preparation of a detailed project report and working drawings for the establishment of a mechanical instrument plant in Palghat has been concluded between the Government of India and V/O "Prommashexport", a Soviet supply organisation in Jan. 1964.

The detailed project report of the plant will be prepared by a Soviet designing institute on the basis of the memorandum of instructions approved by the Government of India and will provide for the establishment of machine and assembly shops, auxiliary shops, designing department, special designing bureau and other services necessary for the running of the plant.

Under the Private Sector, the Kerala State Industrial Development Corporation (KIDC) has been organised to help capital formation in respect of deserving enterprises. The Corporation has undertaken to offer financial and technical services to industrialists for setting up industries.

Financial assistance by way of State participation in the capital structure has already been agreed to in the case of the Travancore Titanium Products, the Tracco Cables, the Premier Tyres, the Kerala Lakshmi Mills and Heavy Transformers.

Out of the 12 spinning mills licensed during 1962, three of them i.e., G.T.N. Textiles Ltd., Alwaye (Ernakulam District), Premier Cotton Spinning Mills Ltd., Palghat and Calicut Modern Spinning and Weaving Mills have commenced production. Other licences are under various stages of implementation and a few are expected to go into production shortly. Spindlage of the spinning mills has substantially been increased to 25,000.

*The following are the important industries for which Licences have been granted :* Cable Factory at Ernakulam — Investment being Rs. one crore and 51 lakhs; Aluminium Oxide Grains

Manufacturing at Edapally — Investment being Rs. 2 crores ; Transformer Factory at Angamaly — Investment being Rs. 3·3 crores; Zinc Smelter Plant at Alwaye; Steel Re-Rolling Mill at Kozhikode ; Tin-plate Manufacturing Factory at Ernakulam ; Veneer Factory, Rubber Factory and Paper Factory ; Machine Tool Factory at Palghat ; Wire-rope Factory at Alwaye ; Water Meter Factory at Palluruthy ; Pen-stock Factory at Palluruthy ; Gelatin and Ossein Plant at Alwaye ; Starch Factories ; Cashewnut Shell Liquid Factory at Quilon ; Rayon Grade Wood Pulp Factory at Calicut ; Premier Tyres, Alwaye ; Sugar Co-operatives at Chittoor and Pandalam ; Tracco-Cables, Tripunithura ; Co-operative Spinning Mill at Cannanore.

Following are the industries which started production during 1964 and 1965 :

Cannanore Co-operative Spinning Mills Ltd., Cannanore ; Tracco Cables Ltd., Ernakulam ; Mittal Steel Re-Rolling & Allied Industries (P) Ltd., Vadakkancherry, Trichur ; Kerala Wheat & Flour Roller Mills, Calicut ; Giovanola-Binny Ltd., Cochin ; Travancore Electro-Chemical Industries Ltd., Kottayam ; Seshasayee Wire Ropes Ltd., Alwaye ; West India Steel Co. Ltd., Calicut ; Mannam Sugar Mills Co-operatives Ltd., Pandalam ; G.T.N. Textiles Ltd., Alwaye ; Calicut Modern Spinning and Weaving Mills Ltd., Calicut ; Premier Cotton Spinning Mills, Ltd., Palghat ; Chittor Co-operative Sugars Ltd., Chittor ; British Physical Laboratories India (P) Ltd., Palghat ; H.M.T. Ltd. Kalamasserry.

*Plantation Industry :* With a view to reducing the import of rubber, an ambitious programme for the development of rubber plantation industry has been included in the Third Plan for the State. The programme of development comprises planting by Government and individuals and encouraging distribution of loans to auction purchasers of forest lands.

A trading and export corporation will also be established for the procurement and storage of ginger.

*Village and Small Industries :* To promote the growth of industries in the rural and underdeveloped areas, a scheme of giving subsidies to small scale industrialists starting industries in such areas, has been drawn up. A "Kerala State Small Industries Development Corporation" as a private limited Company of which the shares will be fully owned by the State Government has already been organised. This Corporation have taken up works in connection with setting up and managing of industrial estates, organising depots for supply of raw materials, running common service facility centres, and emporia and supplying indigenous machinery on hire purchase terms. Supply of power at subsidised rates, organisation of exhibitions for giving publicity to small industry products, providing mobile vans, starting of 8 rural workshops in N.E.S. Blocks, starting of tool rooms in the Industrial Estate at Trivandrum, are various other measures that will be taken up during the Third Plan period to develop the growth of small industries in the State. Some of these schemes have already been implemented. The development of Khadi and Village Industries is being implemented by the Kerala Khadi and Village Industries Board.

*Industrial Estates :* In order to provide factory accommodation to small scale industries nine units of Small Industrial Estates costing Rs. 5 lakhs each are being constructed in or near towns having a population between 5,000 to 20,000 and also a medium Industrial Estate costing Rs. 15·00 lakhs is under construction at Umayanellore in Quilon District. Further, action has been taken to establish a Marine Industrial Estate in Ernakulam District to establish a few Small Scale units with the collaboration of the Norwegian Agency for International Development. In addition to these programmes, 25 Nos. of workshed units are being implemented in the Community Development Blocks of the State where there are village artisans employed on traditional trades.

For the Development Plot in cities in Kozhikode District, acquisition steps have almost been completed and the Development Plot is located at West Hill adjacent to the existing industrial estate. A site situated in the Edakkad Village Mambaram Road (behind Chala Railway Station) in Cannanore District having an area of 57 acres is proposed to be acquired to establish a development plot.

Further to these, there is a programme to establish six Industrial Estates in the private sector assisted by the State.

In addition to the starting of 10 new Industrial Estates, it has been decided to expand and provide additional amenities to the existing eight Industrial Estates, already started during the Second Plan period. A total amount of Rs. 47·29 lakhs has been set apart for development area and development plots in cities for the assignment of suitable sites to the entrepreneurs with all facilities like water, transport, communications, etc. leaving the entrepreneurs to construct the factory sheds on their own subject to the minimum approved standards in the "development areas" covering about 450 acres in Alwaye, 109 acres in Trivandrum and 200 acres in Palghat.

*Handicrafts :* Brass and bell metal work, handloom furnishing fabrics and lace cloth, screwpine, kora grass and palmyrah leaf weaving, rattan work, kuft gari, bamboo and reed weaving, Kathakali costumes manufacture, traditional folk jewellery making, Aranmula Metal Mirror making, laminated wood work, toys and dolls making, lace and embroidery, lacquerware, ivory, horn, wood, coconut shell carvings, etc. are the important handicrafts of this State. There are about 15,000 persons employed in 3,000 establishments in these crafts. There are about 300 Handicraft Co-operatives in the State. It is proposed to organise 100 Co-operatives more during the Third Plan period and develop 30 societies on an intensive basis. A sum of Rs. 37 lakhs has been provided for development of handicrafts during the Third Plan period. The articles produced by these societies are sent to all parts of the world for sale through the agencies and India Handicrafts Corpn.

*Handloom Industries :* Total No. of looms in the State : 1,20,000 ; Total No. of looms in the Co-operative fold (Regd.) as on Dec. 31, 1964 : 45,401 ; Total No. of looms registered outside Cooperative fold as on Dec. 31, 1964 : 63,596 ; Total No. of societies in the State as on Dec. 31, 1964 : 404 ; Total No. of society members as on 30th June 1964 : 270 ; Total No. of individual members as on 30th June 1964 : 50,201 ; Total paid-up share capital as in June 1964 : Rs. 38,61,000 ; working capital as in June 1964 : Rs. 16,96,000 ; Total production in metre (July 1963-June 1964) : 21,240.941 (valued at Rs. 2,37,55,622) ; Total sales during 1961 : 21,250,690 mtrs.) (valued at Rs. 2,29,77,154) ; Financial target fixed for II Five Year Plan : Rs. 127·5 lakhs ; Financial target fixed for Third Five Year Plan : Rs. 1,65,00,000.

It is proposed to introduce 1,000 powerlooms in the Handloom sector during the Third Five Year Plan period, against 500 during the Second Plan, out of which 500 looms were proposed to be distributed to the weavers throughout Kerala State during the year 1962-63.

*Cashew Industry :* There are about 250 cashew processing factories in India of which nearly 75 per cent are in Kerala, employing more than a lakh workers.

From paltry 50 tons in 1925 production of cashew kernels has rapidly risen to over 55,000 tons in 1963. Export during 1963 reached an all time record of 53,000 tons yielding foreign exchange to a tune of Rs. 21¼ crores. Cashew nut shell liquid also contributes to India's foreign exchange earnings to the extent of over Rs. 1 crore.

*Coir Industry :* The important items in the programme will be the organisation of primary coir co-operatives, coir marketing societies, and societies for the manufacture of mats and mattings, ropes, bristle and mattress fibre. A model coir factory has already been organised at Beypore to modernise the manufacturing side of the coir industry. The provision for coir development for the Third Plan period is Rs. 175 lakhs.

*Sericulture :* The existing Sericulture Farm at Ambalavayal in Wynad area will be expanded during the Third Plan period. This will provide subsidiary occupation to the colonists numbering about 3,000 who have settled in Wynad. The Third Plan provision for this scheme is Rs. 5 lakhs.

*Khadi and Village Industries :* The Kerala Khadi and Village Industries Board was constituted in August 1957 so as to help the villagers in organising co-operatives and to give loans and grants and other technical assistance for the development of Village and Cottage Industries such as Khadi and Ambar, village oil, handpounding of paddy, village pottery, non-edible oil soap, handmade paper, gur khandsari, beekeeping, village leather, palm gur, fibre, carpentry, blacksmithy, etc. The implementation of Khadi and Village Industries schemes would provide employment to not less than 32,767 persons full time and 13,239 part time. About 820 co-operative societies have been registered for Khadi and Village Industries. To facilitate the marketing of the products of these industries a Central Marketing Society will also be organised. The total provision made during the Third Plan period is Rs. 40 lakhs.

*Chief minerals produced in the State :* The beach sands contain the much valued and strategic mineral monazite besides five others of great economic value namely ilmenite, rutile, sircon, sillimenite and garnet. The extensive white clay deposits contribute to the ceramic industry. Other minerals available are mica, graphite, limestone, quarts-sand and lignite.

According to an official assessment of mineral reserves of Kerala, made by the Geological Survey of India in 1962, substantial white sand reserves suitable for glass manufacture have been found in some places of Alleppey and Ernakulam Districts.

Deposits of Kaolin have been found in Kundara, Quilon District and several other places in the districts of Trichur and Cannanore.

## LABOUR

*Names of industries in which a minimum wage is fixed :* For the whole State : Rice mill, flour mill or dal mill, beedi making, cigar making, plantations (coffee, tea, rubber & cardamom), oil milling, local authorities (municipalities, Panchayats and Trivandrum Corporation), construction and maintenance of roads and buildings, stone breaking and crushing, public motor transport, tanneries & leather manufacture, match industry, shops and establishments including hotels and restaurants, cashew factory, tile industry, printing presses, timber industry, toddy tapping, agriculture, coir manufacture and plywood.

*Kerala Labour Industrial Bureau:* The Government of Kerala has set-up a "Labour and Industrial Bureau" with the object of developing an industrial advisory service. The Bureau will promote and co-ordinate research in labour and industrial problems, including organisational and administrative aspects. It will also foster the application of research in the development of commerce, trade and industry and for the fruitful utilisation of natural resources in the Industrialisation of the State.

The Bureau will collect and supply information relating to industry feasibility, plant location, raw materials, requirements of resources for different industrial units, industrial productivity, marketing and sources of industrial finance. The bureau publishes a quarterly "Kerala Labour and Industries Review". A Director heads the Bureau, with headquarters at Trivandrum.

A bacon factory and a pig-breeding centre are to be established at Mannuthy near Trichur under the crash programme for developing animal husbandry.

The scheme, which will be financed by the Centre, is estimated to cost Rs. 25 lakhs and will be outside the Third Plan schemes.

The site for establishing the factory and the pig-breeding centre had been finalised by Dec. 1964 and estimates are being prepared.

The factory will commence production within 18 months.

An egg collection and marketing centre capable of handling six lakhs eggs a week in the initial stage is also proposed to be established at Chengannur.

*Equipment:* Ploughs (wooden : 562,281; iron : 6,441); carts : 21,037 ; sugar cane crushers (power 175 ; bullocks 1,071); oil engines : 3,372 ; electric pumps : 2,565 ; tractors : 276 ; Ghoris (more than 5 seers : 2,058 ; less than 5 seers : 2,164).

## LIVESTOCK 1961 (FINALISED)

*Cattle*—Males over 3 years : Breeding bulls 9,076 ; Working bulls 515,241 ; Not used for breeding or work 21,471 ; Total : 545,788.

*Cattle*—Females over 3 years—Breeding cows (in milk) 428,194 ; Dry cows and not calved 502,935 ; Working cows 11,274 ; Cows not used for breeding or work 12,306 ; Young stock 10,25,148 ; Total females and young stock 21,63,554 ; Total Cattle 27,53,165.

*Buffaloes*—Males over 3 years—(1) Breeding 2,009; (2) Working 2,68,200 ; (3) Not used for breeding or work 6,614 ; Total of males 2,85,112.

*Buffaloes*—Females over 3 years—(1) Breeding in milk 59,542 ; (2) Breeding dry and not calved 66,187; Used for work 7,266 ; Not used for work or breeding 2,118 ; Young stock 64,864 ; Total of females and Young stock 2,29,828 ; Total of buffaloes 4,29,805.

*Other livestock :* Sheep 24,241 ; Goats 13,12,262 ; Pigs 1,22,381.

Grand total of cattle, buffaloes, sheep, goats and pigs etc. 74,50,303.

*Poultry*—Fowls and ducks 90,95,736.

## AGRICULTURE

Of the total population 53·6 per cent depend upon agriculture, though the per capita extent of cultivated land is only 30 cent. The non-agricultural population is about 6·3 millions.

*Classification of area in acres* as on June 30, '64 : Forests : 2,606,395; land put to non-agricultural uses : 538,557 ; barren and un-cultivable land : 288,857 ; permanent pastures and other grazing land: 85,084 ; land under misc. (crops not incl. in the net area sown) : 512,380 ; cultivable waste : 308,721 ; fallow (other than current fallow) : 104,013 ; current fallow : 94,170 ; net area sown : 4,996,434 ; area sown more than once : 1,086,459 ; cropped area : 6,082,893 ; Total irrigated area : 1,208,090.

Total area under all crops : 53,82,400 acres. Total irrigated area : 8,79,458 acres.

*Foodcrops :* Rice, jowar, ragi, other cereals and millets, tur, other pulses, sugar cane, pepper, chillies, ginger, turmeric, cardamom, betelnut, mango, citrus fruits, banana (including plantain), cashewnut, tapioca, sweet potato and onion.

Production of rice which showed an unsatisfactory trend in the initial stages of the Third Plan registered an increase of 1·42 lakh tons in 1962-63. The prospects of the rice crop was good in 1963-64 and the anticipated total production of 12·30 lakh tons was expected to be achieved. The target fixed for 1964-65 is 13·61 lakh tons. Annual rice deficit in the State is 700,000 tons.

Quantity of rice required to meet the needs of the fair price shops : 10,000 to 12,000 tons a month.

Main cash crops of the State : Coconut, Arecanut, Tea, Coffee, Cardamom, Rubber, Pepper, Gingelly, Cotton, Turmeric, Sugarcane, Ginger, Lemon grass, Groundnut, Cashewnut.

## POWER PROJECTS

### Projects in Operation

*Pallivasal H.E. Project:* In the high ranges in Devicolam below Munnar. Started in 1940. Installed capacity 13,500 kW.

Installed capacity of the 1st stage increased to 37,500 kW at the 2nd stage. Actual production during 1963-64: 247·17 million units.

*Sengulam Hydro-Electric Scheme:* The power station is located at Vellathuval below Pallivasal and is a tail race development of Pallivasal scheme. The installed capacity is 48,000 kW. The project was commenced in 1947. The work was completed in May, 1957. The cost of the scheme is Rs. 364·73 lakhs. Production during 1963-64: 129·96 million units.

*Poringalkuthu Hydro-Electric Scheme:* The power station is located at Poringalkuthu on the Chalakudy river in Trichur District. The installed capacity now is 32,000 kW comprising four generating sets of 8,000 kW each. The fourth generating set was commissioned in Feb., 1960. The cost is Rs. 399·30 lakhs. Production during 1963-64: 161·10 million units.

*Neriamangalam Hydro-Electric Scheme:* The power station is located at Panamkutty on the right bank of the Periyar river. The installed capacity will be three units of 15,000 kW each. Work was started in January 1955. The project was inaugurated on April 12, 1961. Estimated cost is Rs. 360 lakhs. The production during 1963-64: 217·60 m. units.

*Panniar Hydro-Electric Scheme:* The power house will be located on the left bank of the Muthirapuzha river almost opposite to the Sengulam power house. The installed capacity 30,000 kW. comprising two sets of 15,000 kW. each. The estimated cost is Rs. 484 lakhs. The first unit was put into commercial operation on 29-12-63 and the second unit commissioned on 26-1-64. Production during 1963-64: 13·01 million units.

### Projects in Execution

*Sholayar Hydro-Electric Scheme:* This scheme is located on the bank of the Sholayar river, a tributary of the Chalakudy river in Trichur District. The generating station will have three sets each of 18,000 kW capacity. The estimated cost of the scheme is Rs. 432 lakhs.

*Sabarigiri (Pamba) Hydro-Electric Project:* This envisages development of power from the waters of the Pamba and Kakki rivers. The project works are in progress. The power station will have an installed capacity of 300,000 kW, consisting of six units of 50,000 kW each, involving an expenditure of Rs. 2,491 lakhs.

The project comprises the construction of a 171-ft. high dam across Pamba river, and a 360-ft. high dam across Kakki river, with a saddle dam and inter-connecting tunnel, 10,524 ft. long, between Pamba and Kakki reservoirs.

The head-race tunnel, about 18,000 ft. long having a capacity of 1,970 cusecs, will take off from Kakki reservoir. Work on the scheme is progressing. The project is being executed with loan from U.S. Aid.

The first two units of the Sabarigiri Power Station are expected to be commissioned by the end of the Third Five Year Plan.

The present installed capacity of the Hydro Electric Stations in the State rose to 192,500 kW. The energy output from the hydro electric station during the year 1963-64 was 762·88 million units.

**Projects of the Third Five Year Plan**

*Idikki H.E. Project:* This is the largest hydro electric scheme planned for execution in the State. The first stage of the scheme estimated to cost Rs. 4,923 lakhs will have an installed capacity of 500 MW, developing firm power of 355 MW at 60 per cent load factor. A provision of Rs. 300 lakhs has been made in the Third Plan for commencing work on the scheme. The scheme after completion will irrigate 115,000 acres in Thodupuzhe, Meenachil and Vaikam Taluks and will be located in the Kottayam and Ernakulam Districts across the Periyar River.

The preliminary works on the Idikki Project are in progress.

*Kuttiadi H.E. Project:* The project envisages power development from the Kuttiadi river in Malabar area of this State. The scheme estimated to cost Rs. 525 lakhs will contribute 245 million units to the energy potential of the grid. The power station will have an installed capacity of 75,000 kW. A provision of Rs. 300 lakhs has been made in the Third Plan for this project.

Civil works on the project are in progress. Orders for the supply of Generating Station equipment have been placed.

It is proposed to inter-connect the Kerala and Madras power systems through a 220 kV transmission line during the Third Five Year Plan.

Transmission lines have been constructed in the Malabar area of the State and part of the load in this area is being met from the Kerala grid. Supply is also being received from the Madras State Electricity Board for distribution in the Malabar area.

## IRRIGATION

*Major Irrigation Schemes:* The following are the major irrigation projects:

| Name of Scheme | Estimated cost in Rs. lakhs | Area to be served in acres |
|---|---|---|
| 1. Malampuzha .. | 545·00 | 50,000 |
| 2. Walayar .. .. | 131·66 | 8,000 |
| 3. Mangalam .. | 106·00 | 8,000 |
| 4. Vazhani .. .. | 107·57 | 8,810 |
| 5. Peechi .. .. | 235·00 | 46,000 |
| 6. Chalakudy | | |
| (1st stage) .. | 153·25 | 28,400 |
| (2nd stage) .. | 60·00 | 10,000 |
| 7. Neyyar | | |
| (1st stage) .. | 224·00 | 19,000 |
| (2nd stage) .. | 170·00 | 10,000 |
| 8. Gayathri .. .. | 220·00 | 13,500 |
| 9. Kallada .. .. | 1,290·00 | 1,30,000 |
| 10. Pamba .. .. | 384·00 | 33,000 |
| 11. Kuttiadi .. .. | 496·00 | 36,000 |
| 12. Kanjirapuzha .. | 365·10 | 24,000 |
| 13. Chittoorpuzha .. | 99·17 | 27,800 |
| 14. Pazhassi .. .. | 442·00 | 40,000 |
| 15. Pothundy .. | 234·25 | 11,000 |
| 16. Cheerakuzhy .. | 47·34 | 4,000 |
| 17. Periyar Valley .. | 640·00 | 63,300 |
| *Land Development Schemes:* | | |
| 1. Thannirmukkom Regulator .. | 150·00 | 121,000 |
| 2. Kattampally .. | 52·81 | 4,000 |

Of the above schemes Malampuzha, Walayar, Mangalam, Vazhani and Peechi Schemes and the 1st stages of Chalakudy and Neyyar schemes were started during the First Five Year Plan and all these schemes except Neyyar 1st stage had been fully commissioned by the end of Second Five Year Plan.

Besides these, the schemes *viz.*, Chalakudy second stage, Neyyar second stage, Gayathri (Meenkara including Chulliar), Pothundy, Cheerakuzhy and Periyar Valley were started during the Second Five Year Plan and the schemes Chalakudy second stage have been commissioned and Gayathri schemes first stage has been completed. The work in the Chulliar Dam (Gayathri second stage) are in progress. All other schemes are also in various stages of execution.

Six new projects have been taken up for execution during the Third Five Year Plan and they are Kallada, Pamba, Kuttiadi, Kanjirapuzha, Pazhassi and Chitturpuzha. The schemes are only in the initial stages of execution.

The regulator at Thannirmukkom, the Second stage of the Kuttanad Development Scheme and the Kattampally Projects are the two Land Development works which have been started during the Second Five Year Plan. The works relating to these projects are in progress. The first stage of Kuttanad development scheme *viz.*, the Spillway at Thottapally has been completed in all respects. When the Second stage is completed, an area of about 1,21,000 acres will be benefited in the Kuttanad area.

As regards the Major Irrigation Projects the total Third Plan provision is Rs. 1,142·00 lakhs. Apart from these major schemes a number of Medium and Minor Irrigation works are also in progress. Further, there are extensive paddy lands by the side of Chalakudy, Periyar, Muvattupuzha and Pamba rivers. As these isolated areas could not be brought under flow irrigation, a series of schemes have been started by Government whereby water is lifted from rivers by means of electric or diesel pumps and led on to the fields through channels. All these works are classified under 'Minor Irrigation' and a sum of Rs. 500·00 lakhs has been provided in the Third Five Year Plan.

The number of irrigation pumps electrified and area irrigated as on March 31, 1965 respectively was 3,840 and 600 acres.

*Anti-sea Erosion Works:*—The State has a coastline of about 360 miles. It has been estimated that a total length of 200 miles badly need protective measures. The only permanent method of preventing sea erosion is by constructing sea walls and groynes. Works on these lines had been taken up during the 1st Five Year Plan and this was continued in the 2nd Plan. Sea walls have been constructed only over 15 miles till the end of the Second Plan. During the Third Plan period sea walls extending over 25 miles in the affected area will be constructed.

*Shipyard:* The work on the second shipyard at Cochin would start during the Third Plan period.

The shipyard will take eight to nine years for completion. The Kerala Government has already acquired the land required for the purpose.

SEWING & EMBROIDERY THREADS MANUFACTURERS

The Union Government proposes to build at Cochin ocean-going steamers with 20,000-ton displacement.

*Kerala Engineering Research Institute:*—Research on various engineering problems including fundamental and basic research on the subjects allotted by the Central Board of Irrigation and Power are being conducted in the Research Station. The problems so far taken up for research studies have been completed.

*Land Tenure:* There are a number of land tenure systems in the State. Janmam lands, Pandaram, Kanapattam, Verumpattam, Adima, Anubhogam, etc., are some of these.

Edavagai Abolition Act abolished special tenancy rights of four ancient chieftains and conferred full rights on tenants. This bill was part of one of seven bills *viz.* Special Rights Abolition Bills.

Following the judgment of the Kerala High Court, declaring the Kerala Agrarian Relation Act, 1960 as unconstitutional in its application to the major portion of the lands in the State, the Government of Kerala suspended the Act and an ordinance was issued giving protection to the tenants. The ordinance was to be in force till December 1963. On Dec. 4, 1963 the Kerala Assembly passed the Kerala Land Reforms Bill 1963.

*Panchayati Raj:* Panchayat Raj has started taking concrete shape in Kerala and elected panchayats are now functioning all over the State. The newly elected Panches and Sarpanches have been enthusiastic in carrying out development programmes.

The draft Panchayat Bill has been finalised by the State Govt. The block-level body is to be known as the Panchayat Union and the district level body as the Zilla Parishad. The Collector is to be the Chairman of the Zilla Parishad and Members of Parliament and the State Legislature are to be associated with these institutions without the right to vote or to hold office.

So far, about one and a half lakh persons have been enrolled in the Village Volunteer Force in Kerala.

## THIRD FIVE-YEAR PLAN

Kerala has a Central Planning Advisory Board to advise the Government generally on matters connected with development and planning.

The gross outlay included in the budget for 1964-65 in respect of Plan schemes amounted to Rs. 50·14 crores of which Rs. 5·62 crores were the Central share of Centrally-sponsored schemes. The magnitude of the State's Five Year Plan is Rs. 170 crores.

The distribution of the Third Plan expenditure is as follows (Rs. lakhs):—

Agricultural programmes Rs. 3,238·80; Co-operation and Community Development Rs. 1,055·86; Irrigation and Power (including Flood control and anti-sea erosion) Rs. 5,919·00; Industry and Mining Rs. 1,719·50; Transport and Communications Rs. 1,088·00; Social Services Rs. 3,796·44 and Miscellaneous Schemes Rs. 182·40.

### Fourth Plan

The preliminary memorandum on the Fourth Plan for Kerala has been approved by the State Planning Advisory Board and submitted to the Planning Commission. The approved plan suggests a total outlay of Rs. 1,020 crores of which Rs. 442 crores is included under the head State Plan, Rs. 326 crores under the central sector and Rs. 252 crores under the private sector. The outlay proposed for the Fourth Plan in the state sector is two and a half times larger than in the Third. There is also greater emphasis on productive investment aimed at effecting a structural change in the economy. For example, industry, including power, which received 35·6 per cent of the Third Plan outlay, gets 45·2 per cent in the Fourth Plan.

With the reorganisation of States, in Nov. 1956 the Government of India took over the administration of the Laccadive, Minicoy and Amindivi group of Islands, a small sprawling group of coral islands in the Arabian Sea, lying between the latitudes of 8° and 12° north lat.

They now constitute a Union Territory under an Administrator.

Ten of the islands are inhabited out of a total number of 19. Minicoy, Kalpeni, Kavarathy, Agathy and Androth lie in the Laccadive group and Ameni, Kadamath, Kiltan, Chetlat and Bitra in the Amindivi group.

The islands lie from north to south, Minicoy being the southernmost and Chetlat the northernmost. They are within 20 to 114 miles away from one another except Ameni and Kadamath which are only six miles apart. They are 125 to 250 miles off the Kerala coast.

There is no scope for colonisation in the small satellite islands on any appreciable scale.

All the inhabitants of the Islands are Muslims. Originally Hindus, from Malabar* (except for Minicoites) the Islanders appear to have been converted to Islam sometime in the sixth century. In appearance, mode of dress, manners and customs, the Islanders, except those from Minicoy, are indistinguishable from the Moplahs of Malabar.* Their dialect is old Malayalam, with local variations peculiar to each island. The Minicoites are more akin to the inhabitants of the Maldives and their language, Mahl, is said to be allied to primitive Sinhalese. In appearance too they are strikingly different from the inhabitants of the Laccadives and the Amindivis. Their customs and manners are also different.

Mainly as a result of isolation, the Islanders have remained backward economically, though in point of intelligence and initiative they are in no way inferior to the Moplahs of Malabar.* They have been declared 'Scheduled Tribes' but in reality are far more advanced than tribes elsewhere.

In the islands formerly administered from South Kanara, a Tahsildar exercises the powers of a Second Class Magistrate, a Revenue Officer and a Port Officer in the Amindivis. He is also a Civil Judge without monetary limits operating under the customary laws of the islands and is assisted in his civil work by Panchayats known as Mukthesars in Ameni and by Moopans in the other Islands.

In the Malabar group the present system is based on Amins appointed from among competent and influential Islanders, assisted by clerks. Neither post is hereditary. In the place of Mukthesars or Moopans in the Amindivi group there are Karanavans or assessors to assist the Amins in the administration of civil and criminal justice, which is governed by the Island Regulation of 1912. The Amin is usually selected from Karanavans.

Appeals now lie to the Secretary to the Administrator who is a I Class Magistrate and to the Administrator who has been invested with powers of a District Magistrate. The Amindivi group of islands come under the jurisdiction of Tellicherry Sessions Division in Kerala State.

The Union Territory is now under the jurisdiction of the Kerala High Court.

There are three more Tahsildars now, one for Minicoy, one for Androth and Kalpeni and the other for Kavarathy and Agathy with a view to improving the existing administrative machinery. The Tahsildar for Laccadive group has been invested with the judicial power, designating him as Inspecting Officer.

There is no land tax on any of the islands of the Laccadive group but only a tree tax on Government land.

The total revenue from these sources can never be a large amount, because the occupied area of the islands is only about 9 sq. miles. The present average annual income from this source is only about Rs. 20,000.

There is no tax of any kind in the Amindivi group of islands except from two minor leases of Government Pandaram lands and also from court fees, search fee, copying fees, magisterial and customary fines.

The Minicoy Island, which deserves separate mention, pays a lease amount on Pandaram lands.

To set right the existing system of land ownership and collection of taxes it was proposed to conduct a survey of all islands for changing the basis of ownership from one of trees to one of land. The survey is now going on island by island.

One member is nominated to the Lok Sabha from the Islands.

## ECONOMY

The main industry on the islands is production of coir. Coir is taken to Mangalore and exchanged for rice under a monopoly system at the exchange rates fixed by the Government from time to time by reference to market rates for coir and rice on the mainland. The Government have coir depots in all the islands except Minicoy which is not subject to this monopoly. Islanders are prohibited from selling coir to the public with a view to ensuring the islander a regular supply of rice in exchange for coir, thereby minimising the chances of middlemen interfering in the coir trade. The scheme is worked in no-profit-no-loss basis.

During the Second Plan about 800 people were trained in improved methods of coir twisting on charkas at the Coir-cum-Training-cum-Production centres. The cooperative societies give them loan to buy fibre and the spun yarn is sold at the mainland markets. A handloom weaving centre was started at Agathi during 1960-61. A few islanders have been trained in weaving and they produce clothing to meet local needs. In Minicoy a unit for mat making from screwpine has been started.

## AGRICULTURE

The only agriculture on the island is coconut cultivation but no scientific approach to the question was ever made before. Cultivation of coconuts is now done scientifically with departmental advice and direction.

There are about 6,500 acres planted with coconut trees. About 20 to 30 per cent of the yield was estimated to be destroyed by rats. During the Second Plan a large-scale rat eradication programme was launched. To popularise quality seedlings, coconut nurseries were started on all the islands. Demonstration plots have been organised to show the islanders the usefulness of chemical fertilisers. Agricultural fieldmen recruited from the islands and specially trained, have been stationed on all the islands during the Third Plan.

## ANIMAL HUSBANDRY

Six poultry units and a model poultry farm were started during the IInd Plan. There is a farm and a veterinary hospital at Karvaratti. Good quality bucks are supplied to all islands to improve goat rearing.

## FISHERIES

Fisheries development has been taken on a fairly big scale. On Minicoy, the bonito or 'mas' fishing forms an important and valuable industry. This industry is being extended to Kawarathy and Agathy Islands.

During the Second Five Year Plan exploratory fishing was started with mechanised boats by the Fisheries Department. In 1964 it was discovered that tuna was available in plenty in the entire Laccadives. To encourage mechanised fishing, Pablo boats have been given to the islanders at subsidised rates during the Third Plan. Fishery requisites like nylon nets etc. are also given at subsidised rates.

A small unit for canning tuna was opened at Agatti Island. Another canning unit was expected to be opened at Minicoy during 1964-65.

## CO-OPERATION

At the end of 1961-62 three cooperative societies were formed at Androth, Amini and Kavaratti and during 1962-63 societies were formed in all the remaining islands. All consumer goods needed by the islanders are now supplied through these cooperative societies. They also market the island's products like copra on the mainland markets. During 1963-64 consumer goods worth Rs. 15 lakhs were supplied by the cooperative societies and the total value of copra marketed through them came to Rs. 23 lakhs.

Today (May 1965) the societies have a total membership of 3,836 with a total working capital of Rs. 3,27,525, the people's contribution being Rs. 92,525.

## PUBLIC HEALTH

The main health problems are the eradication of leprosy and filariasis.

Leprosy is on the increase in two islands, Minicoy and Androth. A leprosy colony started in 1952 at Androth with the aid of a local committee has been taken over by the Government.

In Minicoy too there is a leprosy colony. At Kadamath another colony was started on Sept. 22, 1960. The spread of this dire disease has been brought under control. The overall rate of filariasis has come down from 14·8 per cent in 1951 to 6·08 per cent.

One hospital at Minicoy, three Primary Health Centres at Androth, Agathy and Kalpeni and one dispensary at Kavarathy exist in the

* Kerala.

Laccadive group of Islands. In the Amindivis, apart from the Primary Health Centre already existing in Ameni, two new Primary Health Centres have been started at Kadamath and Chetlat Islands. There is also one dispensary at Kiltan. Each Island has a Medical Officer now. In addition to this, there is one Lady Medical Officer for Minicoy and another with headquarters at Kavarathy for the remaining Islands.

Nine Health Inspectors have been appointed to combat the spread of filariasis and other dire diseases.

Medical aid is free in all the islands. Acute cases which cannot be treated in the islands are brought to the mainland and the patient is provided facilities to get free medical aid and the expenses.

### EDUCATION

There are three high schools, 13 senior basic schools, eight junior basic schools, six feeder schools and one single teacher school in the islands at present (May 1965). Of these five senior basic schools and four junior basic schools are exclusively for girls. When the Administration took over in 1956 there were only nine incomplete elementary schools. From 1,521 students in 1956-57, the strength has increased to 5,200 in 1965-66. The number of teachers has increased from 14 to 232.

Education is free at all stages. For those going to colleges scholarships are given and free boarding and lodging facilities are provided. There are at present 24 scholarship holders for post-matriculate courses of which 11 are for M.B.B.S., two for engineering and two for agriculture.

It is proposed to start one more high school at Kavaratti in 1966.

### TRANSPORT AND COMMUNICATIONS

Lack of proper communication is however the biggest single handicap of the administration. The normal communication to the islands is by means of island sailing boats during the months of October to May when the islanders buy all their requirements from the mainland and sell their produce especially copra, coconuts, cadjan leaves, vinegar, palm gur, mass fish and coir in the mainland markets. For the rest of the year the islands are practically cut off from any contact with the mainland.

A steamer service has been introduced by chartering two power vessels for service to the islands during fair season. A small power launch has also been purchased by the Administration for inter-island communication of touring officials. It is proposed to buy a more powerful launch for this purpose.

In Minicoy there is a wireless station. New wireless stations were opened two years ago at Kavarathy, Androth and Ameni Islands. Wireless stations have now been opened at Kalpeni, Kadamath, Kiltan, Chetlat and Agathy Islands. With these, every inhabited Island has a wireless station except the tiny Island of Bitra where the population is less than 100. Inter-Island communication is also rare because the islanders have more contact with the mainland than among themselves.

There are post offices in all the islands and money order facilities have been provided.

### POWER

During the last two years electricity has been introduced in Minicoy, Amini and Kavarathy Islands. It is proposed to electrify all the islands by the end of the Fourth Five Year Plan while two would be electrified in 1966.

### FIVE-YEAR PLAN

As approved by the Planning Commission, the broad proposals for improvement of these islands under a Second Five-Year Plan were as below :

(Rs. lakhs): Agriculture and Community Development including Development of Fisheries 19·69; Transport and Communications 19·75; Industries 4·11; Education 12·40; Publicity 0·92; Public Health 15·40; Electricity 1·00; C.P.W.D. 0·58; Total 73·85. The actual expenditure come to Rs. 40·28 lakhs representing 54·5 per cent of the total outlay.

Under agriculture which on the islands consists mainly of coconut cultivation the plan target of 50 to 60 coconuts per tree per year had been nearly achieved.

Under industry, coir twisting was being developed through training-cum-production centres.

An Advisory Council had been constituted by the Ministry of Home Affairs with five Islanders to advise the Administrator.

#### Third Five-Year Plan

A provision of Rs. 97·96 lakhs was made for development schemes in Laccadive, Minicoy and Amindivi Islands during the Third Five Year Plan period. The broad outlines of the schemes and the amounts allocated are given below :—

1. Agriculture : Rs. 2·45 lakhs.

*Main Schemes :* Coconut development, subsidised sale of vegetable seeds, green manure seeds, agricultural implements and free supply of insecticides. Growing of casuarina plants and intercultivation of paddy and ragi wherever possible.

2. Animal Husbandry : Rs. 2·5 lakhs.

*Main Schemes :* Organisation of a model poultry farm and establishment of a veterinary dispensary.

3. Fisheries Development : Rs. 18 lakhs.

*Main Schemes :* Construction of 20 mechanised fishing boats and 'Mas' fishing boats for distribution to Islanders through Fishermen Co-operative Societies at subsidised rates, training of Islanders in modern methods of fishing and sale of modern requisites and gear at subsidised rates and establishment of a workshop at Kavarathy.

A marketing officer will also be appointed for marketing of fish catches from the islands.

4. Co-operation : Rs. 8 lakhs.

*Main-Schemes :* Formation of nine co-operative supply and marketing societies one in each inhabited island with an apex society with Government aid and participation, and training of Islanders in co-operation.

5. Industries : Rs. 7·22 lakhs.

*Main Schemes :* Continuance of Coir Training-cum-production Centres in each island, gur and vinegar making, oil pressing by Wardha Ghanies, handloom weaving, soap making and mat weaving and working to achieve better results.

*New Schemes :* Training of Islanders in blacksmithy and carpentry and introduction of metric system.

6. Transport & Communications : Rs. 17·50 lakhs.

*Main Schemes :* Purchase of a Cargo-cum-Passenger vessel for Laccadive mainland steamer service and purchase of a bigger motor launch than the one which the Administration has now for inter-island service.

7. Health : Rs. 10·36 lakhs.

*Main Schemes :* Implementation of recommendations of the leprosy specialist for eradication of leprosy, propaganda for family planning, sinking of wells with R.C.C. rings and latrines with W.S.S. Slabs, opening of a leprosy colony at Kadamat and conversion of existing dispensaries and maternity centres into Primary health centres.

8. Rural Housing Scheme : Rs. 2 lakhs.

(Low income housing scheme through grant of long-term loans).

The Union Govt. had sanctioned Rs. 12·5 lakhs for construction of houses, during 1962-63.

9. Welfare of backward classes : Rs. 5 lakhs.

*Scheme :* Grant of 75 per cent as subsidy and 25 per cent by way of loan for construction of houses.

10. Publicity : Rs. 0·72 lakh.

*Main Scheme:* Establishment of two field publicity units and promotion of drama and cultural activities.

11. L. D. Schemes : Rs. 0·12 lakh.

*Main Schemes:* Construction of footpaths, cleaning of dirty tanks, lagoons, etc. Half the expenditure will be met by Government and half by the islanders by way of labour etc.

12. Education : Rs. 18·83 lakhs.

*Main Schemes :* Primary Education : Conversion of all Schools into basic pattern. Upgrading of one primary school in each island into U.P. School. Opening of three more girls' primary schools. Upgrading of existing four primary girls' schools into U.P. Schools. Opening of a single teacher school at Bitra.

Secondary Education : Opening of a new high school at Kalpeni with hostel facilities as at Ameni, continuation of existing high school at Ameni with hostel facilities.

University Education : Grant of scholarships and stipends for academic and professional courses.

13. Electricity : Rs. 5·26 lakhs.

*Main Schemes :* Electrifying Minicoy, Kavarathy, Ameni and Androth Islands.

An expenditure of Rs. 47·6 lakhs is estimated to have been made during the first three years of the Third Five Year Plan out of the total outlay of Rs. 99·08 lakhs.

# MADHYA PRADESH

**Area : 171,217 square miles.**

Population (1961) : 32·37 million. Percentage of increase 1951-61 : 24·17; density 189; sex ratio 953 females for every 1,000 males; literacy 17·1 per cent. For district population see under "Population".

Main languages spoken in the State are : Hindi, Urdu, Marathi, Rajasthani, Gujarati, Sindhi.

### ADMINISTRATIVE SET-UP

For administrative purposes, the State has been split up into seven divisions with a Commissioner at the head of each. The headquarters of each of these are located at Bhopal, Bilaspur, Gwalior, Indore, Jabalpur, Raipur and Rewa. The following are the names in italics of the headquarters of the divisions with the area in sq. miles of each division and names of districts (headquarters in brackets) under their charge :—

1) *Bhopal* (22,233) : Raisen (Raisen) ; Hoshangabad (Hoshangabad) ; Betul (Betul) ; Rajgarh (Rajgarh) ; Shajapur (Shajapur).

2) *Bilaspur* (21,305) : Bilaspur (Bilaspur) ; Raigarh (Raigarh) ; Surguja (Ambikapur).

3) *Gwalior* (17,253) : Gwalior (Gwalior) ; Bhind (Bhind) ; Morena (Morena) ; Shivpuri (Shivpuri) ; Guna (Guna) ; Datia (Datia).

4) *Indore* (27,341) : Indore (Indore) ; Ratlam (Ratlam) ; Ujjain (Ujjain) ; Mandsaur (Mandsaur) ; Dewas (Dewas) ; Dhar (Dhar) ; Jhabua (Jhabua) ; West Nimar (Khargone) ; East Nimar (Khandwa).

5) *Jabalpur* (29,326) ; Jabalpur (Jabalpur) ; Balaghat (Balaghat) ; Chhindwara (Chhindwara) ; Seoni (Seoni) ; Sagar (Sagar) ; Mandla (Mandla) ; Damoh (Damoh) ; Narsimhapur (Narsimhapur).

6) *Raipur* (30,914): Raipur (Raipur); Bastar (Jagdalpur); Durg (Durg).

7) *Rewa* (22,845): Rewa (Rewa); Sidhi (Sidhi); Satna (Satna); Panna (Panna); Chhatarpur (Chhatarpur); Tikamgarh (Tikamgarh); Shahdol (Shahdol).

## PANCHAYATS

The Madhya Pradesh Panchayat Act 1962 (No. 7) as amended by M.P. Panchayat Act 1962 (No. 18) came into force in sections as recommended by State Rural Self-Government Committee on to basis of the further recommendations of Select Committee of M. P. Legislative Assembly.

The three-tier system is being enforced viz. Gram Panchayats at village level, Janpada Panchayats at Block level and Zilla Panchayats at district level. The State has been divided into 12,809 Gram Sabhas comprising 1,91,448 wards. All the preliminaries have been completed and 12,809 Gram Panchayats have started functioning.

Time table for election to Janpada Panchayats is under the active consideration of the Government (July 1965). After the formation of Janpada Panchayats, District Panchayats will be formed. There will be 390 Janpada Panchayats and 43 District Panchayats. In the districts of Bastar and Jashpur tehsil of Raigarh district, 1,251 Adim Jatiya Panchayats and 57 Pargana Panchayats of old pattern are still in existence. Steps are going to be taken shortly to reorganise them in accordance with the M. P. Panchayats Act 1962.

### Department of Judiciary

As a major step towards separation of the Judiciary from the Executive in the remaining districts of Mahakoshal area, the State Government have introduced from Aug. 15, 1961, three new civil districts of Sagar, Bilaspur and Seoni. Thereafter the Judiciary has been separated from the Executive in the revenue districts of Raipur, Bilaspur, Mandla, Nimar (Khandwa), Hoshangabad, Narsimhapur, Seoni, Balaghat, Sagar, Damoh, Betul and Chhindwara. Now only 5 revenue districts in the Mahakoshal region of the State remain uncovered by the scheme and it is hoped that the process will be completed in the near future (July 1965).

## FOREST

About 2/5th of the State's Lands are classed as forest, out of which 66,000 sq. miles which is nearly ¼th of the total forest area of Indian Union, are in charge of the State Forest Department for management. Forest area per thousand persons works out to 1,660 acres compared to 150 in Uttar Pradesh, 170 in Madras and 370 in Bombay. These forests contain a variety of tree species varying in value. Roughly the State contains about 14,000 sq. miles of teak forest, another 16,000 sq. miles of 'Sal' forest and the remaining 36,000 sq. miles of mixed forest, the large area of which may grow teak. Other important species are Bija, Saj, Tinsa, Salai, Semal and Haldu. Though all forests are not tree clad, they are potentially productive. An amount of Rs. 191·57 lakhs was spent on forest development schemes during Second Five-Year Plan and Third Plan schemes involve an expenditure of Rs. 6·20 crores. An amount of Rs. 12·50 crores is expected to be spent on development schemes during the Fourth Plan period excluding Centrally sponsored schemes for which amount of Central subsidy has not yet been finalised. As a result of various improvements made during Second Plan period, the state forests yielded a revenue of Rs. 13·34 crores during the year 1964-65 as compared to Rs. 6·14 crores in the year 1956-57.

## MINERALS

Madhya Pradesh is a minerally rich State abundant in resources of coal, manganese, limestone, iron-ore, bauxite, clays, ochres, corundum, sillimanite, silica-sand, dolomite, steatite (Tale), red oxide of iron ore, mica, graphite, felspar, diamond and lepidolite. Nearly 22 various minerals at present are being exploited from 600 mines. The estimated value of the output of these mines was round about Rs. 19·96 crores in 1962.

Thirty per cent of the country's reserve on high grade iron-ore occurs in Durg, Jabalpur, Bastar and Gwalior districts. In Durg district the deposit is confined to the Dalli-Rajhara range of hills with an estimated resources of 114 million tons and is linked to Bhilai by a branch line for supplying the Steel Plant there. Iron-ore occurs in Bailadila range of Bastar district. Of the important deposits in this range, five are located on the west and nine on the east of the Bailadila range. The deposit is being prospected by Indian Bureau of Mines. The reserves of Bailadila range are estimated to be of the order of 3,600 million tons. At Rowghat there are 6 deposits with an estimated reserve of 740 million tons. Besides this, many million tons of iron-ore is reported to occur in Jabalpur and Gwalior districts (May 1964).

The State possesses 25 per cent of the total coal reserves of Indian Union. The estimated reserves for coal being 5,746 million tons.

Vast reserves of coal in the north-eastern part of the Singrauli coalfield have been found. The coalfield extends over an area of more than 800 sq. miles, lying mostly within Sidhi district of Madhya Pradesh. The total coal reserves proved in an area of about 57 sq. K.M. (22 miles) is over 2,300 million tonnes, whereas the reserve indicated in the field is many times more. These proving operations were necessitated by the proposed installation of a 400 MW thermal power station at Obra, in Mirzapur district.

Out of the proved reserves, about 900 million tonnes are available within quarriable depths. Almost the entire coal reserve is provided by three thick coal seams in the area.

Practically all the coal of the State is non-coking. Coal from Umaria Collieries has white ash and is very suitable for lime burning.

*Manganese :* Out of total estimated reserves of 55 million tons of manganese-ore in the State, 40 million tons occur in Balaghat district and 15 million tons in Chhindwara district. Besides this, occurrence of manganese ore in small quantities, is seen in Jabalpur and Jhabua districts. The rich deposit of manganese ore occurs in Balaghat and Chhindwara districts of the State.

*Bauxite :* The State possesses the largest reserves of bauxite in the country. The important bauxite bearing regions are in Balaghat, Mandla, Jabalpur, Surguja, Bilaspur, Bastar and Raigarh districts. The estimated reserves of high grade bauxite being 110 million tons.

*Limestone :* Steel and cement plants are the chief consumers of limestone. It is also used for lime-burning and road ballast (inferior grade). The State possesses vast reserves of limestone in Jabalpur, Satna, Morena, Raipur, Durg, Bilaspur, Bastar, Mandsaur, Dhar, Hoshangabad, Damoh, Panna, Raisen and Sehore districts.

*Dolomite :* Important occurrences of dolomite are found in Bilaspur district. Bhilai Steel Project have their mines at Hirri and dolomite from this mine is supplied to Bhilai and Rourkela Steel Projects.

*Fire-clay & China-clay :* Clays occur primarily in Jabalpur, Chhindwara, Durg, Bilaspur, Gwalior, Mandsaur, Satna, Shahdol, Narsinghpur, Sidhi, Bastar and Surguja districts.

*Talc and Soap-stone :* It occurs in marble rocks of Jabalpur district and also in Durg and Jhabua districts. It is utilised in making alkali bricks and also in pencil rubber, roofing and ceramic industries.

*Corundum :* Owing to its hardness, mineral corundum finds extensive use as a grinding and abrasive material. Corundum is found in Sidhi district.

*Asbestos :* Asbestos occurs in Jobat of Jhabua district. This tremolite asbestos is brittled and short-fibred.

*Diamond:* Diamond is found in Panna. The deposit is of two types (*i*) conglomerate and gravel and (*ii*) Pipe deposit. National Mineral Development Corporation is undertaking systematic mining of these deposits.

*Marble :* A quality grade marble deposit with estimated reserves of 17,00,000 tons occur at Sukma in Bastar district. Marble is also found at Gohra pahad in Morena and at Bhedaghat in Jabalpur district.

*Ochres :* Good quality red and yellow ochres occur in Jabalpur, Gwalior and Satna districts. Some minor deposits are also found in Panna and Raisen districts.

*Shale :* A deposit of white shale suitable for making slate pencils occurs in Mandsaur district. The deposit is being exploited for making slate pencils.

*Silica sand :* Silica-sand suitable for making glass occurs in Morena, Vidisha, Rewa and Jabalpur districts. The deposit in Morena and Jabalpur districts is being exploited at present (May 1964).

## TRANSPORT (End Dec. 1962)

2,766 private owned buses daily cover 2,67,984 miles on 1,962 routes and the Madhya Pradesh State Road Transport Corporation (Nationalised) with 708 buses operating on 427 routes cover 74,757 miles.

The Madhya Pradesh Government has prepared a scheme for nationalisation of road transport in three phases at a cost of Rs. 13·45 crores (June 8, 1965).

## LARGE-SCALE INDUSTRY

Main medium & large-scale industries of the State with location in brackets :—

Cotton Textiles (Indore 7, Gwalior 2, Ujjain 3, Mandsaur 1, Dewas 1, Ratlam 1, Bhopal 1, Burhanpur 1, Rajanandgaon 1, Jabalpur 1, Sanawad 1); News Print Paper Mill (Nepanagar); Cement (Banmore, Kymore, Satna); Sugar (Jaora, Dalauda, Mehidpur, Dabra, Sehore); Potteries (Gwalior, Ratlam, Jabalpur; Refractories (Jabalpur, Katnim, Niwar); Iron and Steel (Bhilai); Heavy Electrical equipment (Bhopal); Jute Mill (Raigarh); Art Silk Fabrics (Indore, Gwalior, Nagda); Staple Fibre yarn (Nagda); Viscose Staple Fibre (Nagda); Sulphuric Acid (Nagda, Kumhari); Superphosphate (Mukhari); Carbon-bi-Sulphide and Anhydrous Sodium Sulphate (Nagda); Glue (Bhopal); Asbestos Cement sheet (Katni) Roller Flour Mill (Ujjain, Indore, Bhopal, Ganj Basoda, Raipur); Biscuits (Indore, Gwalior); Textile Machinery (Gwalior); Welding Electrodes (Raipur); Power Driven Pumps (Dewal); Steel Casting (Indore); Re-rolling Mill (Kumhari; Raipur, Indore, Ujjain, Bagrod); vegetable Oil (Dewas, Khandwa, Ujjain, Ganj Basoda); Vanaspati (Indore); Alcohol (Ratlam); Valves (Bhopal); Densified Wood (Bhopal). Cables (Satna); Police Boots (Morar); Straw Board (Bhopal, Ratlam); Glass (Jabalpur); Starch (Mandsaur).

The cotton textile industry in the State has 12,539 looms and 5,28,080 spindles in 20 mills (17 composite, 3 spinning). There are 409 ginning and pressing factories in the State. An air conditioned composite Textile mill with 17,600 spindles and 380 looms is nearing completion at Ujjain. This unit will be one of the best in the country. Two model textile mills with 25,000 spindles and 500 automatic looms each are fast coming up at Dewas and Khandwa. The State-owned cotton spinning mill at Sanawad has recently commenced production. A licence has also been granted to expand its spindleage capacity to 25,000 spindles. A licence has also been given for a cooperative cotton spinning mill for 12,000 spindles. The unit is to be located at Burhanpur. Besides these 7 cotton spinning mills have also been sanctioned for Bhind, Rajnandgaon, Indore, Jabalpur, Shujalpur, Bilaspur, Datia. The total spindleage comes to 85,000. The existing cotton textile mills have also been permitted to expand their capacity to 8,51,060 spindles and 14,303 looms.

One of the biggest cement factories in the country is situated at Kymore near Katni. Other cement factories are at Banmore and Satna. The sanctioned capacity of all the three existing factories is 5·42 lakh tons. Cement factories at Damoh, Raipur, Neemuch, for which licence has been sanctioned with a total capacity of 7·30 lakh tons, are being set up.

The Country's only newsprint paper mill is situated at Nepanagar with a rated capacity of 30,000 tons per annum. A licence has been given to expand its capacity upto 75,000 tons of newsprint per year.

A new paper plant of 48,000 tons per annum capacity was to commence production in Shahdol District in 1964.

The Public Sector Steel Plant at Bhilai has also been licensed to expand the capacity upto 2·5 million tons per annum.

The State owned projects, spinning mill at Sanawad, solvement extraction plant at Ujjain, alcohol plant at Ratlam have commenced production.

A cable factory established at Satna with an investment of Rs. 175 lakhs also commenced production. The capacity of this unit is 624 miles of cables per annum.

An engine valves factory established at Bhopal with an investment of Rs. 25 lakhs has also commenced production in November, 1963.

A densified wood factory established at Bhopal in collaboration with Messrs. Permali has commenced production.

Two Steel castings factories with 3,000 tons capacity each have also commenced production at Indore and Kumhari (Durg).

A Gelatine factory having a production capacity of 1,200 tons per annum of Gelatine is ready to go into production at Jabalpur.

A mopeds (Scooters) unit has been established at Gwalior with German collaboration and is almost complete. The unit will produce 7,500 Nos. of mopeds per year.

The other important industries for which licences have been given under the Industries (Development and Regulation) Act for this State are :—

Cryolite Flourite (Raipur); Capacitors (Satna); Explosive (Durg); Staple Fibre manufacturing Plant (Nagda); Cast Iron Spun Pipes (Gwalior, Ujjain); Steel Casting (Gwalior); Commercial Plywood (Bastar); Steel Wires (Indore, Bhilai); Steel Forging (Bhopal); A.C.S.R. Conductors (Gwalior); Electric Motors (Indore); Welding electrodes (Indore); Transmission Towers (Indore); Skim Milk Powder (Indore); Oxygen Gas (Indore, Bhopal); Pump and Paper (Amlai, Schore, Bhopal, Rajgarh); Caustic Soda (Amlai).

## COTTAGE INDUSTRIES

The State is also famous for traditional village and home crafts. The Handloom Industry has earned a good reputation for its Chanderi and Maheshwari Saris, Kosa Silk and other traditional fabrics. The well-known Handicrafts are printing (Chunari, Handa), leather toys, papier mache, lacquerware articles, rag dolls, Sari, supari works, soft stone work, Bhopal zari purses, cow dung toys of Shoepur, stone carving at Gwalior, bell metal articles of Jagdalpur, leather crafts, screw pine articles, palm leaf articles, glass bead, lac ornaments and others.

Main Cottage Industries in the State with location in brackets:—Handloom (1,00,000 looms) spread all over the State but best developed at (Chanderi, Maheshwar, Burhanpur, Jabalpur, Raipur and Sausar); Kosa Tussar silk (Raisarh, Champa, Bilaspur, Surguja); Mulberry (Indore, Jhabua, Depalpur, Dhar); Fine sarees (Chanderi Maheshwar, Burhanpur); Wood work and lacquerware (Sheopur, Sabalgarh, Budhni, Rewa, Gwalior); Wooden toys (Rewa, Bhopal, Gwalior, Ratlam); Soft-stone (Jabalpur, Chhatarpur); Lac (Seoni, Raipur, Bilaspur, Umaria and Rewa); Saw Milling (Betul, Bhopal, Balaghat, Bilaspur, Raipur, Indore, Jabalpur, Sagar and Mandla); Brassware (Balaghat, Chhindwara, Indore, Gwalior, Raipur and Chhatarpur); Textile handprinting (Ujjain, Mandsaur, Morena, Indore, Hoshangabad); Diamond cutting and polishing (Panna); Papier Maché (Gwalior, Ujjain, Indore); Zari embroidery (Bhopal); Art metalware (Bastar, Betul, Hoshangabad, Satna, Mandla).

## CEILING ON AGRICULTURAL HOLDINGS

With a view to providing for the imposition of ceiling on agricultural holdings, acquisition and disposal of surplus land, Madhya Pradesh Ceiling on Agricultural Holdings Act, 1960, has been enacted which has been brought into force with effect from 15-11-1961. The salient provisions of the Act are :—

(1) The provisions of the law will come into force after a period of two years from 15-11-1961.

(2) A person shall hold not more than 25 standard acres of land for himself and his wife. Such holder shall also be entitled to hold land in excess of 25 acres to the extent of 5 standard acres per each dependant not exceeding 50 standard acres in the aggregate.

'Standard acre' will mean 1 acre of perennially irrigated land or two acres of seasonally irrigated land, or three acres of dry land.

(3) *Exemptions :* Land held by a local authority or a University, a public trust for educational or charitable purpose; land held by industrial or commercial undertakings; land held for tea or coffee plantations; land used as sugarcane farms operated by sugar factories; land to the extent of thirty acres used for orchard or mango grove; land used for specialised farms engaged in cattle breeding, dairy farming, wool raising and other similar matters of animal husbandry as may be approved by government and land utilised by an efficiently managed farm etc. shall be exempt from the operation of the law.

(4) Certain transfers made from the date the Bill was published in the Gazette with a view to defeating the provisions of the Act shall be disregarded.

(5) *Transfer of land :* Holders may transfer land during the period of two years till the provisions of Act shall not come into force to persons of specified categories. The amount of sale money shall be equal to amount that would be payable by the State Government, eventually on vesting of land in State Government. The transferee may apply to a competent authority for determining the fair price of such land and the competent authority shall determine the fair price. The competent authority shall direct the transfer or to pay back to the transferee only the excess amount received by him.

(6) *Vesting of surplus land :* All surplus land shall vest in State Government with effect from the commencement of the agricultural year next following the date on which the surplus land is declared by the competent authority.

(7) *Ceiling on future acquisition :* Where any holder acquires land otherwise than by inheritance and the total land held by him including the land so acquired exceeds, all the provisions of the Law shall be applicable to such a land.

(8) *Payment of compensation :* Provision has been made for payment of compensation on a sliding scale as prescribed in Schedule II of the Act. The minimum compensation will be payable at 15 times the land revenue per acre subject to a minimum of Rs. 20 over the land the revenue of which does not exceed Re. 1 per acre. The maximum compensation will be Rs. 225 plus 20 times the amount by which the land revenue per acre exceeds six rupees. Additional compensation will be paid for improvement if any, in the land vested in the State. The compensation payable to small land holders, *i.e.* upto Rs. 1,000, will be paid in lump sum and to bigger ones in instalments not exceeding 19 but the first instalment will be paid of Rs. 1,000 even to them and the other instalment shall not be less than Rs. 100. Interest at 3 per cent per annum will also be paid from the date of vesting the land to the date of payment.

(9) *Determination and scaling of debts :* As surplus land would be acquired compulsorily, provisions have been made in the law for the determination and scaling down of the debts where higher rates of interest were charged.

(10) *Disposal of surplus land :* Surplus land vested in the State Government shall be allotted on payment of a premium equivalent to the compensation payable in respect of such land to persons in the following order of priority :

(*i*) joint farming society, the members of which are agricultural labourers, or landless persons whose main occupation is cultivation or manual labour on land, or a combination of such persons; (*ii*) better farming society, the members of which are agricultural labourers, landless persons whose main occupation is cultivation or manual labour on land or a combination of such persons; (*iii*) agricultural labourers; (*iv*) landless persons whose main occupation is cultivation or manual labour on land; (*v*) displaced tenants subject to the provisions of section 202 of the M.P. Land Revenue Code, 1959 (20 of 1959); (*vi*) holders holding contiguous land; (*vii*) joint farming society of agriculturists; (*viii*) better farming society of agriculturists; (*ix*) any other co-operative farming society subject to the condition that land (including the land as owner or tenant individually by members) shall not exceed the area equal to the number of members multiplied by the ceiling area; (*x*) an agriculturist holding land less than the ceiling area.

(11) *Temporary lease of land :* Where the land vesting in the State Government cannot be allotted immediately, the Collector may lease the land for cultivation to any agriculturist who had land under personal cultivation less than the ceiling area subject to certain conditions.

## ELECTRICITY

The total provision for power projects in Madhya Pradesh during the Third Five-Year Plan is Rs. 76·00 crores. Out of this Rs. 23·09 crores are required for the continuing works of the Second Plan (including Chambal Project) and Rs. 52·91 crores for the new schemes. Names of the projects under continuing schemes and new schemes with Third Plan provisions in Rs. lakhs are as follows :

**Continuing Schemes :** Chambal Hydel Scheme (stage 1 and 2) 782; Tawa Hydro-electric Project 50; Korba Thermal Station (stage I) 60; Chandni Thermal Station Extension 62; Power supply to Central India Coal Fields

@ Based on crop cutting surveys and by random sampling methods.

175 ; Amarkantak Thermal Station Scheme 955 ; Indore-Chandni Inter-connection Scheme 123 ; Rural electrification 102.

**New Schemes :** 5th Generating Unit at Gandhisagar 20·00 ; Kotah Dam Project 100·00 ; Korba Thermal Station—Stage II 1900·00 ; Satpura Thermal Station 1400·00 Transmission System 950 ; Sub-transmission & Rural Electrification etc. 736·00 ; Survey & Investigation 90·00 ; Micro Hydels 10·00 ; Loan to licensees & acquisition 30·00 ; Purchase of testing equipment 5·00 ; Punasa Hydro-Electric Projects 50·00. (Total : 7,600·00 lakhs.)

A brief description of the major schemes to be taken up new or continuing during the Third Plan is as follows :—

**Tawa Hydro-Electric Project (Power Part)**

The scheme provides for two Hydel Power Stations of capacity 3 × 10,000 kW and 2 × 6,000 kW capable of generating 20,000 kW of firm power at 60 per cent load factor, and 70 miles of 132 kW transmission line from Tawa to Bhopal and allied step-down sub-stations. The construction of transmission line is expected to be completed in the Third Plan, but the construction of Hydel power station will be taken up in the Fifth Plan to match with the completion of the dam.

**Korba Thermal Station**

During the Second Plan period 3 × 30,000 kW sets were installed. One more boiler and one 10,000 kW set with boilers has been added in July, 1963.

In the Third Plan, 200 MW extension is in hand. The station is being erected under Russian aid. Four turbo generator sets each of 50 MW capacity will be installed. The Power Station site is close to the existing station and will use the system of direct circulation for its cooling system. For this purpose, water from Darri Weir on Hasdeo River will be diverted to the Power House. The station was expected to commence generation in Sept., 1965.

**Amarkantak (Birsinghpur) Thermal Station**

Two sets of 30 MW each for the Thermal Power Station at Amlai near Burhar and associated transmission line etc. are provided for under this scheme. The station has been commissioned in Jan. 1965 and catering to the load demands of industries of Sarguja, Satna, Rewa, Jabalpur, Katni besides rural areas. The station has been interconnected with Korba power house.

**Satpura Thermal Station**

This Thermal Station is being constructed in the Pathakheda Coal area of Betul district. The site is 12 miles from Ghoda Dongri Railway Station on Itarsi-Nagpur section of Central Railway. A suitable all-weather road has already been constructed. The major loads to be fed from this station are the collieries in the Pench Valley Area, Heavy Electricals Ltd., Bhopal, Nepa Mills and other industries. It provides for 3 × 60,000 kW Thermal Power Station complete with 220 kV step-up sub-station. An amount of Rs. 14·00 crores has been provided in the 3rd Plan. It has now been decided to install on behalf of Rajasthan 2 × 60,000 kW sets for power supply to Rajasthan from the Chambal-Satpura-Grid. The project is included for aid under D.L.F. of U.S. The total cost of project with 5 × 60,000 kW will be Rs. 3,600 lakhs. The station will commence generation from Sept. 1966.

**Gandhisagar (Stage I)**

Under Stage I, three generating sets of 23,000 kW each have already been installed at Gandhisagar power station and the installation of fourth set of 23,000 kW has been added in Aug., 1963. A sum of Rs. 20·00 lakhs has been provided for installing the 5th 23,000 kW generating unit at this Power House which will be completed by the end of the Third Plan.

**Ranapratap Sagar Dam Project (Stage II)**

In Ranapratap Sagar Power House four sets of 43,000 kW will be installed at a cost of Rs. 1,424 lakhs. The scheme is being executed by Rajasthan State but Madhya Pradesh and Rajasthan are equal partners in costs and benefits. The scheme will be completed in the Fourth Plan. A provision of Rs. 270 lakhs has been made in the Third Plan.

**Kotah Hydel Project (Stage III)**

The scheme provides for the installation of 3 units each of 33,000 kW and associated transmission system. The work on the power station would be executed by Rajasthan State. A sum of Rs. 100·00 lakhs is available for the Project during the Third Five-Year Plan. Madhya Pradesh is an equal partner in the cost and benefits of the scheme.

**Chandni-Indore Interconnection**

In order to meet the additional power requirement of Nepa Mills 132 kV line has been constructed from Indore to Nepanagar interconnecting Chambal system with Chandni power house. This arrangement has enabled Chandni Power house to generate power upto its full installed capacity.

**Power Supply to Central India Coal Fields**

This scheme envisages laying of 132 kV transmission lines from Korba Thermal Station to Cental India Coal Fields of Chirimiri, Bisrampur and Jhilimili for supplying power to enable them to increase coal production. The scheme provides for the laying of 120 miles of 132 kV transmission lines. The scheme has been completed.

**Transmission System**

During the Third Plan, 1,240 kM of 220 KV, 1,540 KM of 132 KV and 48·4 kM of 66 kV lines will be constructed to form an integrated "Grid" covering a large part of the State and load centres. An amount of Rs. 1,510·46 lakhs has been provided. These lines include interstate 132 kV lines to interconnect Madhya Pradesh system with those of Maharashtra, U.P. and Orissa. Interconnection with Rajasthan already exists.

**Rural Electrification & Sub-Transmission Lines**

During the Third Plan most of the villages having a population of 2,000 and above will be electrified except those which are far away from the existing and proposed lines. Villages *en route* which have smaller population but are otherwise economically justifiable for electrification will also be electrified. During the Third Plan, the number of electrified places will rise from 538 to 1,153.

It is also proposed to supply power to 2,000 pumps for lift irrigation.

The amount available in the Third Plan is :— Sub-transmission & Rural Electrification Rs. 600 lakhs ; Sub-transmission & Rural Electrification continuing schemes Rs. 102 lakhs ; Lift Irrigation Scheme Rs. 50 lakhs; Normal Development Rs. 86 lakhs ; Total Rs. 838 lakhs.

**Micro Hydel Projects**

There are many small waterfalls in the State which can be considered for power generation. The scheme provides for putting up small hydel sets at suitable sites. An amount of Rs. 10·00 lakhs has been provided in the 3rd Plan. Two such schemes of installation of micro hydel sets at Kapildhara falls at Amarkantak and Bhedaghat on Narbada River have been approved.

**Survey and Investigation**

The State has a large potential of hydro-electric power. Detailed investigation of hydro-electric sites is necessary. An amount of Rs. 90·00 lakhs has been provided in the 3rd Plan for this work. Survey of sites at Chitrakot (116,000 kW), Bodhghat (295,000 kW), Gundra (190,500 kW) on Indravati River is in hand. There are other smaller potential sites which are also under investigation.

The progress of development of electricity in the State is as indicated below :—

| Particulars | Commencement of First Plan | End of First Plan | End of Second Plan | Targets for Third Plan |
|---|---|---|---|---|
| Installed capacity in mW .. | 39·00 | 64·50 | 206 | 743 |

| No. of towns/villages electrified | 69 | 142 | 535 | 1,153 |

**Tawa Multi-Purpose Project**

The Tawa River Multi-purpose Project is located in the Hoshangabad district. The project envisages construction of a composite dam 5,433 ft. long across the Tawa river, a tributary of Narmada River. Out of a length of 5,433 ft., 15·5 ft. will be of masonry and the rest earth dam. Besides, there are two saddles on left, 771 ft. and 781 ft. long respectively with earth dams. The dam will have two canal systems on the right and left bank of Tawa river stretching 48 miles and 90 miles respectively. The estimated cost of the project is Rs. 48·05 crores. The project after completion is designed to irrigate 7·65 lakh (6 lakhs acres on the left and 1·65 lakh acres on the right side) acres of land and generate 20,000 kW of power at 60 per cent load factor.

## CO-OPERATION

*(See under article on Co-operation.)*

## EDUCATION

The figures relate to 1963 :

Total No. of Degree Colleges : 123 (Govt. colleges 67, Private 56).

Total No. of Teacher Training Colleges : 120 (108 B.T. Institution, 11 P.G.B.T. Colleges, 1 non-P.G.B.T. College).

Total No. of Professional Colleges : 23.

(Medical 6, Engineering 6, Agriculture 6, Veterinary 2, Ayurvedic 3).

Polytechnics : 19 (14 Govt., 5 non-Govt.).

Number of Universities : 4.

Names of the Universities with location in brackets :—

University of Sagar (Sagar); Jabalpur University (Jabalpur); Vikram University (Ujjain); Indira Kala Sangeet Vishwavidyalaya (Khairagarh).

The Jawaharlal Nehru Krishi Vishwa Vidyalaya, a new university of education and training in agriculture and allied sciences, was inaugurated at Jabalpur on 2nd October 1964.

The university, the sixth of its kind in the country, aims at getting farmers to accept and implement the findings of research and improved agricultural practices.

The university will start with 2,500 students and 500 teachers and instructors.

## PUBLIC HEALTH

**Figures for 1964-65 :**

**Common diseases in the State:** Malaria, Filaria and Tuberculosis, Veneral diseases, Dysenteries, Diarrhoea, Gastro-enteritis and Leprosy.

Total No. of Patients treated in the State: 2,53,407 (Indoor); 99,02,302 (Outdoor).

## LABOUR

**Position as on 31st Dec. 1963 :**

Number of registered factories (excluding 15 defence factories) : 2,487.

Number of workers employed in registered factories: 1,61,020.

Important industries with the number of units (employing more than 100 workers), and workers employed respectively in each industry within brackets:

Textile (including cotton, silk, art silk, staple fibre, jute, carpet) 23 (46,818) ; Iron and steel 2 (2,808) ; Electric machinery apparatus, appliances and supplies 4 (9,003) ; sugar 5 (3,372) ; Rice mills 3 (764) ; oil mills 1 (158) ; Cement 2 (2,621) ; Electricity, gas and steam 10 (2,989) ; Potteries 4 (2,954) ; Printing presses 4 (1,058) ; Paper and straw boards 3 (1,694) ; Asbestos products 2 (1,583) ; Lime stone 4 (1,125) ; Motor transport 4 (1,060) ; Machinery except electrical machinery 10 (6,157) ; starch 1 (250) ; Manufacture of bakery products 1 (750).

On March 31, 1964, the number of registered trade unions was 380 (excluding cancelled unions) out of which 231 unions had submitted their returns for 1963-64. After scrutiny 135 returns had been accepted by the Registrar of Trade Unions, membership of which came to 81,566.

Total number of employments covered under the Minimum Wages Act : 15 (1964).

Approximate number of workers employed in the above employments : 3,31,586 (1964).

Important categories of employments under the Minimum Wages Act and the approximate number of workers employed in each category :

Rice, flour and dal mill 13,330 ; Tobacco (including Bidi making) manufacturing 2,29,471 ; oil mill 4,072 ; Local authority 28,289 ; Construction or maintenance of roads or in building operation 42,084 ; Stone breaking or in stone crushing 3,084 ; Public motor transport 7,431 ; Lac manufacturing 371 ; Tanneries and leather manufacturing 158 ; Potteries 2,212 ; Cotton, ginning and pressing 138 ; Printing Press 946.

The Madhya Pradesh Shops & Establishments Act, 1958 was in force in 45 towns in the State on December, 31, 1964.

On Dec., 31, 1964 there were 1,13,746 registered establishments out of which 31,811 were found closed and 81,935 live establishments left at the end of 1964. 72,441 employees were employed in the 81,935 registered establishments.

Provident Fund Scheme (March 31, 1964)—

Number of factories covered by the Employees' Provident Fund Scheme (March 31, 1964)—704. Number of factories exempted—35. Number of factories partially exempted 8, total number of workers contributing under the Scheme—1,41,426.

Number of family units (one family unit assumed to be comprised of three adults and one minor) covered by the Employees' State Insurance Scheme (December 31, 1964)—1.28,942. The Scheme was in operation in Banmore, Bhopal, Burhanpur, Dewas, Gwalior, Indore, Jabalpur, Mandsaur, Nagda, Raigarh, Raipur, Rajnandgaon, Ratlam, Satna, and Ujjain.

The following new Acts and rules were passed during the calendar year 1964.

1. Maternity Benefit Act, 1961.
2. Payment of Wages (M.P. Amendment) Act.

### SECOND FIVE-YEAR PLAN

The Second Five-Year Plan of the State involved a financial outlay of Rs. 190·90 crores but only Rs. 148·92 crores could be spent by the end of the Plan. The First Five-Year Plan of the four units envisaged a total outlay of only Rs. 67·32 crores out of which Rs. 58·85 crores are estimated to have been spent during the period.

### THIRD FIVE-YEAR PLAN

An outlay of Rs. 300·00 crores has been fixed for the Third Plan of Madhya Pradesh. The distribution of the outlay among different sectors is given below :—(Rs. in crores).

(*i*) Agriculture and community development 76·45; (*ii*) Irrigation and power 117·80; (*iii*) Industry and mining 10·50; (*iv*) Transport and communications 17·80; (*v*) Education 31·98; (*vi*) Health including drinking water supply 21·30; (*vii*) Housing 5·50; (*viii*) Labour and Labour welfare 1·20; (*ix*) Welfare of backward classes 8·00; (*x*) Social welfare 0·70; (*xi*) Miscellaneous including State Capital Project 8·77; Grand Total 300·00.

The per capita development expenditure in the Third Plan, on the basis of 1961 census, will be Rs. 92·5 as against Rs. 63·9 in the Second Plan. In the total Plan outlay of Rs. 300·00 crores, Rs. 219·74 crores constitute investment and Rs. 80·26 crores as current expenditure which would mean that 73 per cent will be fresh investment in the State's economy and 27 per cent will be current expenditure. The foreign exchange content of the Plan is Rs. 35·70 crores. Expenditure on buildings is estimated at Rs. 39·42 crores, on equipment and machinery Rs. 75·21 crores and on all other works including staff Rs. 185·31 crores. Out of the total outlay of Rs. 300 crores, Rs. 78·80 crores would be needed for the spill-over works of the First and Second Plans and the balance of Rs. 221·20 crores would be utilised for new schemes. Besides the outlay of Rs. 300·00 crores, an amount of Rs. 16·12 crores will be made available as Central assistance outside the Plan for the implementation of certain schemes included in the Plan.

In addition to the outlay of Rs. 300·00 crores, the following provision has been made in the National Plan for schemes to be undertaken in the State :— (Rs. in crores).

(*i*) Expansion of Bhilai Steel Works to increase its production capacity from 7·70 lakh to 25 lakh tons. 138·00; (*ii*) Basic Refractories Project, Bhilai 3·00; (*iii*) Completion and expansion of the Heavy Electricals Project at Bhopal 35·00; (*iv*) Doubling the production capacity of Nepa Mills, Nepanagar 4·00; (*v*) Establishment of a security paper mill at Hoshangabad 5·50; (*vi*) Production of iron-ore from Bailadilla iron-ore deposits 17·00; (*vii*) Production of diamonds from Panna diamond mines 1·50; Total 204·00.

The total investment in Madhya Pradesh under public sector during the Third Five-Year Plan will thus be of the order of Rs. 204 crores. In addition, the National Coal Development Corporation will make additional investment for increasing the production of coal from the coal-fields in Madhya Pradesh. Another scheme of importance that is being implemented by the Central Govt. partly in Madhya Pradesh and partly in Orissa is Dandakaranya Project. The development of Dandakaranya has been taken up with the twin objective of settling families of the displaced persons from East Pakistan and promoting the welfare of local population, particularly the tribals. During the Third Five-Year Plan, this programme envisages reclamation and development of land, irrigation and construction of roads. Loans and grants will also be given to the settlers and adequate provision will be made for amenities.

The Government of India have also included the 230 miles Bailadilla to Kotwalasa and 134 miles Guna-Makshi railway lines in this State under the programme for the construction of new rail lines in the country during the Third Plan period.

Bauridand-Karonji link (about 54 miles long) is already under construction during the Third Plan.

Out of the total outlay of Rs. 300·00 crores, Rs. 30·67 crores are earmarked for schemes to be implemented in the predominantly scheduled tribes areas. This is in addition to a provision of Rs. 8·00 crores exclusively earmarked in the State Plan and Rs. 7·01 crores for the Centrally-sponsored programme for the welfare of backward classes.

### FINANCIAL RESOURCES

Of the total outlay of Rs. 300 crores, the Central assistance will be Rs. 207·00 crores. The balance of Rs. 93·00 crores will have to be found by the State Government from its own resources.

Allocation for the fifth year of the Third Five-Year Plan is Rs. 64·65 crores; Rs. 47·50 crores from the Central Govt. and Rs. 17·15 crores from the State resources.

Out of this 74 per cent of the expenditure will be on productive projects while 26 per cent on social services.

The distribution among different projects is as follows : Power generation Rs. 16·30 crores; Agriculture Rs. 8·30 crores; Chambal Hydel Scheme Rs. 3·05 crores; Tawa Hasdo Barma and Halali irrigation projects : Rs. 3·15 crores; Medium Irrigation projects : Rs. 3·05 crores; Industrial and Mineral development Rs. 2·09 crores; Roads Rs. 2·95 crores; Education Rs. 7·57 crores; Public Health Rs. 3·20 crores; Rural and Urban water supply Rs. 1·76 crores, Housing Rs. 0·70 crore; Welfare of Backward Classes Rs. 1·65 crores; Craftsman training Rs. 0·32 lakh; Community development Rs. 3·55 crores; and Bhopal capital project Rs. 1·02 crores.

In addition to this, Rs. 1·50 crore has been agreed to for Kharkhera irrigation project over and above the State Plan ceiling.

## INDUSTRIES

Chief Industries in this State are Textiles, General and Electrical Engineering, Sugar, Cement, Tobacco including bidis and cigar manufacture, bricks and tiles, tanning, glassware, chemicals, bicycles, leather and footwear and manufacture of utensils.

**Cotton Textiles :** During the year 1964 there were 131 spinning mills and 25 composite mills and the cotton yarn produced was 35,765,562 kgs. The production of cotton cloth during the year was 33,641,775 metres.

**Sugar :** There were ten sugar factories and the production of sugar during the year 1964 was 157,744 tonnes.

The production of sugar by these factories in 1961–62 was 1,48,886 tonnes. One more sugar factory in Tiruchirapalli district went into production early in 1963. Three more co-operative sugar factories were under various stages of erection (July 1964).

**Cement :** The number of factories engaged in the manufacture of cement in the State in 1964 was five. The production in these factories during the year was 1,596,127 tonnes.

**Bicycles :** There were five factories in the State, including one opened in 1964, which produced 292,804 cycles.

**Fertilizers :** The production of fertilizers in the 6 large factories in the State in 1964 was 2,09,197 tonnes.

**Caustic Soda :** In the year 1964 there were 2 factories engaged in the production of caustic soda. The production in these factories was 45,074 tonnes.

## EMPLOYMENT IN INDUSTRIAL SECTOR

The total number of factories registered and notified under the Factories Act 1948 in commission at the end of the year 1963 was 6,572 and the average daily number of workers employed in them was 3,52,563. Industries providing employment for more than 10,000 workers were as follows : The figure in brackets relate to the factories and the figure follow the number of workers respectively are : Rice mills (1,483) 15,790 ; Cotton ginning mills (273) 13,452 ; Cotton mills (246) 106,960 ; Silk mills (195) 3,265 ; Printing presses (530) 15,319 ; Chemicals (109) 11,213 ; General engineering 441) 17,371 ; Motor Vehicles and Transport (337) 21,655 ; Railway Workshops (5) 20,148 ; Other Industries (1,231) 56,999.

**Handloom :** Number of cotton looms registered in the State, during 1963–64 was 5,06,386.

Number of weavers within the co-operative fold as on 31st Dec., 1964 was 2,32,477.

There were 1,041 weavers' co-operative societies with 2·15 lakh looms (as on 31st Dec. 1963) out of a total of 5·719 lakhs. These co-operative societies together produced cloth worth Rs. 12 crores and sales amounted to Rs. 3·5 crores in 1963.

## INDUSTRIAL DEVELOPMENT

One of the prominent aspects of the industrialisation in this State is the important role played by the public sector. It has been estimated that in the Central sector alone, an investment of the order of Rs. 170 crores has been made in this State and that on account of this investment, employment opportunities to the extent of 39,100 persons have been created so far.

### Integral Coach Factory

It has reached its full production capacity of 70 coaches per year on double shift. It has started diversifying its production pattern also. At present it is producing 11 types of coaches including specialised ones like the electrical multiple units and diesel rail cars. The Furnishing Division of the Factory is now capable of furnishing all the shells manufactured in the main factory. This undertaking proposes to produce in the coming year deluxe rakes, air-conditioned tourist cars, dining cars, motor coaches and a variety of other allied products.

### Neyveli Lignite Project

The first mine-cut of this project is designed for the production of 3·5 million tons of lignite. Lignite mining on a commercial basis was commenced in May, 1962 and upto December, 1964 a quantity of 2·699 million tons of lignite has been mined and used mainly for power generation. The work relating to stepping up the capacity of the first mine-cut from 3·5 million tons to 5·5 million tons on the first stage and to 6·5 million tons in the second stage has also been taken on hand.

An installed capacity of 250 MW of thermal power has been commissioned and the work in regard to stepping up of this capacity to 400 MW has already been taken on hand.

The Fertilizer Plant costing about Rs. 35 crores is expected to commence production on a commercial scale by March, 1966. The briquetting and carbonisation plant being set up at a cost of about Rs. 26 crores is also expected to go into full production in the near future. The Clay Working Plant has already gone into production and is supplying work clay to the ceramic units and paper mills. In view of the need to expand the capacities of the Power Station and the fertilizer plant and the requirements of the Salem Steel Plant and other industries it is proposed to open a second mine cut. This is expected to cost about Rs. 46 crores. The preliminary investigations in this regard have been completed.

**Film Factory :** The Raw Film Factory at Ootacamund involving a capital outlay of Rs. 11 crores and designed to produce photographic films, photographic papers, etc. is yet another important public sector undertaking. This project is being set up with the technical collaboration of a French concern and is expected to commence production shortly.

*The Hindustan Teleprinters Limited :* The licensed capacity of this unit is 1,300 teleprinters per year. The factory has already taken up expansion scheme, with a view to produce about 8,500 machines per year by 1971.

*High Pressure Boiler Plant :* The Tiruchi High Pressure Boiler Plant went into production on 1st May, 1965. It is designed to produce 700–850 MW of high pressure boilers and 10 to 12 package boiler units for production of process steam used in Rice Mills and other industries and has a surplus capacity of about 2,600 tonnes of high pressure boilers with a capacity of 750 MW per year, boiler fittings upto 1,800 tonnes annually and 10 package boiler units.

The two defence-oriented industries, viz. the Heavy Vehicles Factory at Avadi and the Small Arms Factory near Tiruchirapalli are also nearing completion.

*Surgical Instruments Project :* Undertaken with Soviet Collaboration and scheduled to produce 2.5 million pieces of surgical instruments annually, this project involves a capital outlay of about Rs. 5.25 crores, including the township. The township at Nandambakkam near St. Thomas Mount, given free by the Madras Government, occupies 130 acres of 207, has its own arrangements for water supply, roads and drainage. The plant is expected to provide employment to about 1,300 persons.

*Oil Refinery :* The Oil Refinery and Petro-Chemical complex and the Marine Diesel Engine Plant that are to be established near Madras will be other important milestones in industrial development.

*Continuous Casting Plant :* Lands have been secured near Arkonam. Detailed specifications for the Plant and equipment have been drawn-up ; tenders have been invited for a turn-key job and the offers received from French, British and Russian firms are under examination by the Government. The Government have constituted a High Power Committee for taking a decision regarding the choice of the agency for the turn-key job. This work is expected to be completed in a few weeks and actual work at the site is expected to commence shortly.

*Cement Plant :* Major portion of the limestone survey work has been completed and the availability of adequate deposits of limestone have been proved beyond doubt. A large number of offers have been received and a High Power Committee will examine those tenders. Work is expected to be completed in a few weeks. The work relating to the construction of the Cement Plant is expected to be taken on hand during the current year 1965-66.

*Madras Industrial Development Corporation :* The M.I.D.C. has been registered with an authorised capital of Rs. 10 crores. This Corporation

will take over from the Government the Projects relating to the concast plant and the cement plant initially.

*Co-operative Spinning Mills.* The Fourth Co-operative Spinning Mill near Salem went into operation in 1964. The work relating to the construction of a new Co-op. Spinning mill and the work relating to the construction of the Co-operative Spinning Mill at Pettai are making progress ahead of schedule. The total amount of loan available to the Co-operative Mills will be Rs. 240 lakhs. The import licences for the plant and equipment have been received and orders have been placed for the import of machinery. These plants are expected to go into production towards the end of this year.

*Co-operative Sugar Mills :* The Fourth Co-operative Sugar Mills near Mohanur in Salem District went into production with the crushing capacity of 1,000 tons of cane per day. The work relating to the construction of the Co-operative Sugar Factories near Madurai and Kallakurichi are progressing according to schedule and they are expected to catch the next crushing season

*Kalpakkam Atomic Plant :* The Planning Commission has approved the setting up of the Rs. 60-crore atomic power plant at Kalpakkam, about 60 miles away from Madras during the Fourth Plan period. The capacity of the plant would be 400 m.w., having two reactors of the heavy water moderated type. This plant is expected to go into commission with in five years.

See under "Govt. Industrial Undertakings" for details about Integral Coach Factory, Neyveli Lignite Projects and other State owned undertakings.

*Sethusamudram Project :* The working group constituted to examine all aspects of the project has submitted its report to the Govt. The scheme, when implemented, will enable ships to go round Cape Comorin. At present vessels plying between east and west coasts of India have to circumnavigate Ceylon. This will reduce sea route from East to West coast by 400 miles.

The project, originally estimated to cost Rs. 22 crores, may actually cost twice as much.

Land borings at the project site have already started.

## SMALL SCALE INDUSTRIES

*Industrial Estates :* In the field of Small Scale Industries Madras State occupies an important position and there are more than 7,500 small scale industries registered on the list. By the end of the Second Plan 9 industrial estates were constructed containing 237 units at a cost of Rs. 154.80 lakhs.

During the Third Plan 35 factory units in the Estates of Madurai, Tiruchirapalli and Erode have been constructed. 13 new industrial estates with 283 factory units were sanctioned at a cost of Rs. 320 lakhs. Out of these 11 estates have been completed and many of them commissioned and the units have been occupied. The Estate at Arakonam is under construction and the other estates are expected to be completed in the near future. A sum of Rs. 321 lakhs has been spent and the expenditure is expected to go up to Rs. 500 lakhs before the end of the Third Five-Year Plan. Besides, functional Industrial Estates like the Ceramic Industrial Estates at Vridhachalam and Leather Industrial Estate at Madavaram have been set up. Another significant development is the encouragement given by the State Government to the private and co-operative agencies to set up industrial estates. So far 4 co-operative estates and 2 private estates have been sanctioned. Of these, a private estate near Tiruvotiyur has already come into existence. Others at Tuticorin, Sivakasi, Pollachi, Vysarpadi, Coimbatore and Vellacheri are in progress.

The most significant development during the Third Plan period, however, is the introduction of the concept of the industrial areas in the industrial estate programme. This scheme has been introduced for the first time in the Industrial Estate at Ambattur, where an extent of 1,200 acres has been acquired for the purpose of providing developed industrial sites. The successful completion of the industrial history of Madras State, since it provides for an integrated development of large, medium and small industries through mutual co-operation and assistance. Similar industrial areas are also being planned in half-a-dozen other places in the State.

## MINES AND MINERALS 1964

District-wise production of different minerals in tonnes and their value respectively are as follows :—

*Salem :* Bauxite 6,792 Rs. 65,000 ; Magnesite 2,28,423 Rs. 80,99,000 ; *Tiruchirapalli :* 4,230 Rs. 20,000 ; Fire clay 21,424 Rs. 47,000 ; Gypsum: 1,00,253 Rs. 12,68,000 ; Limestone 20,80,372 Rs. 2,26,03,000 ; Quartz 2,619 Rs. 12,000. *Nilgiris :* Mica 9 Rs. 12,000.

Detailed investigations made by the State Geological Department in respect of iron ore in the Kanjamalai area has formed the basis for drawing up the scheme for setting up the Neyveli — Salem Steel Plant. Investigations in the survey of limestone, kankar and clay areas for a public sector cement plant near Alangulam, for bauxite in Palani Hills, for asbestos in Coimbatore district and for copper in Tirunelveli district, are in progress. 23 other investigations for various types of minerals including white clay required for ceramic units are also progressing. The Oil & Natural Gas Commission has been conducting surveys in the Cauvery basin for mineral oil. The factory of the Madras Aluminium Co. Ltd., at Mettur, has been inaugurated and 10,000 tonnes of the ore is expected to be produced per year. The extensive bauxite deposits discovered in Nilgiris strengthen the raw material position of the project further.

## KHADI

Madras has been pioneer in the development of Khadi Industry. The most important organizational change has been the formation of the Madras State Khadi and Village Industries Board on a statutory basis.

[1] provisional figures.

Production of rice during 1963-64 was 3,917,000 metric tons.

Bananas, mangoes and citrus are the most important fruit crops of the State. The area under bananas was 36,380 hectares with an yield of 673,000 tonnes.

*Cotton and Oilseeds :* Production of Cotton during the year 1963–64 was 4·86 lakh bales of 392 lbs. each ; and that of oil seeds for the same period was 13.17 lakh tonnes.

*Plantation Schemes :* The important schemes of economic plantations undertaken during the Third Plan relate to rubber plantation in Kanyakumari district, bamboo plantations in Coimbatore district, and the raising of quick-growing fuel plantations in the districts of Chingleput, South Arcot and North Arcot. Fuel plantation of about 1,000 acres was taken up during 1962-63 and another 1,000 acres were to be covered by the scheme during 1963-64.

*Dairy and Milk Project :* In addition to the milk produced at the Madhavaram Milk Colony, milk is also collected from rural areas. Milk is also being purchased and brought from Ooty Co-operative Society to Madras by rail. An integrated Dairy Scheme has started functioning at Erode, Milk is being collected and brought to Madras.

The Central Dairy, besides processing both buffalo's and cow's milk, collected from all sources, is also producing toned milk. The Madras Dairy and Milk Project is now handling cow's milk, buffalo's milk and toned milk.

The total quantity of milk handled during the period from 1st April 1963 to 31st March 1964 :—

| | *Litres* | *Value* |
|---|---|---|
| | | Rs. |
| Tones milk .. | 11,90,960 | 6,66,937.60 |
| Buffalo's milk .. | 42,25,751 | 44,42,205.94 |
| Cow's milk .. | 29,02,932 | 23,80,404.24 |

## FISHERIES

Estimated landings of inland fish from the various inland waters in (1964–65) : 99,568.436 tonnes of the value of Rs. 555.07 lakhs.

The estimated marine fish landings for the State (1964–65) : 160,218.57 tonnes of the value of Rs. 1,785.34 lakhs.

## LAND REFORMS

The Madras Land Reforms (Fixation of Ceiling on Land) Act, 1961 was first published as Madras Act 58 of 1961 on 2-5-1962.

### ZAMINDARI ABOLITION (Sept. 1962)

The Estates Abolition Act provides for the repeal of the Permanent Settlement and for the acquisition of the rights of land-holders in certain estates in the State by payment of equitable compensation to the several persons having interest in the estates and for the introduction of the ryotwari settlement in them.

Statistical data : Total number of estates in the State : 4,944; Total number of estates taken over under the Estates Abolition Act : 4,923; Number of estates not yet taken over : 21; Total area of estates surveyed upto May 1962 : 11,248·85 sq. miles; Balance of area to be surveyed as in May 1962 : 240·35 sq. miles; Total estimated compensation amount payable in respect of estates taken over (compensation : Rs. 6,32,33,000; Interim payments : Rs. 1,84,00,000); Number of estates in which ryotwari settlement has been introduced : (1) Zamin : 1,000; (2) Undertenure : 936; (3) Inam : 2,935; Total : 4,872; Area of estates under ryotwari : 11,187·39 sq. miles.

## IRRIGATION

## MINOR IRRIGATION

There are 33,000 minor irrigation sources in the State out of which 27,000 are tanks and 6,000 are spring channels. Out of these sources about 30,000 have ayacut of more than 10 acres.

The number of works completed and benefits obtained from the special Minor Irrigation Programme during the first and Second Plans respectively were as follows. Figures of the First Plan are in brackets.

Cost of the special Minor Irrigation Programme (Rs. in lakhs) : (290); 439; Number of works completed (2,458); 2,250; New Irrigation in old ayacut (430,000) 187,600.

The number of irrigation pump sets electrified and the area irrigated as on March 31, 1965 respectively was 2,24,362 and 9,89,600 acres.

Third Plan provision Rs. (in lakhs) 12,80·00.

About 5,000 minor irrigation works would need to be renovated during the Third Plan.

*Rainfall* (1961-62) : Annual rainfall for Madras State.—863·9 millimetres (34·01 inches).

## ELECTRICITY

Madras State ranked first in India in Hydro-Electric Development, in the use of electric power for irrigation purposes and by way of number of consumers.

Total Capital outlay of the power schemes as on 31-12-1965 : Rs. 227·00 crores

36,521 kilometres of high tension transmission lines of voltages varying from 11,000 to 230,000, 62,163 kilometres of low tension distribution lines and 15,726 distribution stations.

In the Third Plan, schemes costing Rs. 100·19 crores have been drawn up for implementation. During the Third Plan period the installed capacity is proposed to be augmented by another 500 M.K. which does not include the installed capacity coming under the Neyveli Thermal Station. The above figure of Rs. 100·19 crores includes a sum of Rs. 2 crores towards loan to licensees.

## ROADS

National Highways 1,090 miles, State Highways 1,092 miles, Major District Roads 9,648 miles, other district roads and village roads 15,852 miles.

The outlay made by the Government of India for the development of National Highways in this State in the Third Plan for new works is only Rs. 27·50 lakhs.

Links of National Highways within towns having a population of 20,000 are maintained entirely from State Funds.

## TRANSPORT

The Bus Transport in Madras City is Government owned. The transfer to public ownership was carried out in stages starting in October 1947 and ending in June 1948.

Position in the year 1963-64 :

Number of routes served by the Department : 153.
Total daily mileage : 30,730,025.
Number of suburban routes : 26+2.
Number of long distance routes : 6+7.
Fleet strength : 820.

## CO-OPERATION

The Third Plan outlay has been increased to Rs. 471·06 lakhs as against the total Second Plan outlay of Rs. 283·88 lakhs for various co-operative development schemes in the State.

The programme for the Third Plan was to increase the membership of the village co-operatives so as to bring within the Co-operation fold about 85 per cent of the rural population and to increase the provision of agricultural credit from year to year so as to increase to Rs. 50 crores in the last year of the Third Plan period. To achieve this objective so far about 850 societies, 2,200 village credit societies and 10 Land Mortgage Banks have been organized. The Co-operatives would have covered 85 per cent of the rural population (according to 1961 census) and issued loans to the extent of Rs. 47 crores (short-term, medium-term and long-term) by the end of 1964-65. The Co-operatives will serve 88 per cent of the rural population by the end of the Third Plan and are expected to increase the quantum of credit supplied by them from Rs. 47 crores to Rs. 50 crores.

### THIRD PLAN

The following are the outlays in Rs. Crores, under different heads of the development schemes of Madras State for the Third Plan: Agriculture 36·98; Community Development and Co-operation 25·18; Irrigation and Power 127·61; Large and Medium Industry 3·35; Village and Small-scale Industries 20·16; Roads and Tourism 11·25; Education 32·16; Health 21·50: Housing 7·00; Welfare of Backward Classes 3·26; Social Welfare 0·52; Labour and Labour Welfare 1·33; Other Items 0·59. Total Rs. 291 crores.

Some of the items of agricultural production at the beginning of the Third Plan and expected production at the completion of the Plan respectively in lakh tons are as follows:

Food grains 53·24, 69·78; Sugarcane (gur) 4·00, 5·00; Oilseeds 10·50, 13·40; Cotton (lakh bales) 4·20, 5·20.

The expenditure for power generation during Second Plan was Rs. 79 crores. The Third Plan outlay has been fixed at Rs. 100 crores.

The provision for the continuing power development schemes namely Periyar Hydro-Electric Scheme Stage I, Kundah Hydro-Electric Scheme Stages I & II and Sandyanallah Reservoir Scheme during the Third Plan are Rs. 12 lakhs, Rs. 277 lakhs and Rs. 30 lakhs respectively.

Provision and additional installed capacity to be established during Third Plan of some of the new schemes are as follows:—Mettur Tunnel Scheme Stage I Rs. 580 lakhs; 100 M.W. (since revised to 200 M.W.); Kundah Stage III Rs. 2,306 lakhs; 240 M.W.; Periyar Hydro-Electric Scheme Stage II Rs. 94 lakhs; 35 M.W.; Annamalai Project Rs. 500 lakhs; 100 M.W.

During the Third Plan period a High Pressure Boilers Plant, one of the seven major heavy industrial projects in the public sector has been taken up to be established near Tiruchi. The estimated investment is about Rs. 15–20 crores. The project is to manufacture high pressure chemical and other equipment.

The outlay for the large and medium industries for the Third Plan has been classified as follows:—

Multi-purpose food plant Rs. 35 lakhs; Preliminary investigation of the Iron and Steel plant Rs. 75 lakhs; Investment in Madras Industrial Corporation Rs. 100 lakhs; Steel Rolling Mill Rs. 100 lakhs; Strengthening the State's Geological Survey Rs. 25 lakhs.

A multi-storeyed office building at an estimated cost of Rs. 95 lakhs for housing the Central Govt. Offices at Haddows Road, Madras is to be completed by the end of the Third Plan out of allocations for the office buildings fund.

*Rental Housing Scheme:* The State Govt. proposes to construct a minimum of 50 flats per year in each district headquarters under the rental housing scheme for low-paid Govt. employees with an income not exceeding Rs. 500 per month.

Agricultural production, minor irrigation, power generation and educational programmes both general and technical are all being pushed through with high priority.

Pruning has been made in view of the National Emergency to conserve the scarce materials like iron, cement etc. by cutting down the programme under administrative buildings and housing schemes.

The State Govt. had proposed an outlay of Rs. 80·9 crores for 1965–66, but this has been revised to Rs. 77.86 crores by the Planning Commission. The plan provision of Rs. 291 crores has now gone up to Rs. 335 crores.

### FOURTH PLAN

Top priority for food grains production is the highlight of the draft outline of Madras State's Fourth Plan. The Plan, which calls for an outlay of Rs. 750 crores on Centrally-assisted schemes and Rs. 65 crores on Centrally-sponsored schemes, is bigger than all the three earlier Plans put together.

A feature of the draft outline is that the controversial Salem steel plant project is definitely put down for implementation in the Central sector.

Taking into account the comparatively high density of population in the State, the Plan aims at a higher rate of growth than the 6½ per cent visualised for the national economy as a whole.

The Plan's food grain target is to step up production from 65 lakh tonnes to 82 lakh tonnes. In respect of industry, the primary objectives laid down is to fill in the gaps in the industrial structure, to make good the lags in fields in which progress has been tardy and to correct the factors that inhibit growth so that the industrial sector is made to yield an additional output of over Rs. 200 crores.

The size and pattern of outlays proposed are (Rs. in lakhs and in the order of Centrally-assisted and Centrally sponsored):—

Agriculture 8,437, 861; Co-operation, community development and rural development 5,126, 101; Irrigation 6,881, nil; Power 21,700; Industry including handlooms 8,836, nil; Transport and communications 3,749, 1,133; Miscellaneous 116, nil.

The outlay in the first year of the State's Fourth Plan, commencing on April 1, 1966, is expected to fall short of the investment for the current year (the last year of the Third Plan), by about, Rs. 9 crores. The Plan outlay during the year (1965-66) is Rs. 81 crores.

## COIMBATORE DISTRICT

*Dt. Hqrs.:* Coimbatore.

The Coimbatore District, next in importance to the City of Madras, has an area covering 6,024 square miles with a population of 3,154,296. It is one of the major districts in Tamil Nad. The Anamallais (elephant hills) which form part of the District in the south have large coffee and tea plantations covering 40,000 acres and employing 40,000 workers whose annual wage bill is nearly Rs. 3 crores. Some 35 million lbs. of tea and 1,000 tons of coffee are produced. There are also cardamom and cinchona plantations. The finest teak in India is produced on these hills.

The work on the Rs. 40 crore Parambikulam Aliyar multi-purpose project is in full swing. It is the best example of interstate cooperation in the South made possible by an agreement between Madras and Kerala for utilising the waters of the west-flowing Parambikulam and Sholayar rivers at the same time guaranteeing the existing irrigation in Kerala. This multi-valley project is a masterpiece of integration of waters flowing through different valleys by the construction of 8 reservoirs—6 in the Anamalais and 2 in the plains—through 12½ miles of inter-connecting tunnels. The Aliyar reservoir designed to irrigate 35,000 acres, one of the two in the plains, was commissioned in October, 1962. A special feature of the project is that irrigation is subsidised by power. The power part consists of producing 180,000 kW. in five stations utilising the drops available.

The Mettur Tunnel Scheme generating 200,000 kW. utilising the irrigation flow of Cauvery is progressing and will be commissioned next year. The project costs Rs. 10 crores.

The last of the irrigation projects for the district to utilise the waters of Upper Bhavani has been investigated and is awaiting sanction by Government. It will irrigate 40,000 acres in Avanashi taluk at a cost of Rs. 2½ crores.

Coimbatore, the District Headquarters, is the largest industrial city in Madras State. The district has 71 textile mills, 57 of which are spinning mills and the rest weaving mills. The spinning mills have a spindlage of 1,743,984 and a tonnage of 4,200. All the mills employ approximately 55,000 workers of whom 12,000 are women. There are also 60 ginning factories with an additional labour of about 10,000 and the city itself is officially called "the Manchester of South India." It is the largest textile manufacturing centre with ring and mule spindles totalling 1,566,846 producing on an average 27,000 bales of yarn monthly.

There are also a number of iron foundries, Coimbatore being the first in India to manufacture pump-sets for irrigation. A medium-sized blast furnace is in operation. An Associated Cement factory produces 1,500 tons a day.

A branch of the Asbestos Cements Ltd. is also located at Podanur.

A 22-lakh synthetic gem factory, the first of its kind in Asia, was opened in 1957. The factory which is an Indo-Swiss venture, hopes to meet the full demand for synthetic gems, which are now being imported, producing in the first year alone gems valued at Rs. 20 lakhs.

The finishing part is done at Tiruchirapalli and Jaipur by cottage industry groups.

### OTHER INDUSTRIES

A Rs. 10-crore Indo-Italian venture, Messrs. South India Viscose Ltd., manufacturing rayon-pulp, four miles from Mettupalayam went into production in 1961.

Another Rs. ten-crore venture with Italian aid is an aluminium factory at Mettur on the banks of Cauvery. A third, Rs. 10-crore paper factory opposite Erode was expected to go into production during the year 1963. It is an Indo-American venture.

At Udumalpet taluk, Rs. one-crore Amravati co-operative sugar factory went into production in 1960.

Plans for starting another Rs. one-crore sugar factory in the private sector in Gobi taluk has been finalised and work is to begin shortly.

Two factories are engaged in the production of textile machinery and parts. The ultimate plan of the factories is to manufacture all modern equipment required for textile industry.

Three factories in Coimbatore produce nut and plastic buttons.

The Central Govt. has a plan to build an industrial estate on the northern outskirts of the city. A Security printing press is also under construction at Naickenpalayam.

The Regional Agricultural Research Institute caters to the needs of Madras, Kerala, Mysore and Andhra Pradesh and is open to 40 post-graduates. The institute awards the highest degrees of M.Sc. (Ag.) and Ph.D. to successful candidates.

Other specialised institutions are the Union Government's Sugarcane Breeding Institute, the Southern Herbarium of the Botanical Survey of India and the Regional Research Station of the Indian Council of Agricultural Research for cotton, millets and oilseeds.

A privately sponsored polytechnic, the Nachimuthu Industrial Institute, Pollachi, was opened in the year 1960.

# MAHARASHTRA

CAPITAL: Bombay.

Area: 1,18,717 sq. miles; Population: 39·55 millions (1961 census).

## DISTRICTS AND TALUKS

(For the names, area and population, see under article "Population").

The State is divided into 26 Districts. There are 198 Talukas and 223 municipal towns.

The Districts with their capitals in brackets are:—

Dhulia (Dhulia), Nasik (Nasik), Thana (Thana), Bombay Suburban (Bombay), Kolaba (Alibag), Ratnagiri (Ratnagiri), Ahmednagar (Ahmednagar), Poona (Poona), Satara (Satara), Sangli (Sangli), Kolhapur (Kolhapur), Sholapur (Sholapur), Jalgaon (Jalgaon), Aurangabad (Aurangabad), Parbhani (Parbhani), Bhir (Bhir), Osmanabad (Osmanabad), Nanded (Nanded), Buldhana (Buldhana), Akola (Akola), Amravati (Amravati), Yeotmal (Yeotmal), Wardha (Wardha), Nagpur (Nagpur), Chanda (Chanda), Bhandara (Bhandara).

It may be added here that two Districts, Thana and Dhulia have become smaller after bifurcation through the loss of villages (See under Gujarat). Bombay City, which has not been included in any of the above districts, has been kept as a separate entity for revenue administration.

These 26 Districts are grouped into four Divisions.

Bombay Division:—Bombay Suburban, Thana, Kolaba, Nasik, Dhulia, Jalgaon, Ratnagiri.

Poona Division:—Ahmednagar, Poona, Satara, Sangli, Kolhapur, Sholapur.

Aurangabad Division:—Aurangabad, Parbhani, Bhir, Osmanabad, Nanded.

Nagpur Division:—Buldhana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara, Chanda.

The State came into being on May 1, 1960 when the Bombay Reorganisation Act, 1960, came into force. This Act split the old Bombay State into two States, Maharashtra and Gujarat.

The strength of the Maharashtra Assembly is 265, of the Council 78. The State sends 19 members to the Rajya Sabha and 45 to the Lok Sabha.

It is the third biggest State in the Union both in respect of area and population.

The density of the population is highest in Greater Bombay 24,568 per sq. mile and lowest in Chanda 123 per sq. mile. The sex ratio is 936 females per 1,000 males. This ratio is highest in Ratnagiri District, 1,237 and lowest in Greater Bombay, 663.

There are 12 cities with a population of one lakh and above and 15 towns with a population of between 50,000 and one lakh.

## GEOGRAPHY

The Sahyadris or the Western Ghats run quite close and almost parallel to the west coast, leaving a very narrow strip of land between the sea and the lofty mountain barrier, which at no place is more than 60 miles in breadth. This narrow strip of land known as Konkan, stretches from Daman to Vengurla to a distance of about 350 miles. Interspersed with hills, the land is very undulating and the soil far from fertile, only suitable for paddy cultivation in flat patches, which lie couched in small valleys and perched on hill slopes. The mountain sides are, however, covered by evergreen vegetation, which lends Konkan its spell-binding scenic beauty and also its horticultural wealth.

The North Konkan is a flat alluvial belt along the coast formed by the rivers Ulhas and Vaitarna in their lower courses. This belt is not more than ten miles wide, with a series of parallel ridges in the background. Along the coast is a string of small ports like Rewas, Harnai, Dabhol, Ratnagiri, Vijaydurg, Malvan and Vengurla served by the Konkan ferry service.

To the east of the Sahyadris stretches a vast plateau intercepted by rivers which rise in the Sahyadris and flow eastward. In the north is the Satpura range which runs almost in a straight line from east to west. The main Sahyadri range all along its length sends its arms across the tableland. To the north of Nasik is the Satmala range with its continuation in the Balaghat range, which goes right upto the eastern border of Vidarbha and Marathwada. The transverse ranges to the south of Nasik are much shorter and of little consequence.

The State is drained by a number of rivers—Tapi, Godavari, Bhima, Krishna, Wardha and Vainganga. The smaller rivers are the tributaries of one or the other of these rivers.

In between the Satpuras in the north and the Balaghat range in the south lies the great Tapi trough. The Tapi, rising in the Satpuras, flows westward, with the Girna flowing into it in its upper course. The Tapi valley, which comprises the western parts of Vidarbha and districts of Dhulia and Jalgaon, is one fertile belt of black soil, which grows cotton and is known as 'the black cotton soil'.

To the farther east is the Vainganga-Wardha valley. The two rivers, Wardha and Vainganga, flow south-east before they drain into the Godavari. The land abounds in lakes and tanks, many of which are man-made, which add to the natural beauty of the land. The green meadows dotted by the blood-red *palas* flowers lend a unique charm to the land on this eastern border of Maharashtra.

To the south of the Balaghats, right from Nasik to Nanded stretches the great valley of the Godavari, the cradle of Maharashtrian culture. The Godavari rises in the Brahmagiri mountain near Trimbakeshwar, which is one of the twelve 'Jyotirlingas'. From about fifteen miles from Trimbakeshwar is Nasik on the banks of the Godavari which is also a sacred place of the Hindus. Paithan in Marathwada was once the seat of learning and the centre of cultural movements. Still farther east is Nanded, the holy place of the Sikhs, with the famous Gurudwara shrine on the banks of the Godavari.

Whereas the Godavari valley linked by the valleys of Wardha and Vainganga which flow into it, is the nerve centre of Maharashtra, the Krishna valley is its southern periphery and historically its strong arm. It covers Satara, Sangli, Sholapur and Kolhapur districts. The eastern portions of the valley which cover the eastern Talukas of the districts of Satara, Sangli, Kolhapur and Sholapur are less fertile.

It is interesting to note that in Maharashtra the trades relating to distribution of commodities are run to a large extent by Gujaratis and Marwaris. Thus even in the remotest village, the cloth dealer is usually a Gujarati, while the grocer is generally a Marwari.

There are a number of Adibasi communities in Maharashtra, who live either in dense forests or on the mountain perches of the Sahyadris and the Satpuras. The main communities among these are the Agaris, the Warlis, the Katkaris and the Thakurs of Thana and Kolaba districts, the Bhils of Dhulia and the Korkus and the Gonds of Vidarbha.

**Village Panchayats.** The total income of Village Panchayats in 1962-63 was about Rs. 7·1 crores showing an increase of about 31 per cent over 1961-62. The Government grants contributed about 51 per cent of the total revenue. The total expenditure of Village Panchayats in 1962-63 was about Rs. 5·3 crores.

The receipts of the Zilla Parishads (1964-65 budget estimates) amounted to Rs. 50·4 crores in 1964-65, of which more than 90 per cent (Rs. 45·5 crores) were Government grants. The purposive grants and the Plan grants formed the major share e.g. 37 per cent and 27 per cent respectively of the total Government grants.

**Small Savings :** In small savings Maharashtra enjoyed the premier position in India till last year. During 1963-64, the target fixed for the State was Rs. 21·17 crores. As against this target, the net collection was Rs. 29·45 crores. The target for 1964-65 has been Rs. 22 crores, the net collection being Rs. 27·17* crores.

## ECONOMY

From the point of view of rainfall, the State can be divided into four regions—the Coastal area where the rainfall is between 80″ and 120″. The plateau areas where the rainfall is between 25″ and 80″ and is mostly around 25″—30″. In quite a few places it is less than 20″. The Vidarbha Districts where the rainfall varies between 30″ and 60″ are mostly around 60″.

There are a few acute scarcity areas :—in Poona District the areas of Shirur Taluka, Dhond Taluka, northern part of Baramati Taluka, villages to the north of Mula-Mutha river upto the northern boundary of Haveli Taluka. In Satara District Khanapur Taluka. In Sholapur District Karmala and Sangola Talukas. In Ahmednagar District Shrigondh Taluka.

The whole of Vidarbha is completely free from scarcity threats.

Rice is abundantly grown in the coastal Districts of Thana, Kolaba, Ratnagiri and also in Chanda and Bhandara. It accounts for one-fifth of the foodgrains grown in the State. Wheat accounts for a little more than one-twentieth. Millets are grown abundantly in the Deccan, Vidarbha and Marathwada districts. Jawar is the major cereal and accounts for half the production.

In 1962-63, area under all oil seeds was 19,30,600 hectares in Maharashtra and 1,47,96,000 hectares in the country. Area under cotton was 26,60,000 hectares and 78,45,000 hectares in the country.

The production of cotton in 1962-63 was 2,28,900 metric tons and groundnut 8,06,900 metric tons in Maharashtra. The production of cotton and groundnut was 9,44,000 metric tons and 48,21,000 metric tons respectively in the country.

The State has abundant forest wealth. Forests form 20·7 per cent of the area of the State. There are forest areas in all districts, but the thickest forest areas are, in Chanda, Amravati, Yeotmal, Bhandara, Nagpur, Dhulia, Thana and Nasik Districts. They produce various types of timber, teak and minor forest produce.

In the matter of live-stock, the milk-yielding buffalo population is greater than the cattle only in Kolhapur and Greater Bombay. The sheep and goat abound in all Districts but are particularly noticeable in Nasik, Dhulia, Ahmednagar and Sholapur. The concentration of horses and ponies is greater in Marathwada, Dhulia and Ahmednagar.

The number of joint stock companies as in March 1964 was 5,589 in Maharashtra as against 5,460 in March 1963. 243 new companies were registered during 1963-64 with an authorised capital of Rs. 38·92 crores as against 293 new companies with authorised capital of Rs. 72·65 crores in 1962-63.

During 1963-64, 132 companies with paid-up capital of Rs. 240 lakhs were reported to have gone in liquidation or were struck off the register. Of these 132 companies, 21 companies with paid-up capital of Rs. 64 lakhs were from the public sector. During 1962-63, 119 companies with paid-up capital of Rs. 99 lakhs were reported to have gone in liquidation.

About 3 per cent of the companies at work are in agriculture, mining and quarrying sector, 46 per cent in processing and manufacturing sector, and about 37 per cent in trade and commerce sector.

The State is rich in minerals like manganese and salt. Salt is produced in the coastal Districts, while manganese is mined in the Vidarbha Districts and to some extent in Ratnagiri. Some iron is mined in Ratnagiri and Chanda. It is believed that Vidarbha and to some extent Marathwada have deposits of China Clay, limestone, coal etc. With these exceptions the mineral deposits elsewhere are poor.

The more important industries are cotton textiles, general and electrical engineering, chemicals, sugar, vegetable oils, paper, paper boards and soap. Out of the 9,090 registered factories in the State, nearly half, that is about 4,500 factories are in the Greater Bombay area. The factories in the remaining areas are concentrated in Sholapur, Nagpur, Bhandara, Poona, Ahmednagar and Thana Districts. The concentration in Marathwada Districts is very poor.

Out of the Rs. 533 crores of productive capital in Maharashtra in 1960, the textile industry alone accounts for Rs. 104 crores. The large sugar and soap factories exist only in Maharashtra.

Today all places with a population of 50,000 and over are electrified. Power generation and consumption in Greater Bombay are high.

The length of roads excluding municipal roads is estimated to be about 42,093 kilometres in March 1964. 900 kilometres more were expected to be added by March 1965. The road length per 100 sq. kilometre area in Marathwada is 8 kilometres as against the State average of 13·7 kilometres.

**Social Services :**—It is calculated that about a fourth of the population of Greater Bombay consists of students. In the State as a whole students make up one-eighth of the population. But the number of institutions per lakh of population is on the low side. The number of teachers per thousand of population is 4; in Greater Bombay it is 7.

# ELECTRIC POWER DEVELOPMENT

Power and irrigation schemes account for about 38 per cent. of the total allocation of Rs. 67 crores earmarked for the annual Plan of Maharashtra for 1962-63.

Total installed capacity as on March 31, 1961 : 7·60 lakh kW. Output of electricity in 1961-62: 3,568 mln. kwhs.

Maharashtra State is fortunate in having several power projects—both hydel and thermal—generating over 6,00,000 kW of electricity. The generation and consumption power in Maharashtra is very high, the per capita power generated being about 71·1 kwh in 1956 as compared with 27·1 kwh in the Indian Union as a whole.

As evident from the highly industrial Bombay-Poona area, the bulk of the power generated at present is in that region. Even so there has been a chronic power shortage in this region, where industries are fast growing. To meet this shortage, additional thermal units were installed at Trombay and Chola but the real solution to these problems is the fulfilment of the Koyna project, which is now under construction. This project will not only supply abundant power to the Bombay-Poona region, but will also supply power to south Maharashtra where industries are fast coming up. The Koyna Project is estimated to generate 6,30,000 kW of power on completion.

Below we give a brief account of some power systems in the State.

## TATA PROJECTS

The hydro-electric undertakings in the State are the three schemes developed and brought into operation by Tata Sons, Ltd., and continued under their management until 1929, when they were transferred to the management of the Tata Hydro-Electric Agencies, Ltd., in which Messrs. Tata Sons retain a majority interest. These undertakings are :—

(*a*) The Tata Hydro-Electric Power Supply Company, Ltd. Supply started in 1915.

(*b*) The Andhra Valley Power Supply Company, Ltd. Supply started in 1922.

(*c*) The Tata Power Company, Ltd. Supply started in 1927.

The three Hydro-Electric Companies are interconnected with Chola Steam Station of the Central Railway and the newly commissioned Koyna Hydro generating station of Maharashtra State which feeds bulk power to the Tata system at Trombay over 220 kV transmission lines. Together they are operated as a Hydro-Thermal system under the co-ordinated control of the Hydro Companies.

The three Hydro Companies have constructed a modern Steam Thermal Station of 188 MW capacity at Trombay which is also interconnected to the system. The station is being expanded by the addition of a 4th unit of 125 MW capacity.

**The Tata Hydro-Electric System** serves an area in Maharashtra State of more than 2,072 sq. kilometres.

**Electric service is rendered to the textile mills and other industries of Bombay and the suburban areas, to local authorities, and, in bulk for retail distribution, to the electrical undertakings including the State Electricity Board, supplying Greater Bombay, Poona and ten other localities within the area.**

The transmission network of the Tata system consists of 1,010 circuit kilometres of 100,000-volt overhead lines and 24 circuit kilometres of 100 KV gas filled underground cables and the distribution network of 321 circuit kilometres of 22,000-volt overhead as well as 201 circuit kilometres of 22,000-volt and 199 circuit kilometres of 6,600-volt underground cables. There are also 35 circuit kilometres of 6,600-volt overhead lines.

Substantial additions to the transmission and distribution network are expected to be made during the next few years.

During 1964 the peak demand on the Tata Rly. System reached a figure of 638 MW.

The sales by Tatas during 1963-64 was 3,210 million units and the purchase from Koyna to supplement Hydro system during the year was 1,198 million units.

NOTE : Because of security reasons, we have been asked not to publish any information relating to location of electricity generating Plants.

### Third Plan Schemes

Involving an outlay of Rs. 51·92 crores, the Board's power development programme for the Third Plan envisaged, initially, the stepping up of its power generating capacity by 1,80,000 kW, construction of additional high voltage transmission lines of a total length of about 3,900 kMS and sub-stations, electrification of 900 more villages and supply of electricity to 10,000 agricultural pumps. The outlay has since been increased to 58·17 crores. The increase is due mainly to expansion of the rural electrification programme and inclusion of additional schemes of establishing three more new steam stations of a total capacity-of 9,00,000 kW in the Vidarbha, Western Maharashtra and Marathwada regions and of construction of high voltage transmission lines of varying lengths and sub-stations for supply of electricity throughout the State.

*Achievements :* The targets in respect of transmission lines, rural electrification and supply of electricity to agricultural pumps have already been exceeded. Of the additional 1,80,000 kW programmed for the Plan period, 60,000 kW were commissioned at the Board's steam station at Khaperkheda towards the end of 1964 raising the station's capacity to 1,20,000 kW. The remaining 1,20,000 kW comprise expansion of the Board's steam station at Paras by 60,000 kW and construction of a new steam station of 60,000 kW. at Bhusaval. Works in respect of these are in various stages of progress and are expected to be completed by the end of the Plan period. Of the three new steam stations of a total of 9,00,000 kW capacity, one of 5,60,000 kW is proposed to be constructed near Nagpur in Vidarbha, the second of 60,000 kW at Parli in Marathwada and the third of 2,80,000 kW near Nasik in Western Maharashtra. The construction of these stations would project into the Fourth Plan.

*Electricity for Goa :* The Board has undertaken to supply electricity to Goa to the extent of about 1,700 kW and for this purpose to construct a 33 kV line (192 kMS) from its Radhanagari hydro station to Panjim in Goa *via* Sawantwadi. The line has since been completed and supply made available to Goa.

### Power Projects

Statement showing particulars about power projects in operation in Maharashtra as on March 31, 1963 :

**Radhanagari-Kolhpur-Karad-Satara Koyna System :—**

This system had two Power Stations, (1) Radhanagari Hydro Power Station (2) Kolhapur Diesel Power Station. The other three Power Stations namely (1) Vishrambag Power Station; (2) Islampur Power Station and (3) Ichalkaranji Power Station, were closed down and power supply from Koyna Hydro Power Station was made available to the areas around Satara, Karad and Vishrambaug. Units generated : 27·86 Million kWH ; Number of Consumers : 34,844 ; Total length of transmission lines : 1,983 Circuit Kilometres.

**Bhatgar Scheme :** Name of power house : Bhatgar. Existing Capacity : 1,024 kW. Units generated during 1962-63 : 4·39 million kWH. No. of units sold during 1962-63 : 45 million kWH. No. of consumers : 41,617. Length of transmission lines : 1,972 circuit kilometres.

**Vidarbha Grid Scheme :** This has three power houses. (1) Khaperkheda Power House. Existing capacity : 60,000 kW. Units generated during 1962-63 : 238·91 million KWh.

(2) Ballarshah Power House. Existing capacity: 22,500 kW. Units generated during 1962-63 : 56 million kWH.

(3) Paras Power House. Existing capacity : 30,000 kW. Units generated during 1962-63 : 154·17 million kWH.

Total units generated under the Vidarbha Grid Scheme : 449·08 kWH. Units sold during 1962-63 : 360·88 mln. kWH. Number of consumers : 78,449. Length of transmission lines 11 KV. and above : 5,990 circuit kilometres.

**Minor Diesel Schemes unconnected to any Grid :** There are 34 such schemes. Existing capacity : 14,384 kW. ; Units generated during 1962-63 : 16·07 million kWH ; number of units sold : 13·72 million kWH ; number of consumers : 37,433 ; length of transmission lines : 1,170 Circuit Kilometres.

Minor Schemes based on bulk purchase have been included under Bhatgar Poona System given above.

### THIRD PLAN SCHEMES

**Western Maharashtra Extension :** Construction works on transmission lines, 11 KV and above, also construction work of major and minor sub-stations was in progress in order to receive and distribute power from Koyna Hydro Electric Power Station, to the areas around Karad, Sangli, Kolhapur, Satara, Poona, Ahmednagar, Sholapur, Pandharpur, Kalyan, Virar, Kolaba and Ratnagiri.

**Vidarbha Grid Extension :** Erection work of the two 30 MW generating Plants was in progress. Considerable work has been done on the construction work of 66 KV transmission line. Surveys in connection with 132 KV transmission line, between Khaperkheda and Paras were

* Excluding revenue and expenditure of the Koyna Hydro Electric Project which is leased to the Board for operation and maintenance and for which separate accounts have been maintained. The total revenue from the project in 1963-64 amounted to Rs. 465·15 lakhs and working expenses to Rs. 7·81 lakhs.

undertaken. Orders for line and Sub-station equipments have been placed (March 1964).

**Khandesh-Marathwada Scheme :** Construction work of a 60·5 MW thermal power station at Bhusaval was in progress. Work of extension to Paras Power Station was also in progress.

**Rural Electrification Schemes† :** 481 villages and towns were electrified during 1962-63. 2,145 irrigation pumps were supplied with electric power in 1963.

### CHOLA, KOYNA

A brief note each on two other power schemes is in order.

Central Railway's Power House at Chola has a total installed capacity of 136,000 kW and supplies electric power for the requirements of Central and Western Railways' electrified lines in Bombay. This power house is interconnected with the Tata-Koyna system.

The second scheme is Koyna, it is the biggest scheme in Maharashtra.

The Koyna Hydro-Electric Project provides construction of dam at Koynanagar for diverting water of river Koyna—a tributary of river Krishna, to the west for power generation.

The entire scheme to be completed in three stages, will have an installed capacity of about 900 MW.

The first stage of the Project comprises construction of the dam in rubble concrete to store water to run the four generating sets of 60 MW capacity each in an Underground Power House, by diverting the water from Shivaji Sagar through a Head-race Tunnel of 21′ and 12,300 ft. long and then through steel-lined inclined Pressure Shafts of dia. varying from 10′ at top to 8′-6″ at bottom. The utilised water is let out in Vashishti river through a Tail-race Tunnel of length 7,260 ft. The electricity generated is fed into the Tata-Koyna Railway interconnected Grid system by a double circuit 220 KV Line and Southern Maharashtra region by single circuit 220 KV Line. The four generating sets are working.

The second stage comprises raising and thickening of dam to store 98 TMcft. of water and construction of two more Pressure Shafts and erection and commissioning of four more generating units of 75 MW capacity each and 220 KV transmission line towards Bombay and double circuit line to the Aluminium factory. The concreting of dam is completed, spillway radial gates are to be erected. Erection of stage II units is now progressing (June 1965).

The estimated cost of Stages I & II put together is Rs. 5,644 lakhs, out of which expenditure of about Rs. 4,523·30 lakhs has been incurred upto end of March 1965.

The provisions for the Project in the First Second and Third Five-Year Plans are respectively Rs. 400 lakhs, 2,900 lakhs and Rs. 2,752 lakhs.

The Project is financed by I.B.R.D. Loan 223-IN for Rs. 789 lakhs and I.D.A. 24-IN Credit for Rs. 840 lakhs (excluding Koyna-Sholapur Scheme).

The third-stage of the Project comprises utilising of the residual head of tail-water discharged from Under-ground Power House and also monsoon run-off in the nearby catchment area. About 320 MW of power would be generated in a single Underground Power House, which is to be used as a peaking Station. The estimated cost of this Project is Rs. 3,188·90 lakhs. The Planning Commission has cleared the stage III Project in the Fourth Plan and advance action is allowed to be taken up in the Third Plan. Excavation for approach tunnel, constructing colony buildings, roads are taken up.

The Govt. of Maharashtra has formed an Advisory Board, called the Koyna Control Board, which comprises representatives from Central and State Governments and Commercial Corporations. The Board advises the State Government in respect of major policies and the day-to-day administration rests with the Irrigation & Power Department of Maharashtra Government.

## HOUSING

Housing schemes are coordinated by the Urban Development and Public Health Department of the Government. The actual building work and ancillary functions are discharged by the Housing Boards. Finance comes partly from the Government of India.

There are two Boards now, the Maharashtra Housing Board for the Maharashtra area and the Vidarbha Housing Board for Vidarbha. The Maharashtra Housing Board have jurisdiction in the Marathwada area since April 1963.

The following urban housing schemes are now in operation :—

(1) Subsidised Industrial Housing Scheme; (2) Low Income Group Housing Scheme; (3) Slum Clearance Scheme ; (4) Sweepers' Housing Scheme ; (5) Middle Income Group Housing Scheme ; (6) Land Acquisition and Development Scheme and Economically weaker Sections Scheme.

**Subsidised Industrial Housing Scheme :** This scheme is meant for industrial workers whose income does not exceed Rs. 350 per month. The scheme is executed through the Maharashtra Housing Board, Vidarbha Housing Board, Employers and Co-operative Societies of industrial workers. The Housing Boards are provided with 100 per cent financial assistance. The financial assistance is given to the employers at the rate of 50 per cent loan and 25 per cent subsidy and to the Co-operative Societies at the rate of 65 per cent loan and 25 per cent subsidy. In addition, employers can also give their 25 per cent share of subsidy to the Housing Boards for construction of tenements for their employees. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements completed, agency-wise, till March 31, 1965 is as follows : Maharashtra Housing Board 24,422 ; Vidarbha Housing Board 3,520 ; Employers 3,458 ; Co-operative Societies 332 ; Total 31,732.

The construction of 4,042 tenements including spill-over works would be the programme for the two Housing Boards during 1965–66.

**Slum Clearance Scheme :** This scheme provides for construction of tenements and provision of plots for slum dwellers. The scheme is executed through the local bodies and the Maharashtra Housing Board, which are given financial assistance by way of 50 per cent subsidy and 37½ per cent loan of the approved cost. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements constructed by the various agencies till the end of March 1965 is as follows : Maharashtra Housing Board 10,156 ; Bombay Municipal Corporation 3,875 ; Poona Municipal Corporation 724 ; Nagpur Municipal Corporation 332 (plots) ; Nagpur Improvement Trust 650 (plots) ; Ahmednagar Municipality 90 ; Dhulia Municipality 32 ; Total 15,859.

The construction of 5,680 tenements and plots including the spill-over works would be the programme of the Maharashtra Housing Board for 1965–66.

**Low Income Group Housing Scheme :** This scheme is meant for persons whose total annual income does not exceed Rs. 6,000. The scheme is in operation in the municipal areas of the State. The loans under the scheme are granted to individuals, co-operative housing societies, local bodies, institutions, etc. The loan is granted upto 80 per cent of the cost of construction subject to the maximum limit of Rs. 10,000 per tenement. The total number of tenements completed through the various agencies till the end of March 1965 is as follows : Maharashtra Housing Board 7,145 ; Vidarbha Housing Board 95 ; Individual 329 ; Local Bodies 1,233 ; Co-operative Societies 3,234 ; Institutions 55 ; Total 12,091.

The construction of 1,873 tenements including spill-over works would be the programme of the two Boards for 1965–66.

**Economically Weaker Sections Schemes :** This scheme provides for construction of tenements for persons whose monthly income does not exceed Rs. 250 in Bombay and Rs. 175 elsewhere. The scheme is executed through the agencies of the Vidarbha Housing Board and the Maharashtra Housing Board, which are given 100 per cent financial assistance. The rents charged are based on 25 per cent subsidy of the ceiling cost of construction. The total number of tenements constructed by the various agencies till the end of March 1965 is as follows : Maharashtra Housing Board 634.

The construction of 688 tenements including spill-over works would be the programme of the two Boards for 1965–66.

**Sweepers Housing Scheme :** This is meant for providing residential houses to the sweeper employees of the various local bodies in the State. The scheme is executed through the local bodies, individual sweepers and their co-operative societies and recognised social service agencies, which are given financial assistance by way of loan and subsidy based on the approved cost. The total number of tenements constructed by the local bodies till the end of Dec. 1964 is 136.

**Middle Income Group Housing Scheme :** This scheme is meant for persons whose monthly income is between Rs. 501 and 1,250. The scheme is implemented through the Maharashtra Housing Board and the Vidarbha Housing Board, which draw loans to the extent of 80 per cent of the approved cost subject to the maximum of Rs. 20,000 per tenement, from L.I.C., under the guarantee given by the State Government. The tenements constructed are given on rental and hire-purchase basis. The total number of tenements constructed till the end of March 1965 by the two Boards is 1,463.

The construction of 1,048 tenements including spill-over works would be the programme of the two boards for 1965–66.

**Land Acquisition and Development Scheme :** The scheme is executed through the agencies of the Maharashtra Housing Board and the Nagpur Improvement Trust, which are given financial assistance to the extent of 100 per cent. The Maharashtra Housing Board has been allowed to constitute "Revolving Fund" out of the amount of Rs. 110 lakhs given to it under the Scheme. Since 1962–63, assistance for this scheme is given by the L.I.C. to the two agencies under the guarantee of the State Government. The area acquired and notified for acquisition respectively in acres till the end of Sept. 1964 by the two agencies is given below : Maharashtra Housing Board 515 ; 1,258 ; Nagpur Improvement Trust 91·82 ; nil ; Total 606·82 ; 1,258.

## ROAD TRANSPORT

A single road transport corporation for the entire State, known as the Maharashtra State Road Transport Corporation, came into existence from July 1, 1961.

The Provincial Transport Services of Vidarbha and the State Transport of Marathwada have been merged with the Bombay State Road Transport Corporation to form a unified body for Maharashtra.

† Extended to 31 villages in May 1964, bringing the total number of villages electrified in the State to 2,344 (1,230 in Vidarbha, 968 in West Maharashtra and 146 in Marathwada).

The operational data of Maharashtra State Road Transport Corporation as of March 1964:

No. of passenger vehicles—2,937; No. of goods vehicles—145; No. of routes operated—2,315; Route mileage—83,869; Major workshops—One central, 11 divisional and 86 depot and sub-depot workshops; No. of persons employed—20,145; No. of nationalised city services—Eleven; No. of municipalised city bus services—four; Rate per passenger mile—5 P.; Total bus miles operated—10,74,83,708; Total No. of passengers carried—2,500·96 lakhs; No. of bus stations—54, temporary bus stations—168; No. of refreshment rooms—337; No. of cloak-rooms—69; Pick-up stands—361; Capital invested (Rs. lakhs)—1,928·31; Total gross revenue (Rs. lakhs)—2,008·44; Total revenue expenditure (Rs. lakhs)—1,985·04.

## MILK SCHEME—1965

*Staff employed:* Govt. Regular 2,820; Part-time 3,430; daily rated 1,500.

*Area of Govt. Land:* 4,057 hectares (Aarey 1,280 hec.; Palghar 1,380 hec.; cultivated under irrigated fodders at Aarey for Para-grass 210 hec.; Vankas 1,179 hec.; Worli 8 hec.).

*Daily quantity of milk procured:* Aarey 1,04,867 litres; Anand 98,089 litres; Societies 16,356 litres; Dist. Govt. Milk Scheme 27,271 litres; Co-operative Societies 14,347 litres. Total 2,60,930 litres.

*Distribution of Milk (per day in litres):*

| Type | |
|---|---|
| Whole Milk .. .. .. | 2,11,671 |
| Toned Milk .. .. .. | 1,25,499 |
| Double Toned Milk .. .. | 21,781 |
| Sterilised Milk .. .. .. | 885 |
| Cow Milk .. .. .. | 760 |
| Total Litres .. .. .. | 3,60,596 |

*Number of distribution centres:* 1,662; Total number of consumers taking milk from scheme: a little over two million.

*Sale price of milk per litre:* Whole Milk Rs. 1·30; Cow Milk Rs. 1·30; Toned Milk Re. 0·60; Sterilised Milk Re. 0·25 per bottle of 200 c.c.

*Transport:* Insulated 169 motor vehicles; uninsulated 110 (including staff vehicles); Leylands 13 (including 5 tankers). Total 292.

*Water consumption* (daily): 18,16,000 litres (Aarey); 21,36,490 litres (Worli).

*Electricity* (Weekly): 52,500 units (Aarey); 89,600 units (Worli).

*Fuel Furnace Oil* (Weekly): 30,000 litres (Aarey); 33,000 litres (Worli).

*Bottles replaced* (Weekly): 10,000 (Aarey); 15,000 (Worli).

### The Aarey Milk Colony

Started: March 1949; Investments by the Govt. at Aarey: About Rs. 4 crores; By licensees at Aarey and outside in cattle: About Rs. 3 crores.

*Pasteurising Capacity (Central Dairy):* 18,000 litres per hour.

*Bottling capacity:* 40,000 bottles per hour.

Number of livestock as on 1-1-1965 (Aarey): In milk 15,975; dry 248; bulls 125; youngstock 4,472; dry animals outside the colony 14,517; total 35,337.

Number of Cattle-owners 208; Number of Dairy Farms 30.

### The Worli Dairy

Started: Nov. 7, 1961; Investment on land, buildings etc.: Rs. 98,59,000; Value of machinery supplied by UNICEF Rs. 70,05,000.

*Pasteurising Capacity:* 40,000 litres per hour; *Bottling capacity:* 50,000 bottles per hour.

The quantity of toned milk, double toned milk and sterilized milk for 1965 is lower than for 1964.

## LABOUR

Particulars about labour in Maharashtra State are given below:

Total number of registered factories as on Dec. 31, 1963: 9,516.

Number of Works Committees functioning as on 31st Dec. 1964: 206.

Average daily number of workers employed in factories as on Dec. 31, 1963: 8,58,780.

Number of towns covered as on Jan. 1, 1965 by the Bombay Shops & Establishments Act, 1948: 116.

Number of industries covered by the Bombay Industrial Relations Act, 1946 as on Dec. 31, 1964: 10.

Number of workers covered by the Bombay Industrial Relations Act, 1946 as on Dec. 31, 1964: 3,40,517.

Number of registered trade unions in the State as on March 31, 1964: 1,626.

Total membership of registered trade unions as on March 31, 1964: 12,59,661.

Number of regd. trade unions affiliated to I.N.T.U.C. as on March 31, 1964: 120.

Membership of unions affiliated to I.N.T.U.C. as on March 31, 1964: 1,79,336.

Number of regd. trade unions affiliated to A.I.T.U.C. as on March 31, 1964: 47.

Membership of unions affiliated to A.I.T.U.C. as on March 31, 1964: 72,523.

Number of regd. trade unions affiliated to H.M.S. as on March 31, 1964: 47.

Membership of unions affiliated to H.M.S. as on March 31, 1964: 1,86,048.

### THE MAHARASHTRA LABOUR WELFARE BOARD

Jambori Maidan, Worli, Bombay 18 (WB).

The Board is appointed by Government under Section IV of the Bombay Labour Welfare Fund Act (1953) every three years. The Dy. Minister for Labour is the Chairman of the Board and Welfare Commissioner is its Principal Executive Officer.

The number of welfare centres under the control of the Maharashtra Labour Welfare Board are 72. In addition, there are three sub-centres carrying out activities on a restricted scale. Activities of these centres include recreation through entertainment, games and sports, health programme through first aid and health education, community and social education, subsidiary occupations and handicraft for women, nursery schools and scouts and guides for children, creches for toddlers, Tailoring Classes, etc.

Along with the programme of mass recreation, health and education, there has also been an emphasis on skilled recreation with an educative bias.

Attendance for 72 welfare centres in the State during 1963-64 was 2,79,14,460 with a regular membership of 99,458.

*Industrial Disputes* (1964):

No. of strikes 616; No. of workers directly involved 2,56,372; No. of workers indirectly involved 23,091; No. of man days lost 15,94,160.

**Official Language:** Maharashtra Official Language Act, 1964 has been passed in the State Legislature and Directorate of Languages has nearly finalised the initial preparations like training of typists and stenographers, preparing administrative lexicon and other help books, etc. needed for the change-over from English to Marathi.

**Decentralisation of Administration:** In the State all villages have been brought within the fold of Panchayati Raj. Out of the total number of 38,437 villages, 38,259 villages have been covered by establishment of 20,287 Gram Panchayats. In addition 3,518 Nyaya Panchayats have been notified. Elections to these Nyaya Panchayats are in progress. So far (Sept. 1964) elections to 1,151 Nyaya Panchayats have taken place.

### BUDGET 1965-66

(See "State Budgets".)

## AGRICULTURE

Production of foodgrains in the State in 1962–63 was 67 lakh tonnes which is 16·6 oz. per capita per day. Production of cotton and groundnut was 2·29 lakh tonnes and 8·1 lakh tonnes respectively. Production of tobacco was 0·12 lakh tonnes in 1962–63. Production of foodgrains and cotton during 1963–64 are estimated at 67·45 lakh tonnes and 2·47 lakh tonnes respectively.

Sugarcane is grown in all the districts except the Konkan districts, the major cane growing districts being Ahmednagar, Kolhapur, Poona, Nasik, Satara, Sangli, Sholapur, Osmanabad and Aurangabad. These nine districts have about 3·04 lakh hectares under sugarcane yielding 9·73 lakh M. tonnes of sugarcane (in terms of gur) in 1962–63. Estimated production of sugarcane in 1963–64 was 11·49 lakh tonnes.

The Marathwada districts have nearly 6·52 lakh hectares under oilseeds, the corresponding figures for Vidarbha districts being 3·66 lakh M. tonnes. The western Maharashtra including Jalgaon has about 9·12 lakh hectares under oilseeds.

As regards cotton, the area and production in Marathwada, Vidarbha and Western region including Jalgaon is as follows: Marathwada: 7 lakh hectares, 5 lakh tonnes; Vidarbha: 15 lakh hectares and 10 lakh tonnes; Western region: 4 lakh hectares and 7 lakh tonnes.

Although the Konkan districts are lean in the production of food crops, they excel in horticultural wealth. Ratnagiri district has 9,200 acres under mangoes. Similarly, the district has 8,900 acres under cashewnut. Thana district is the home of bananas, with an acreage of 2,900. Nagpur oranges are well known. They are grown in Nagpur, Amravati and Wardha Districts, which have about 27,200 acres under them.

### LAND REFORMS

For the purposes of tenancy reform, Maharashtra State falls into the following main categories:—

(*i*) the former Bombay areas consisting of 13 district which are governed by the Bombay Tenancy and Agricultural Lands Act, 1948;

(*ii*) Vidharbha areas consisting of 4 districts of former Central Province and 4 Berar districts, governed by the Bombay Tenancy and Agricultural Lands (Vidharbha Region) Act, 1958;

(*iii*) the Marathwada area consisting of 5 districts governed by the Hyderabad Tenancy and Agricultural Lands Act, 1950.

The main provisions of these laws are more or less similar and they can broadly be grouped under the following five topics:—

(*i*) Security of tenure for tenants, (*ii*) Regulation of rent, (*iii*) Resumption for personal cultivation, (*iv*) Rights of ownership for tenants, (*v*) Land management.

The main provisions relating to security of tenure is that no tenancy can now be terminated merely on the ground of efflux of time. Rights of all tenants are also entered in the Record of Rights. A general provision has also been made laying down that whenever a landlord gets a right to obtain back possession of land he shall do so only through the revenue officer. Where

a tenant is dispossessed unlawfully he has right to seek restoration of possession generally within two years by making necessary application to the Revenue Officer.

All the three tenancy laws now provide that the rent shall be paid in cash and also lay down the maximum rate of rent in terms of multiples of assessment. In the Western Maharashtra and the Marathwada the maximum rate is fixed at five times the assessment while in Vidarbha it is four times the assessment. In the Western Maharashtra there is also a provision which requires the revenue officers to fix rate of rent (which has to be between the maximum limit of 5 times the assessment and minimum limit of 2 times the assessment) in respect of lands situated in any village or group of villages. In other areas the tenants are to pay rent at agreed rate subject to the maximum limit laid down by the Act. In case of dispute the reasonable rent is determined by the Revenue Officer. The rent so determined then remains in force for a period of five years. There is also a general provision that the rent payable by tenant in any year shall not exceed one sixth of the produce from the land in that year. The other important provision is that the landlord is now required to give receipt (in the prescribed form) for the rent received by him. Failure to pass such a receipt has been made a cognisable offence. In regard to default in payment of rent the law provides that the tenancy shall not be terminable unless the tenant has committed three such defaults and that the landlord has given necessary notice to the tenant on each such occasion. All the three tenancy laws contain provisions for compulsory transfer of ownership to tenants with effect from the prescribed dates on payment of reasonable price which is payable in annual instalments.

In order to provide for the more equitable distribution of land amongst the peasantry of the State, the Maharashtra Government has enacted the Maharashtra Agricultural Lands, (Ceiling on Holdings) Act, 1961. The Act was brought into force on the 26th of Jan, 1962. The Act seeks to impose a maximum limit or ceiling on the holding of agricultural land in the State and also contains provision for the acquisition of land in excess of the ceiling and its distribution amongst landless persons, small holders, co-operative joint farming societies and farming societies, etc. The enquiries to be held under the Act in respect of the holdings of the joint stock sugar companies in the State have been completed and necessary declarations and notifications notifying the surplus lands with the companies have also been issued. The surplus lands of these factories are ultimately to be granted to the joint farming societies. Pending formation of such societies, the Government has decided to entrust the management of these surplus lands to a Government owned Company. The Government has accordingly, promoted a private Limited Company, *viz.* The Maharashtra State Farming Corporation Ltd., with an authorised capital of Rs. two crores and issued capital of Rs. one crore (all of which is subscribed by the Government) for the management of the sugarcane farms of the sugar factories that are to vest in the Government under the Ceiling Act. There are in all 13 Joint Stock Sugar Companies in the State holding big sized sugarcane farms. So far (Nov. 1963), possession of the surplus lands of ten sugar factories have been handed over to the Corporation.

The programme of consolidation of small and uneconomic holdings was completed in 1,869 villages by the end of 1963, covering an area of nearly 31 lakh acres. In the western Maharashtra about 5,20,000 tenants out of 16 lakh tenants have till March 1965 become owners of ten lakh acres of land as a result of legislation for compulsory transfer of ownership from landlord to tenant.

## INDUSTRIES

**Engineering :**—In the field of engineering industry, there have been several notable developments particularly in the Bombay region. Some of these are machine tools like lathes, shaping machines, pillar drills, power hammers, metal cutting saws, steel and malleable iron castings, welding electrodes, electrical stampings, link chains, melting crucibles, umbrella ribs, steel furniture, safes and cash boxes, steel balls and copper roller engraving for textile industry.

Another feature is the beginning made in the manufacture of modern appliances like typewriters, refrigerators, wireless receiving sets, wooden and plastic cabinets and household electrical gadgets. Manufacture of modern equipment for agricultural plant protection, pressure stoves and lamps, stainless steel-pressed wares and equipment, industrial machinery for textile and chemical industries and fabrication of heavy structurals like transmission tower and pipe line, cranes, etc. has also developed in recent years.

The engineering industries located at Kirloskarwadi, Poona and Satara are known for their agricultural implements, engines and other products. There are about 63 units in the Poona division itself, manufacturing diesel engines, oil-engines, sugar-mill machinery, jeep trailors and tractors, non-ferrous utensils, agricultural implements, power looms, etc. In electrical engineering, the manufacture of electrical motors, transformers, cables for transmission and switch gears are worthy of mention.

**Sugar :**—Maharashtra is one of the major sugar-producing States in the country, having 28 sugar factories, with a crushing capacity of 53·20 lakh tonnes per year. They are located in the districts of Ahmednagar (13), Kolhapur (6), Poona (4), Satara (3), Sangli (1), Sholapur (3), Nasik (3) and Aurangabad (1).

One of the important features of this industry is the organisation of co-operative sugar factories. This is borne out by the fact that out of the total licensed 34 factories, 20 are co-operatives. A letter of intent has been granted to a sugar mill in Co-operative sector to be established in Osmanabad District.

**Industrial Alcohol :**—Allied to the sugar industry is the industrial alcohol industry, which can be developed from the molasses available from sugar factories. Out of about 152·4 million litres of alcohol made wholly from molasses in the country, 33·47 mil. litres are made in the 8 distilleries located in the Poona Division. In view of the increasing demand for power alcohol for industrial purposes, the State Government has in 1962 put up a new and bigger distillery at a cost of Rs. 71 lakhs at Chitali, in Ahmednagar district in the place of the old unit at Nasik. The new distillery has an installed capacity of about 2·7 million gallons per year.

**Chemicals :**—The chemical industry in Maharashtra is developing fast, heavy as well as light.

For dye-stuffs Bombay and Thana are the main centres manufacturing a wide range of products. Ceramic and glass, gases, oils and soaps, paints, pigments and varnishes, food products, rubber goods and other chemical industries also follow the same pattern.

**The Automobile Industry :**—Bombay is progressively undertaking the manufacture of cars, utility vehicles and scooters in three large assembly plants. The ancillary industry manufacturing component parts is also steadily developing under the patronage of the automobile industry. The **Bicycle Industry** is also making headway, having an annual licensed capacity of 2,30,000 bicycles.

**Paper Mills :**—There are in all five paper mills in Maharashtra, one in Bombay, one at Khopoli, one each at Poona, Ogalewadi and Ballarpur. The Ballarpur mills have plans of expansion. One more unit has been licensed for manufacture of paper and pulp in Ratnagiri Dist.

**Oil Mills :**—Groundnut being one of the important cash crops in Nagpur and Aurangabad Divisions, there are several oil mills located in these regions. In Aurangabad Division itself, there are 45 independent oil mills, Pachora and Amalner having oil hydrogenation plants. In Nagpur Division, there are about 55 oil mills. Akola and Shegaon in this Division have one oil hydrogenation plant each. In Bombay Division, the oil milling industry is concentrated in Jalgaon, Dhulia and Nasik Districts where there are 35, 37 and 17 oil mills respectively. In addition, most of the ginning and pressing factories in the cotton growing tracts, which grow groundnut also, have oil mills for off-season working.

Ginning and pressing is an important processing industry serving the cotton growing areas. There are about 463 such factories all over the State, a large number of them, having been located in Nagpur Division. A little over 84 ginning and pressing units are spread over the entire cotton-producing area in Aurangabad Division giving seasonal employment to over 7,000 persons. In Bombay Division, 22 ginning and pressing factories are located in Dhulia District and 61 in Jalgaon District while there are 75 such factories in Poona Division.

**Petrochemical Industry:**—The organic chemical industry in India has so far been based upon the fermentation of alcohol, acetylene from calcium carbide and benesene and allied products from coal-tar. With the setting up of petroleum refineries in the country, there is scope of utilising petroleum naphtha for production of intermediates required for the organic chemical industry. One petro-chemical complex is expected to come up near Bombay in the Trans-Thana-Creek area. In this complex several organic products such as ethylene oxide, diasetone alcohol, P.V.C. etc. will be produced with petroleum naphtha as the starting material.

**Textiles :**—Thirty per cent of the total spindle capacity and 40 per cent of the loom capacity of the Country is in Maharashtra. The total number of mills in the State is 92 (14 spinning and 78 composite) with a capacity of 42,50,000 spindles and 82,181 looms.

Of this, 62 mills constituting 80 per cent capacity are in the city of Bombay.

In addition, there are also 2 lakhs of handlooms and about 50,000 to 60,000 powerlooms. The total number of workers employed is as follows :—

| | |
|---|---|
| Organised Sector | 2,68,601 |
| Handloom Sector | 2,50,000(approximately) |
| Powerloom Sector | 1,50,000 ( —do.— ) |

Maharashtra occupies an important place in the field of growing of cotton in the Country. Of the total production in the Country, about 25 per cent is produced in the State, amounting to 14 lakhs of bales. The quality of cotton is mostly short and medium staple. Recently growth of long staple cotton has picked up in certain irrigated tracts in the District of Ahmednagar.

## MINERALS

The rich deposits of iron ores, estimated to be of the order of about 89 lakh tons, located in Vidarbha and Konkan, very large deposits of manganese ore, both of high and low grade, occurring in Vidarbha, particularly Nagpur and Bhandara districts, extensive deposits of bauxite, estimated about two crore tons in Kolhapur district alone, as also in parts of Ratnagiri, Thana and Kolaba districts and coal reserves of over 428 crore tons in Vidarbha, constitute the mineral wealth of Maharashtra.

In addition to these major minerals, there also occur other minerals like ilmenite, chromite, mica, silica, limestone, clay, etc.

**Iron ore :**—Very rich deposits of iron ore, estimated to be of the order of about 89 lakh tons, are located in various parts of Maharashtra, particularly in Ratnagiri and Kolaba districts and in Vidarbha region.

Important occurrences of iron ore are located in Ratnagiri District in Bombay Division, round about in Vengurla taluka and Bandapeta in Sawantwadi taluka. The overall potential appears to be enormous, the iron content in

them varying from 45 to 66 per cent. A few mining concessionaires are already working in the Redi area and the present annual output is about three lakh tons. Patches of iron ore, lateritic or otherwise, are also known to occur in Kolaba district, round about Janjira.

Nagpur region, however, seems to be rich, not only in manganese and coal deposits, but also in iron ore. Those occurring in Chanda district are the most important, both in extent and quality. They occur at places like Lohara, Asola, Dewalgaon, Bissi, Pipalgaon, Ratnapur and Surajgarh.

**Manganese :**—The Vidarbha region has very large deposits of manganese ore, both of high and low grade. There are 231 working mines exploiting manganese ore in various parts of Nagpur and Bhandara districts, which are the main manganese producing areas of Vidarbha. Most of the areas bearing high grade ore have already been leased out. For the present, almost the entire quantity of manganese ore produced is exported in raw condition. However, recently, two ferro-manganese plants which will utilize a sizeable quantity of the ore have been set up in Nagpur and Bhandara districts.

In Bombay division also, the manganese ore appears to be occurring almost side by side with the three iron-ore belts running parallel in Ratnagiri district.

**Bauxite :** Kolhapur district has rich deposits of bauxite. More than 3·4 crore tons of bauxite exist in this zone. They occur at Udgeri, Dhangarwadi, Rangewadi, Radhanagari, Waki, Gargoti, Panhala, Ajara and Vishalgadh all in Kolhapur district.

In Bombay Division, bauxite occurs in Ratnagiri, Thana and Kolaba districts. The deposits of Ratnagiri lie in the up-ghat region at Amboli. The reserves were estimated at over 50 lakh tons. The ore occurs at Tungar hills and in the Borivli, Jogeshwari and Goregaon area. In Kolaba district, bauxite deposits of good quality have been reported at Dohane, Ambegaon and Wakalghar in Murud taluka and Wave and Shinona in the Shriwardhan taluka.

**Coal :**—Coal occurs at Kamptee in Nagpur district and in the Wardha valley. The Wardha valley comprises the Bandar, Warora, Majri, Rajura, Chanda (Durgpur, Mahakali, Babulpeth and Lalpeth), Ghugus and Ballarpur fields. The deposits are, however, of the second grade as compared to the Jharia grade and are of non-coking variety. At present, about 10 coal mines are being worked in this area. The Bhandar reserves are estimated at 10 crores and 80 lakh tons, while the Warora field reserves are roughly over 1 crore and 20 lakh tons. The reserves of the Rajura and Wani coal fields are of the order of 29 crore tons.

In Nagpur district, coal has been proved at Tekadi and Juni Kamptee. The exact reserves may be of the order of 30 crore tons. Areas between Kanhan and Saoner are likely to contain extensive deposits of coal. Mining operations have been undertaken at Kamptee. However, the present production is diverted exclusively to the Khaparkheda thermal power station.

Thus the total coal reserves in the Vidarbha region are of the order of 428 crore tons.

**Limestone :**—The Marathwada region has limited mineral resources, which consist chiefly of building stones, semi-precious stones, zeolites and material for lapidary industry. Limestone deposits have, however, been discovered south-west of Mohada in the Kinwat Taluka of Nanded district. The reserves are provisionally estimated at 6·60 lakh tons.

Important deposits of limestone occur in Nagpur Division, limestone deposits are located near Rajura in Yeotmal district and Warora in Chanda district. In Chanda district, limestone occurs a quarter of a mile north-west of Purkepar village, about four miles east of Nawargaon. It also occurs in Kondala village and at Wardha. The estimated reserves of Chanda district are of the order of 10 million tons of workable lime stone, suitable for cement manufacture. The estimated reserves of Yeotmal District are of the order of 4,000 million tons.

In Poona Division, limestone has been located at Kallur, Nandur, and Khanderawadi in Ahmednagar district. The reserves have been estimated to be only 10,000 tons. Recent surveys reveal good deposits of limestone in the Miraj taluka of Sangli district.

Limestone deposits are also known to occur in Ratnagiri district to the south-west of Phonda ghat and in the high hills of Hanumat ghats. Limestone patches occur right from Dabhol to Panvel, Malad to Bassein and Palghar to Dahanu.

The distribution of some other ores are :—

**Ilmenite :** Ratnagiri District (between Ratnagiri and Jaygadh) ; estimate 20 lakh tons ; near Yerangal in Borivli Taluka and near Bassein in Thana.

# GREATER BOMBAY

The area of Greater Bombay is 186 sq. miles and the population 4,152,056 (1961 Census).

The area of Bombay City is 26 sq. miles and the area of the Bombay Suburban District is 160 sq. miles. For population see under "Population".

The northern boundary runs from the north of Dahisar village in the west, in the centre between the milestones 21 and 22 on the Agra Road, and in the east north of Mulund Municipality.

The municipal area of Greater Bombay described above is also the area covered by Bombay City and the Bombay Suburban District from the point of view of revenue division.

The Collector for Bombay City is also the Collector for the Bombay Suburban District. Bombay City Collectorate is directly under the Government and is governed in accordance with the provisions of the Bombay City Land Revenue Act of 1876.

The Bombay Suburban District has besides the Collector, one Additional Collector, one District Deputy Collector, one Additional District Deputy Collector and three Mamlatdars one for each of the Talukas Andheri (also called South Salsette) with headquarters in Andheri, Borivli with headquarters in Borivli and Kurla with headquarters at Mulund (with effect from Aug. 16, 1962). The headquarters of the Additional District Deputy Collector is at Andheri.

There are 30 Presidency Magistrates Courts and 8 Courts of Honorary Presidency Magistrates. Two Courts are created for the trial of railway cases of Central and Western Railways. There are 10 Police Divisions, 34 police stations and four sub-police stations.

### AGRICULTURE

In Bombay Island proper though about 8 sq. miles of unbuilt and undeveloped land is available there is practically no agriculture. Vegetables, flowers and fruit are grown in private gardens and wadis but on a very negligible scale. In the newly merged areas and the adjoining suburbs, however, extensive paddy cultivation is carried on. Vegetables and fruits are also grown especially during the monsoon. The produce is largely marketed in Bombay.

### COMMERCE AND INDUSTRY

Commercially and industrially Bombay is the second, if not the first City in India. It is the principal centre of the cotton textile industry (60 cotton mills with 62,290 looms and 32,78,480 spindles). Its share in looms and spindles is 30·80 per cent and 22·35 per cent respectively of the total in the country. There are over 566 textile factories including silk, woollen and hosiery ; over 986 engineering undertakings ; over 146 establishments manufacturing articles of food, drink and tobacco ; over 256 establishments producing chemicals, etc. ; 19 hides and skins processing concerns, and over 2,000 factories of a miscellaneous character.

On the total it is reckoned that there are 1,831 factories employing under 20 workers ; 1,213 factories employing between 20 and 50 workers ; 1,125 employing between 50 and 500 ; and 145 employing between 500 and 5,000 workers. The number of persons engaged in organised industry in the year 1962 was 5,22,862.

Of the population it is reckoned that 260,000 are in public employment ; 445,000 in organized industry ; 340,000 in commercial business ; 150,000 in establishments that come under the Shops and Establishment Acts.

After Calcutta, Bombay is the biggest financial centre in India. The Stock Exchange, Bullion Exchange and Cotton Exchange regulate trading in stocks and shares of a wide circle of industrial undertakings. The Reserve Bank of India, the central banking and currency authority has its Central Office in Bombay. 29 Indian Scheduled Banks operate in Bombay. Of these four have their Registered offices here. There are 13 foreign Scheduled Banks. Of these seven have their principal offices located in Bombay. The head office of the Life Insurance Corporation of India is also located in Bombay.

Being the best natural harbour in India, the trade carried through Bombay is about 46 per cent of the total trade of India. The principal

items of import are bricks, cement, sand, etc.; China clay; coal; cotton; glassware; grain; hardware; iron and steel; kerosene; fuel oil; motor vehicle parts; machinery; boilers and railway materials; oilman stores; oils; vegetables, etc.; paper; piece-goods; petrol; sugar; timber; twist and yarn; Government and naval and military stores.

The main exports are coal; cotton; flour; groundnuts; hemp; hides and skins; kerosene and fuel oils; manganese ore; myrobalans; oil-cake; piece-goods; seeds; spices; sugar; wool packages; twist and yarn; Government and naval and military stores.

The total returns to the Central Government from Greater Bombay in customs revenue is about 49·66 per cent of the total revenue from the seaborne and air borne trade of India. The income-tax return to the Central Government from Greater Bombay is about 31·82 per cent of the total income from the country. The Corporation Tax amounts to about 42·5 per cent of the total collections in Gr. Bombay.

### COMMUNICATIONS

From the communications point of view Bombay holds a unique position. There are numerous air routes connecting Bombay with the rest of the country, and it is also directly linked with foreign countries aerially. The head offices of two chief railway systems, the Central and Western Railways are in Bombay which is rail linked with Calcutta, Delhi, Nagpur and Madras. It is the second biggest port and the chief sea communications centre of India. Greater Bombay's transport requirements are met by the local services of the two railways, Central and Western, besides the bus services of the municipalised Bombay Electric Supply and Transport Undertaking.

### HOUSING

Statement showing the number of tenements constructed by the Housing Board from April 1, 1947 to Dec. 31, 1964 in the Greater Bombay area, under the respective groups: Old industrial housing scheme 2,608; scheme for B.S.O.R. 500; old low income group housing scheme 2,075; military hutments 1,575; subsidised industrial housing scheme 24,026; rehabilitation works 19,715; new low income group housing scheme 5,100; slum clearance scheme 9,038; housing scheme for dishoused persons 200; middle income group housing scheme 1,342; economic weaker section housing scheme 566; acquisition and development of lands 368 acres; Juhu-Vile Parle development scheme 426 acres; Total expenditure incurred during the above period for the whole State Rs. 2,967·38 lakhs. This is exclusive of overhead charges and the expenditure incurred on the works transferred to Gujarat Housing Board due to bifurcation.

Total number of households: 568,862.

22,695 households were examined in a sample survey. The number of persons living in them was 107,282—66,530 males and 40,752 were females.

Out of these households, the number of small households (3 members and less) was 9,110, and the number of persons living in them was 18,518; of medium households (4 to 6 members) 8,238, and the number of persons 39,699; of large households (7 to 9 members) 3,656, and the number of persons 28,454; of very large households (10 and above) 1,691, and the number of persons 20,611.

## THE GREATER BOMBAY CORPORATION

THE municipal area of Greater Bombay is now divided into 14 administrative wards. These are A, B, C, D, E, F (North); F (South); G (North); G (South); H; K; L + M; N + P; R + T.

For election purposes the municipal area of Greater Bombay is divided into 44 electoral wards—numbered 1 to 44.

From a demarcation point of view one or more electoral wards would go to make one administrative ward.

The municipal government of Greater Bombay vests in the Municipal Corporation, composed of 131 representatives elected on adult franchise.

The Corporation has four statutory committees, the Standing Committee, the Improvements Committee, the Bombay Electric Supply and Transport Committee and the Education Committee.

The executive power in regard to general municipal administration vests in the Municipal Commissioner. The administration of the B.E.S.T. Undertaking, however, vests in the General Manager, B.E.S.T.

The Corporation is required to meet at least once a month. In actual practice it meets twice a week and oftener if necessary. Meetings of the Corporation are presided over by the Mayor who also convenes the meetings. The Mayor's term of office is one year and he is elected at the first meeting in April.

The Corporation has decided to adopt the Maharashtra State Legislature Assembly Roll and constituencies for Greater Bombay for holding the next municipal general elections (expected to be held in March 1966) on the basis of single member constituencies (120 wards).

### COMMITTEES

The Standing Committee consists of 17 members, 16 of whom are elected by the Corporation. Half the members retire at the end of each year. The Chairman is elected by the members of the Committee at the first meeting in April every year. The main functions of the Committee are to sanction contracts, to scrutinize the budget and establishment schedule, frame service regulations, sanction investment of funds, prescribe the form of keeping accounts and conduct their scrutiny. The Committee meets once every week, usually on Wednesdays.

The Improvements Committee consists of 16 Councillors, all of whom are elected by the Corporation. The Chairman is elected for a term of one year, while half the Councillors retire at the end of each year. The Committee is charged with all improvement and development schemes, slum clearance, providing accommodation for the poorer classes and purchase and sale of land which does not exceed Rs. 50,000. The Committee usually meets once a fortnight on Tuesdays.

The Bombay Electric Supply and Transport Committee consists of nine members, one of whom is the Chairman of the Standing Committee (ex-Officio), while the remaining members are appointed by the Corporation from among persons who (may or may not be members of the Corporation) have experience of administration, transport or electric supply, or of engineering, industrial, commercial, financial or labour matters. The Chairman is appointed by the members for a period of one year, while half the members retire every second year. The Committee usually meets every Friday. The Committee exercises general control over the electric supply and transport undertakings of the Corporation.

The Education Committee consists of 16 members, of whom 12 are Councillors and 4 non-Councillors of whom two have to be women. The Chairman of the Committee is elected for a period of one year, while half the members retire at the end of each year. The

Committee usually meets on the first Friday of every month. The main function of the Committee is to administer the Primary Education Act or any other law for that purpose for the time being in force.

Besides the Statutory Committees mentioned above there are four Special Committees appointed by the Corporation. These are : 1. the Works Committee, 2. the Medical Relief and Public Health Committee, 3. Markets and Gardens Committee, and 4. Law, Revenue and General Purposes Committee. Each Committee consists of 24 Councillors appointed by the Corporation after each general election. There are a Chairman and a Deputy Chairman for each Committee who are elected by the members and who hold office for one year. All questions that are due to go before the Corporation must first be considered by the appropriate Special Committee which then makes its recommendations to the Corporation.

Then there are a number of *ad hoc* Consultative Committees appointed from year to year, to which the Corporation can refer any matter for consideration and report.

The four most important officers of the Corporation are the Municipal Commissioner, the General Manager of the Undertaking, the Municipal Secretary and the Municipal Chief Auditor.

The Municipal Commissioner is at the head of the Civic Administration. He is usually a senior member of the Indian Civil Service and is appointed by the Government for a renewable period of three years. He can be removed by the Corporation by a five-eighths vote. If however Government desire to revert him to their service the consent of the Corporation is necessary. He attends meetings of the Corporation and Committees but does not vote. He is assisted by four Deputy Municipal Commissioners.

The General Manager of the Undertaking is in the same position to the Electric Supply and Transport Undertaking as the Municipal Commissioner is to the Corporation as a whole. He is appointed by the Corporation subject to the approval of the State Government for a renewable period of not more than five years at a time. He can be removed by the votes of not less than half the total number of Councillors. He attends the meetings of the B.E.S.T. Committee and takes part in the discussions but does not vote.

The Municipal Secretary is in charge of all the secretarial work pertaining to the Corporation and its Committees. He is independent of the Commissioner and is directly under the Standing Committee.

The Municipal Chief Auditor is also independent of the Commissioner and is directly under the Standing Committee.

## EDUCATION AND MEDICAL RELIEF

Primary education is free and compulsory in the Lower Primary standards of Municipal Schools all over Greater Bombay. It is the special responsibility of the Corporation.

But only about 88 children out of 100 receive an education.

From 1958 the benefit of free education was extended to the upper primary classes too.

There were in June, 1965, 900 Municipal Schools and Classes conducted by the Education Committee and 485 Aided or Recognised Schools to which the Corporation makes or gives recognition. The total number of pupils in all Primary Schools was about 6,00,000 out of whom 4,80,000 were in Municipal Schools and the rest in other Schools. The Corporation spent about Rs. 5·4 crores on primary education in 1964–65. Of this Government contributed Rs. 65 lakhs. There was a net increase of 30,000 pupils in Municipal Schools during the year.

To meet the growing expenditure on primary education the Corporation decided for the first time in 1958 to levy an education cess at 1¼ per cent. Education cess collected during 1963–64 was Rs. 59,60,778.

The Municipality maintains the Victoria and Albert Museum at Victoria Gardens and 14 libraries.

*Medical Relief :* The Municipality runs one large hospital for infectious diseases (except tuberculosis, veneral disease and leprosy) at Sane Guruji Road and three other large general hospitals in the City proper (K.E.M.; Nair and the Lokamanya Tilak Hospital, previously known as the Sion Hospital) and a group of hospitals for the treatment of tuberculosis at Sewri, an isolation centre at Dadar and four clinics and an ear, nose, throat hospital at Napier Road. Altogether 1,048 beds are reserved for T.B. patients. In the Suburbs there are four general hospitals and 1 T.B. Clinic and 300 beds reserved for T.B. patients. Medical treatment is administered also through 58 general dispensaries, 2 Ayurvedic dispensaries, 1 Unani, 6 women's and children's clinics, 9 Mobile Hospital Units, and 17 Maternity Homes. Anti-rabic treatment is given free of charge at the K.E.M., Nair and Lokamanya hospitals as well as the Bhabha Hospital at Bandra and the Municipal General Hospital at Ghatkopar (at Rajawadi).

The two-storeyed eye Hospital at Kamatipura undertaken in 1960 started functioning from May 1962. The old 12-bed hospital and dispensary have been shifted into the new hospital. Built on modern lines it has a 36-bed accommodation.

## WATER SUPPLY

The water supply of the City is drawn from four lakes : Tansa, Vaitarna, Vihar and Tulsi. The Tansa Lake combined with Vaitarna has a maximum supply capacity of 210 million gallons per day and is the main source of water supply. It is situated about 66 miles north-east of Bombay. The Vihar Lake can supply 20 million gallons a day exclusively to the north-east part of the City and also partly to Chembur and Kurla. It is situated about 18 miles north of Bombay. The Tulsi Lake which is to the north-west of Vihar Lake supplies 3 million gallons a day.

Under Section 140 of the Bombay Municipal Corporation Act the Corporation can levy water tax on buildings, lands and premises in the City. The tax is fixed as a certain percentage of the rateable value of the building, land or premises. The rate in 1958 was 3¾ per cent which has been increased to 4½ per cent. Under Section 169 the water supplied can also be charged on meter measurement and at the rates prescribed from time to time by the Standing Committee. Water tax is the first charge on a property under Section 141, and can be recovered from the owner by distress (Sections 203, 204) and is also recoverable from tenants by authorizing them to make payments from their rents (Section 209). The supply of water to any premises can be cut off in default of payment of water tax or any sum due for water or hire of meter or expenses of work done (Section 279(1)(*a*)). Copies of Water Charges Rules can be had from the Public Relations Department on payment of a sum of 50 nP. per copy.

The obligatory duty of the Corporation to supply an adequate quantity of water relates to the provision of supply only up to the boundary of the premises, as distinguished from the distribution of water within the premises. Any premises can be served by means of one communication pipe, the size of which depends upon the quantity of water needed in the premises. The owner can have separate connections to each floor provided he pays the cost of all the connections but one.

If the Municipal Commissioner finds that any premises are not provided with an adequate supply of pure water he has the power under Section 271(2) to compel the person who pays the property tax to obtain an adequate supply from Municipal Water Works and carry out all such works as is necessary for a proper distribution of water.

No one except a licensed plumber can undertake work on water-pipes and fittings and no person can allow any such work to be done by anyone except a licensed plumber.

For purposes of distribution Bombay is divided into four divisions, *viz.*, area getting supply from (*a*) Malabar Hill Reservoir (*b*) Bhandarwada Hill Reservoir (*c*) Worli Hill Reservoir (*d*) and direct supply.

A five million-gallon reservoir at Worli Hill, undertaken in 1960 was put into commission in October 1961. To be filled twice daily, the reservoir, under ideal conditions, is expected to supply 10 million gallons of water to that portion of "G" ward comprising mainly of Abdul Gaffarkhan Road, Worli B.D.D. Chawls, Housing Board Estates, Fergusson Road, Haines Road, Clerk Road, Prabhadevi.

Central Control Division (at Babula Tank) consists of the localities of Kalachowki Road, Reay Road, Coal Bunder in the north, on the eastern coast up to Carnac Road, Abdul Rehman Street, Kika Road, Falkland Road and part of Grant Road up to Lamington Road in the south, in the west Lamington Road and Arthur Road and finally some areas of Dongri and Mandvi and Mazagon. The whole of this Division is supplied from the Bhandarwada Hill Reservoir. This division, as the name implies, controls the supply and distribution of water right from the lakes upto the distributing mains.

The amalgamated areas of the former Bombay Suburban District are supplied water by gravity through several tapping points on the trunk mains coming from the lakes. For distribution purposes, the areas are divided into two zones, viz., the western and eastern zones. The former get their supply from tappings on the east and west Tansa and Tulsi mains between Marol and Bandra, and the latter through tappings on the West Tansa mains, the Vihar mains and Tansa mains. The supply is throughout metered.

Total water supplied to Greater Bombay per day : almost 210 million gallons.

But the present requirements on account of growing industrialisation and the increase in population is much more than can be presently supplied. Among the schemes envisaged to augment the present water supply are : Rs. 3·5 crore Dahisar river dam, which is expected to yield 6 million gallons of water per day ; construction of a dam on the Upper Vaitarna river, the expenditure of about Rs. 23 crores which is to be borne jointly by the Corporation and the State Government ; and schemes contained in the Master Plan of Greater Bombay.

The Tansa supply is chlorinated at the Chlorination Plants of Powai and Ghatkopar, while the Vihar supply is sterilized at Powai.

There is regular bacteriological and chemical analysis of water carried out by the Municipal Analyst.

## PUBLIC HEALTH DEPARTMENT

The Public Health activities are carried on under the direct control and supervision of the Executive Health Officer. The Department is divided into several branches such as environmental sanitation, food, sanitation and food adulteration, vital statistics, regulation of places for disposal of the dead, prevention and control of communicable diseases, maternity and child hygiene, family planning, medical relief and health propaganda.

Environmental sanitation comprises inspection and supervision of premises, provision of public sanitary conveniences, sanitary control over factories, licensable trades, overcrowding.

The veterinary staff inspects the stables in the city and are also in charge of the bullock hospital and segregation sheds in Mahalaxmi.

For purposes of sanitation, registration and vital statistics the Gr. Bombay is divided into 19 divisions, 12 in the city proper, each under a Medical Inspector, and 7 in the suburbs under 5 Medical Health Officers of Health.

For the hygienic control of foodstuffs including milk trade there are Milk Sub-Inspectors and Sanitary Inspectors. Since the Prevention of Food Adulteration Act, 1954, came into force in 1955, sampling of food including milk has become more elaborate than before. In addition to the usual Food Inspectors, a mobile squad of surprise "Sampling with Swiftness" has been at work to control adulteration of food through sampling.

For pest control there is an Insecticide Branch.

The vaccination staff includes a Superintendent, a Head Vaccinator, a number of Vaccinators including a Lady Vaccinator. There are 89 public vaccination stations 7 of which work daily at : 1. The Central Vaccine Dept., Parel. 2. The Sanitary Institute Building, Princess Street. 3. Municipal Suburban Offices, Waterfield Road, Bandra. 4. Andheri Maternity Home, Andheri. 5. Seth N. L. High School, Malad, 6. Kasturba Hospital, Sane Guruji Road, 7. Ferry wharf (closed from June 1, to Sept. 30). The remaining centres work on one day every week by rotation for about 2½ hours.

Hygiene includes maternity and child welfare, family planning and school health.

There are 17 Maternity Homes in Greater Bombay and two maternity wards in general hospitals, each in charge of a Lady Medical Officer. A number of Health visitors do the follow-up work and ensure domiciliary care under the direction of the Lady Medical Officers. A small maternity unit is conducted at Dharavi. Expectant mothers are encouraged to attend ante-natal clinics, of which there are 37 in number. Maternity Homes in the City are at Cadell Road, Victoria Road, Bellasis Road, Khetwadi, Imamwada Road and Naigaum. And child welfare clinics are conducted (besides the Maternity Homes) at Fergusson Road Dispensary, Dadar Main Road Dispensary, Ambewadi Dispensary at Parel Tank Road, District Dispensary at Souter Street, Tardeo Flats Dispensary, District Dispensary at Charni Road, District Dispensary at Panjrapole, Palton Road Stables Dispensary, District Office at Kolsa Mohalla. Six child welfare clinics, two well-baby centres and three paediatric centres are conducted at Maternity homes.

There are Family Planning Clinics at 264, Charni Road; Bai Gulbai Choksy Dispensary at Dr. D'Silva Road, Dadar; Bellasis Road Maternity Home; Victoria Road Maternity Home; Imamwada Maternity Home; Cadell Road Maternity Home; and Khetwadi Maternity Home; Municipal General Hospital, Sion; and 27 other Centres.

Instruction and advice in the spacing of births are given at the family planning clinics. Operative procedures are done at the larger Municipal hospitals as well as at Naigaum Maternity Home on a voluntary basis only.

School Health Work is limited to Municipal Schools only and is under a Medical Officer. Children found to have defects are taken for treatment in school buses to the school clinic at K.E.M. Hospital. Dental care is given at the Dental Clinic at the Bai Yamunabai L. Nair Hospital. All children in municipal schools are given free milk on working days.

The Public Health Laboratory which is under the charge of a Municipal Analyst conducts routine and special examinations of water, sewage, food, urine, blood and sputa of patients at Municipal Institutions. There is also a Health Museum maintained for the education of citizens.

The Conservancy Branch is under the City Engineer, who is assisted by a Public Health Engineer. Under him are Supervisors, Senior Overseeas. Junior Overseers, Depot attendants, etc.

Conservancy includes cleansing of streets, etc., removal and disposal of refuse, destruction of rats and dogs, veterinary service, removal of carcasses, disinfection, ambulance and so on.

The Veterinary staff is under a Senior Veterinary Inspector, who has a number of Junior Inspectors and qualified veterinary surgeons.

Medical Relief is given at the following hospitals: K.E.M., Nair Lokamanya Tilak Hospital, R.P.T.B. and Kasturba Hospital, at 58 Municipal General Dispensaries, nine Mobile Hospital units and one Eye Hospital and dispensary.

## WELFARE WORK

To stimulate civic awareness and promote closer contact with the public, the Corporation has been running an illustrated English monthly called 'The Bombay Civic Journal' from March 1954. It deals with the activities and problems not only of the Bombay Municipality, but also of other local bodies all over the country and seeks to foster 'an objective discussion of civic issues and the larger questions relating to local self-government from the national angle'.

Another new development has been the starting of a Public Relations Department in February 1956. This department, besides doing educative publicity through films, posters, pamphlets, press notes etc., has also been issuing useful booklets for the guidance of citizens.

The Corporation has been a pioneer in many spheres of civic activity. It was the first in the country to experiment with adult franchise, introduce free compulsory education at the primary stage, extended in 1958 to the upper primary classes, to own and administer urban transport and electric supply, to undertake trading, supply free milk and snacks to under-nourished school children, and to promote family planning.

Other notable activities of the Corporation have been the institution of a permanent Mayor's Fund for the relief of distress, starting of physiotherapy and occupational therapy schools and centres, and several new ventures in medical relief, education and research; conducting of three medical colleges and a dental college, running of a general museum, the creation of a family health centre and a health museum, and the running of a regular monthly publication, 'The Bombay Civic Journal', for publicising the activities of the Corporation and of other civic bodies and for promoting discussion of civic issues.

Other activities include the production of films for health education, the introduction of various modern devices for traffic movement, starting of a unit for research in primary education, the opening of a municipal bank, the building of two open-air theatres for the recreation of citizens, holding of civic exhibitions, organisation of Health and Cleanliness Weeks, conducting of seminars, two fly-overs, establishment of an electric crematorium, construction of sub-ways and the starting of a department of preventive and social medicine at the Topiwala National Medical College and a convalescent home at the K.E.M. Hospital and maintenance of a swimming pool.

A vast new five-storied structure, designed to accommodate the numerous scattered departments of the Corporation, was built by the side of the old head office and declared open on February 5, 1958.

The City Engineer's, the Special Engineer's and the Hydraulic Engineer's departments are all now housed in the new building.

The new building has lounges, party rooms and committee rooms for Councillors and also accommodates the Public Health and Public Relations Departments, the Municipal Secretary's office, the Election and Town Duty Dept., the Shops and Establishment Dept., Licence Dept., Conservancy Branch, Labour Dept. and the Civic Journal Dept.

The Corporation, however, continues to meet in the Corporation Hall in the old building.

The administration of the suburbs was put under a Deputy Commissioner with offices in Bandra.

# ASSOCIATIONS (TRADE & COMMERCIAL) IN GREATER BOMBAY*

## ADVERTISING AGENCIES ASSOCIATION OF INDIA

111A, Mahatma Gandhi Road, 2nd Floor, Opp. Rajabhai Clock Tower, Bombay, 1.

The Advertising Agencies Association of India, was established in 1945. Since then it has contributed to improve the standards of advertising in India. The following are among the various objects for which the Association was formed :

(*a*) To raise and improve the standard of publicity and advertising by all practical means ; (*b*) To encourage and preserve a high standard of industrial design ; (*c*) To arrange for educational courses in the profession of advertising for its members and others ; (*d*) To encourage and maintain a high level of business and professional integrity among advertising agencies and their suppliers ; (*e*) To encourage and secure friendly relations and unanimity amongst members of the advertising profession and advertising agencies all over the world. The Association issues a monthly bulletin which contains information of interest to members of the profession and those interested in advertising. Copies of the bulletin are sent to a number of overseas countries.

With a view to promoting healthy competition and the standard of advertising, the A.A.A.I. has adopted a 'code of standards of advertising practice' which covers advertising ethics vis-a-vis the customer and the advertiser.

Membership of the Association is open only to an organisation, firm or company which practices advertising and has permanent office within the territory of India and Ceylon and which confirms and agrees to conform to the minimum standards of business practice and professional skills as may be prescribed by the Association, from time to time.

Associate membership is open to an organisation, firm or company which operates as an advertising agency but has no permanent office within the aforesaid territory.

Affiliate membership is open to such advertising agencies which are operating within the territory covered by the Association and which do not fully come up to the standard of full fledge membership. Affiliate members must qualify for full fledge membership within two years from the date of admission.

* In the case of some associations, besides the title and the address a short note is added about their aims, etc. This is generally done where the aims, activities, organization are not immediately obvious from the title. Also, when an association appears for the first time in our book, a note is generally added. The addition of a note is not necessarily an indication of the relative importance of the association, that is, in relation to others.

Two points should be kept in mind : office-bearers may change ; addresses given may sometimes be in the nature of a reference specially where we say c/o.

## HAPPY HOME & SCHOOL FOR THE BLIND

B. D. D. Chawl 52, 3rd Floor, Worli, Bombay 18.

This charitable residential institution for blind boys between 6 and 20 and fully secular, is the only one of its kind to provide for street blind and delinquents. It was started in 1925. It aims at giving educational and vocational training to blind juvenile boys. Music both instrumental and vocal as well as cane-work, weaving, net-work, sewing, knitting, elementary handicraft, clay modelling, dramatics, physical culture, scouting, etc. are taught, with a view to making them self-supporting. It gives general education in Marathi and Gujarati upto the 7th Standard. Hindi and English are also taught. Bright students are sent out to normal high schools to study upto S.S.C. since 1959. Special attention is paid to developing the character of inmates and turn them into useful citizens thus saving them from becoming beggars.

There are 60 inmates with room for 60, funds permitting.

## BOMBAY LABOUR INSTITUTE

(Government of Maharashtra)

Dadabhoy Chamarbaugwala Road, Parel, Bombay 12.

*Director :*—Prof. V. B. Kamath, M.Sc. (Bom.), B.Sc. (Spl.), London, F.S.S. (London).

*Registrar :*—M. J. Naik, M.A., (Dip.) S.S.

The Institute was started in 1947 with the purpose of organising leaders for labour and social work. Till 1955, 9 months and 3 months courses were conducted for the same for which students from all over India and candidates nominated by various State Governments, prominent industrial concerns and Trade Union Organisations, besides fresh students were taken up. In July 1955 the Institute started 2-year Diploma Course in Labour Welfare (Dip. L.W.) for training labour welfare officers. As in the past the institute gets the patronage of all State Governments, employers and trade union organisations.

Since July 1959 the Institute has been recognised by the Bombay University as a post-graduate institution of specialised studies leading to 2-year University Diploma in Labour Welfare (D.L.W.). The course is open to Degree holders in B.A., LL.B. or B.Com. of Bombay University or any other recognised University. B.Scs. are admitted with prior approval of the University.

The Institute is now also training Government Labour Officers, in the short in service training course of about 9 months' duration ; and the successful candidates are awarded the Labour Officers' Certificate (L.O.C.) of the State Government.

The Institute has started a full time one-year post Intermediate (relaxable to S.S.C. level) Diploma Course in Trade Unionism on behalf of the Maharashtra Government with a view to equipping workers and others concerned with the welfare of workers with adequate information and knowledge on scientific trade unionism, to encourage workers to become healthy and sound Trade Unionists, to promote better industrial relations and to strive for unity in the Trade Union movement.

The Institute operates the State Workers' Education Scheme on behalf of the Government to train and discipline the mind of the workers, to enable them to be good and efficient workers and to promote better industrial relations. The class is open to all factory workers and each session lasts for 3½ months.

On behalf of the Planning Commission the Institute conducts from time to time Case-studies of Labour-Management Relations in different units.

The faculty consists of the following members. In addition, outside experts in various fields of labour are invited to deliver lectures on topics contained in the curriculum.

## UNIVERSITY OF BOMBAY

### Bombay 1.

INCORPORATED under Act XXII of 1857 (subsequently amended by Act VII of 1904, and reconstituted by the Bombay University Act IV of 1928 and Act XXXI of 1953).

The Senate meets ordinarily once a year in March on a date fixed, and at other times when convened, by the Vice-Chancellor. A meeting of the Senate can be convened on the requisition of at least twenty-five Fellows to the Vice-Chancellor. Thirty members of the Senate form a quorum; and all questions are decided by a majority of the votes of the members present, the Chairman, when the numbers are equal, having a second or casting vote. There are seven Faculties, *viz.* Arts, Science, Technology, Law, Medicine, Commerce and Dentistry. Each Faculty elects its own Dean. Convocations for conferring degrees are held twice a year — the Annual Convocation is held in August — and the Special Convocation is held in February.

The Executive Government of the University is vested in the Syndicate. The Vice-Chancellor is the Chairman of the Syndicate.

* In the case of some institutions, besides the title and address a short note is added about their curriculum, etc. This is generally done where the objects, curriculum, organization are not immediately obvious from the title. A note is also added when an institution appears in our book for the first time. The addition of a note is not necessarily an indication of the institution's relative importance, that is, in relation to others.

This is a teaching and affiliating University.

The University began to function as a Statutory Body with effect from 13th January 1951 by an Act known as 'The Shreemati Nathibai Damodar Thackersey Women's University Act No. LI of 1949' and Dr. Smt. Premlila V. Thackersey, D.Litt. was elected as its Vice-Chancellor.

The University conducts an Arts College, a College of Nursing, a College of Education, a College of Home Science, and a School of Library Science at Bombay, and one Arts College and a College of Education at Poona. It also conducts two High Schools at Bombay and Poona. Five Colleges at Ahmedabad, Bhavnagar, Baroda, Surat and Matunga are permanently affiliated to this University and four colleges at Ghatpokar, Fanaswadi, Surendrangar and Visnagar are temporarily affiliated to it. A College at Sholapur has been granted temporary affiliation from the year 1965–66.

The Senate is the Supreme Governing Body. It meets ordinarily twice a year and consists of 93 members ; 40 elected, 12 nominated, 40 ex-officio, and 1 special member. The Annual Convocation for conferring the Degree is generally held in the month of September as decided by the Chancellor.

The executive government of the University is vested in a Syndicate consisting of the Vice-Chancellor, Dr. Smt. Premlila V. Thackersey, the Deputy Director of Education, Smt. Sharda Divan, Dean of the Faculty of Arts, Principals of conducted and affiliated colleges and 10 Fellows elected by the Senate for three years.

## "DUFFERIN," TRAINING SHIP

Off Mazagon Pier, Bombay 10.

(Under the administrative control of the Government of India, Ministry of Transport).

The "Dufferin" is a pre-sea training ship for cadets aspiring to become Navigating Officers and ultimately the Captain of a ship in the Merchant Navy. A large number of Dufferin ex-cadets are also employed as officers in the Indian Navy, Port Services, Mercantile Marine Department and other ancillary services.

The course is of 2 years duration and consists of educational and professional subjects, stress being laid upon officer-like qualities and physical proficiency. All cadets are resident on board and are required to be physically fit to take part in all ship's activities. On satisfactory completion of training, cadets are accepted in sea-going ships of the Merchant Navy for 3 years apprenticeship. After passing the Ministry of Transport Certificate of Competency they become qualified for appointment as Navigating Officers.

The age limits for admission are 15½ to 18 years on the 1st of July of the year of entry. Annually about 80 cadets who have matriculated are selected on the basis of an all-India qualifying examination, and interview. The approximate total cost to a parent is about Rs. 2,600. A large number of scholarships ranging in value from Rs. 400 to Rs. 1,800 are available.

The first cadets joined the Training Ship in November 1927 since when 1,457 cadets have been trained for a sea career ; in addition between the years 1936 and 1949, 287 cadets were trained for the Engineering Branch. Of the 1,457 cadets, 590 are Officers in the Merchant Navy, 55 are serving in the Indian Navy, 245 in the Port Services and 75 are serving in the ancillary and other services. In addition, there are 160 cadets in training on board the ship.

The "Dufferin Committee" under the auspices of the Merchant Navy Training Board presided over by the Minister of Transport, with the Director General of Shipping as Chairman is the Advisory Body.

## TATA INSTITUTE OF FUNDAMENTAL RESEARCH

Colaba, Bombay 5.

The Tata Institute of Fundamental Research was established jointly by the then Government of Bombay (now Government of Maharashtra) and the Trustees of the Sir Dorabji Tata Trust in June 1945. The object of this all-India Institute is fundamental research in Physics, Mathematics and allied sciences.

In 1948, the Government of India entrusted to the Institute several of its research projects. In view of the Government of India's increasing financial assistance, the Institute's constitution was amended in 1956, and a tripartite agreement, between the Government of India, the then Government of Bombay (now Government of Maharashtra) and the Sir Dorabji Tata Trust, came into force on April 1, 1956.

The Government of India has recognised the Institute as the National Centre for advanced study and fundamental research in nuclear science and mathematics. The Institute is permanently recognised by the University of Bomay as a constituent recognised institution for post-graduate research in physics and mathematics.

Prior to the formation of the Atomic Energy Establishment at Trombay, the Atomic Energy Commission of the Government of India entrusted to the Institute all its large-scale nuclear research projects. The Institute, therefore, can rightly be called the cradle of India's Atomic Energy Programme.

The Institute is managed by a Council consisting of the representatives of the three contracting parties.

COUNCIL

Founded by the Sir Dorabji Tata Trust in 1936, this pioneer institution offers a two-year programme of training in social work and social sciences and a one year training pogramme in Social Research to graduates of recognised Universities. In recognition of its pioneering efforts, the Government of India has conferred on the Institute the status of a University.

The Institute maintains a high academic standard and gives thorough practical training aimed at providing public and industrial organisations with workers trained in professional social work, the fields of specialisation being Criminology and Correctional Administration, Family and Child Welfare, Labour Welfare and Industrial Relations, Medical and Psychiatric Social Work, Rural Welfare, Social Research, Tribal Welfare and Urban Community Development.

The Department of Social Research promotes research in Social problems. A Labour Research Centre has been set up recently. The Department of Publications publishes literature on social work and related subjects. The Indian Journal of Social Work, which is a quarterly, is published in April, July, October and January.

The Institute has one of the best Social Science Libraries in the country with over 17,000 books in the related fields. A Documentation List is published by the Library once a fortnight.

The Institute conducts a Child Guidance Clinic, which besides providing guidance to parents and treatment to children with personality defects, serves as a laboratory for the students of the Institute to gain practical experience in handling, diagnosing and treating problem children.
